

Do you want to be part of an exciting team that works on creative solutions?

Then First Lego League could be for you!

This year's theme is...

- FIRST LEGO League teams:
- Build, test and program a robot using a LEGO MINDSTORMS® kit
 - Choose and solve a real-world problem in the Project
 - Operate under the FLL set of Core Values

We will be looking for great ideas on how people locate, use, store and move water.

If you would like to be considered for the team please fill out the survey online or get a FLL packet from the main office. It tells about the times and days that the team meets.
