Community Relations

Advertising and Promotion

The Board of Education recognizes that public schools should maintain careful controls on the way in which students and staff are exposed to materials and announcements, other than those directly related to school sponsored programs and activities. Although school districts are public institutions, fully supported by public taxes, the Board has a clear responsibility to protect students and their families and staff from exploitation by private interests including, but not limited to, commercial, cultural, economic, environmental, organizational and political exploitation.

There are situations, however, when it is educationally sound to make students and staff more aware of the social environment and their roles as members of society. In such situations, judicious dissemination of information to students about community activities is warranted. Each situation requires individual consideration and the judgment of responsible school officials must be the decisive factor. Caution is to be exercised to prevent exploitation of the system and its students, who represent a large and captive audience.

It is the policy of this Board that the students, the staff, or the facilities of the Shelton Public School District shall not be used to advertise or promote commercial, organizational, cultural, or other non-school interests except that the district may:

1. Cooperate, through announcements and distribution of program material, with a town agency or non-profit community organizations that benefit students and their families, when such cooperation will not interfere with the school program.

2. Permit participation on a student option basis in essay, art, science, and similar contests sponsored by outside interests when such activities parallel the curriculum and contribute to the educational program.

3. Permit monetary donations or pre-approved materials donations in memory of a past Shelton school or community member.

4. Permit monetary donations or pre-approved “material” donations from area businesses donated with “no intent” for special consideration.

5. Accept limited advertising on extracurricular activity schedules and programs at the discretion of the principal of the school involved.

6. Permit other exceptions when, in the judgment of the superintendent, students of the district will benefit. The superintendent may, at his or her option, refer specific cases to the Board for decision.
7. Allow advertising for the purchase of photographic services in connection with the class pictures and the services and goods deemed necessary by the principal for the normal student activities of a high school.

8. Candidates for election, including petitioners, or their representatives, shall not use District Resources, District personnel (except those employees who may voluntarily participate during non-duty hours), District events at which they are official participants, District stationary, or the District logo in support of their campaigns. Candidates, or their representatives, may not access students or employees during school hours for campaign purposes.

It is the responsibility of the Superintendent to evaluate and act on all requests for the acceptance and use of material contributions involving advertising and to refer to the Board all advertising issues he or she believes requires Board decision. The Superintendent is also authorized to arrange for appropriate public acknowledgement and recognition of contributions to the improvement of school programs and public facilities.
