About Trinitas Regional Medical Center

Trinitas Regional Medical Center (TRMC) is a major center for comprehensive health services for those who live and work in Central New Jersey. Offering 531 beds, Trinitas is distinguished by no less than ten Centers of Excellence, which include: the Trinitas Comprehensive Cancer Center; the Trinitas School of Nursing; the Center for Wound Healing & Hyperbaric Medicine, The Trinitas Comprehensive Sleep Disorders Center; cardiology services, maternal/child health services; diabetes management; women's services; renal care; behavioral health services, and senior services. The Department of Behavioral Health & Psychiatry offers one of the most Comprehensive services in the state for the psychiatric treatment of children and adults. The Trinitas School of Nursing, the sixth largest nursing school in the nation, offers a diploma in nursing as well as an Associate in Science Degree and has a diverse student body of more than 2,000 students. The National League of Nursing recently accorded the Trinitas School of Nursing its designation as a Center of excellence in Nursing Education. TRMC serves as the Center for End-Stage Renal care for Eastern Union County. TRMC is a Catholic teaching medical center sponsored by the Sisters of Charity of Saint Elizabeth in partnership with Elizabethtown Healthcare Foundation.

CHILDREN'S MOBILE RESPONSE & STABILIZATION SYSTEM

New Point Campus
655 East Jersey Street
Elizabeth, NJ 07206

The Children's Mobile Response and Stabilization System (CMRSS) was developed by the Partnership for Children in coordination with Trinitas Regional Medical Center. The CMRSS provides immediate and intensive services with the goal of maintaining children in the community and their home environment. We work together with the family to maximize strengths and help provide services to support the relationship between the youth and their family.

HOW CAN YOU REACH US?

With consent from the guardian, you can reach us by calling:

1-877-652-7624

A representative from the Contract System Administrator (CSA) will receive the initial information. Based on the information provided, the CSA chooses from a variety of possible services to help stabilize the situation.

RESPONSE SYSTEM

When the CSA representative determines that CMRSS will best serve the needs of the child and family, they will refer the call to the CMRSS and a Mobile Response Worker will respond to the location of the crisis.

The Mobile Response worker will work with the family and child to develop and implement an Initial Crisis Plan (ICP).

CMRSS will remain involved for us to 72 hours following the development of an ICP for families who are able to stabilize with these interventions.

We are available 24 hours/7 days a week

STABILIZATION SYSTEM

If a child and family require more Intensive Intervention and further Stabilization CMRSS can initiate services for up to 8 weeks.

CMRSS can provide crisis stabilization services. CMRSS also assists families in accessing community based therapeutic services (Short-Term Intensive In-Home Therapy, Individual, Group and Family Counseling, Partial Hospitalization Programs). CMRSS can also refer a child to Case Management Services to help stabilize the situation.

We work with the child and family to Determine what service is necessary to maintain the child in their natural environment.

CMRSS utilizes community-based Resources to provide the most Appropriate interventions and Services for the child and family.

WHO DO WE SERVE?

Any child who resides in Union County is eligible for our services. We typically work with children who are at risk and require intervention to stabilize them in their home/community environment.

We also provide stabilization services to children in the foster care system to help them adjust to and maintain their foster placement.
