Adding a Printer in Windows 7

1) Click on the Start Button
2) Click on Devices and Printers

3) Click on "Add a Printer"
4) Click on "Add a network, wireless or Bluetooth printer"
5) Click on "→ The printer that I want isn't listed"
6) Select "Find a printer in the directory, based on location or feature" and click Next
7) You may browse through the list to find the appropriate printer. You may also filter the list by searching by Location. Example, "Grieco" under location
