

Dear Parents and/or Guardians,

During the closure of our school, it is important to continue education at home. All students are expected to complete the following:

- Daily reading should continue for at least 30 minutes per day.
- Any instructional materials sent home with students should be worked on daily with the goal of completing the packet by the time students return to school. All work should be returned to school upon the school reopening.

In addition to the above daily expectations, students are encouraged to complete the following supplemental learning if they have internet access:

- Students in grades K-5 have logins for on-line resources that will allow them to continue to work on ELA and Math skills. Students can find these sites on the school website.
- RAZ Kids and Dreambox should be used daily for 20-30 minutes each. Teachers have provided students with their usernames and passwords to these sites.

For more information tailored to your specific school, please visit your school's website and navigate to the "Distance Learning Plan" header, and scroll over to view the Supplemental Materials listed by grade level.

We thank you for your continued support and understanding, as always.

Sincerely,

CSDNR Elementary Staff
