6600 FISCAL ACCOUNTING AND REPORTING

The Board of Education insists on clear, complete, and detailed accounting of all financial transactions for which the Board is held accountable.

Accounting and Reporting Systems

The system of accounts will conform to the Uniform System of Accounts for School Districts, as defined by the State Comptroller’s Office. In addition, accounting and reporting will adhere to generally accepted governmental accounting standards. The accounting system will yield information necessary for the Board to make policy decisions and perform its oversight function.

The Board directs the Superintendent of Schools to keep informed of changes in state and/or Government Accounting Standards Board (GASB) accounting requirements and implement changes, as appropriate. The Board expects that the Superintendent of Schools will communicate new standards and/or requirements to the Board, as necessary, so that the Board can carry out its responsibilities.

Proposed expenditures will be budgeted under and the actual expenditures will be charged to categories that most accurately describe the purpose for which monies are to be spent.

The Board directs the Superintendent of Schools or designee to keep it informed of the financial status of the district through monthly and annual reports. The Superintendent or designee should highlight any deviation in actual fiscal conditions from planned fiscal conditions and offer recommendations to the Board to remedy the situation. The Business Affairs office will prepare and submit, through the Superintendent, to the Board and the Commissioner of Education, such reports as are prescribed by law. These shall be filed with appropriate governmental bodies as required by law or regulation. The district will cooperate with governmental agencies and research organizations as required by law for data concerning the fiscal operations of the district.

The district shall be audited annually by an independent certified public accountant or a public accountant. The auditor’s report shall be adopted by resolution and a copy shall be filed with Commissioner of Education.

The Superintendent or designee is hereby directed to respond to all audit findings and recommendations. Such response is to include a statement of the corrective actions taken or proposed to be taken, or if action is not taken or proposed, an explanation of reasons, as well as a statement on the status of corrective actions taken on findings or recommendations contained in any previous report of examination or external audit, or any management letter for which a response was required.

The Superintendent shall also ensure that the provisions contained in the General Municipal Law in regard to audit reports are followed.
Receipts of Funds

Monies collected by district employees and by student treasurers shall be handled with good and prudent business procedures both to demonstrate the ability of district employees to operate in such fashion, but also to teach such procedures to students.

All monies collected shall be received, accounted for, and dissected without delay to the proper location for deposit.

Monies shall not be left overnight in school buildings except in safes provided for the safekeeping of valuables where the amount of such monies is minimal. All school banks shall provide for making deposits after regular banking hours.
