CSDNR

August 17 - September 4th

Professional Development Brochure

The Instructional Technology Team will provide professional learning opportunities to teachers and families beginning the week of August 17th and running to September 4th. **This Instructional Technology Institute** includes over 30 one-hour online sessions to provide participants with a working understanding of each application in order to begin the school year. At this Institute, we will also be offering STAR Informational Sessions to introduce the new platform and some of the features of this assessment program. Additionally, once the school year begins, we will be offering workshops to families on Chromebook Usage and Care. The workshops for families are intended for parents/guardians. However, parents/guardians may opt to include students at these sessions. Please see the schedule below for descriptions and details for all sessions.

You will need to register for each workshop you would like to take. Once you have registered, a Zoom link will be provided to you. In order to register for a session, click on the date of the workshop you wish to attend. You must register at least one day prior to the start of the workshop. If you have any questions, please contact Deb Fishman at dfishman@nredlearn.org.

These workshops will be recorded if you cannot attend and the accompanying materials will be posted on the **Instructional Technology Website**. We will be offering these workshops again during the school year. After each session, we ask that you fill out a follow-up form so that we can address questions and other topics at future workshops.

El Equipo de Tecnología Educativa proporcionará oportunidades de aprendizaje profesional a los maestros y las familias a partir de la semana del 17 de Agosto hasta el 4 de septiembre. Este **Instituto de Tecnología Educativa** incluye más de 30 sesiones en línea de una hora para brindarles a los participantes una comprensión práctica de cada aplicación para comenzar el año escolar. En este Instituto, también ofreceremos sesiones informativas STAR para presentar la nueva plataforma y algunas de las características de este programa de evaluación. Además, una vez que comience el año escolar, ofreceremos talleres a las familias sobre el uso y cuidado de los Chromebooks. Los talleres para familias están destinados a padres/tutores. Sin embargo, los padres/tutores pueden optar por incluir estudiantes en estas sesiones. Consulte el programa a continuación para obtener descripciones y detalles de todas las sesiones.

Deberá registrarse en cada taller que le gustaría tomar. Una vez que se haya registrado, se le proporcionará un enlace de Zoom. Para inscribirse en una sesión, haga clic en la fecha del taller al que desea asistir. Debes registrarte al menos un día antes del inicio del taller. Si tiene alguna pregunta, comuníquese con Deb Fishman en dfishman@nredlearn.org.

Estos talleres se grabarán si no puede asistir y los materiales adjuntos se publicarán en el sitio web de tecnología educativa. Ofreceremos estos talleres nuevamente durante el año escolar. Después de cada sesión, le pedimos que complete un formulario de seguimiento para que podamos abordar preguntas y otros temas en futuros talleres.

Workshop Offerings

For Families: Parents/Guardians/Students

Title	Description	Audience	Dates Offered
<ul style="list-style-type: none"> • Seesaw for Home Grades PreK-1 Facilitators: Katie Scherhauser & Shannon Mulqueen 	In this session, you will learn: <ul style="list-style-type: none"> • How Seesaw works • What your child sees • How to help your child • What assignments look like 	Families with Students Grades PreK-1	August 20 @ 11:30-12:30 September 2 @ 9-10
