Dear Parent /Guardian,

We are **requesting that every student**, in attendance in our district, receives a **thorough annual physical assessment** by his/her **primary health care provider regardless of grade level.**

- **If you don't have a primary health care provider, see the attached list.**

We are enclosing for your convenience a blank updated physical assessment card as required by the state education department.

The physical assessment card should be completed as follows:

- **The front of the card is to be completed in full, signed, stamped and dated by your primary health care provider.**
- **The back of the card is to be completed, signed and dated by the parent/guardian.**
- **Return the completed physical assessment card to your child's respective health office by October 15th.**

We are suggesting the following:

- **The physical assessment card should be performed after July 1st.**

Please refer to the school calendar or home page for more detailed information concerning school physical assessments and appraisals.
