SUBJECT: CURRICULUM DEVELOPMENT, RESOURCES AND EVALUATION

The Board of Education supports and encourages development of a District-wide, articulated curriculum that conforms to state mandates and is responsive to the needs of children in a rapidly changing society. The administrators of the elementary and secondary schools shall be responsible to the Superintendent for developing District-wide efforts toward the short and long-range improvement of curriculum and instruction.

Curriculum Resources

There are many resources for curriculum development that exist within our School District, and the instructional staff, under the guidance of the administration, is expected to examine and review those resources for possible improvement of the instructional program. Each teacher has the privilege of being an initiator of improvement, as well as a reactor to changing conditions, and the administrators shall be involved in curriculum development.

The Superintendent may appoint curriculum study committees, whose findings as well as collective judgments regarding possible program and/or curriculum changes, shall be submitted to the Superintendent and Board of Education.

Curriculum Evaluation

The Board of Education shall direct a continuing evaluation of the curriculum as part of a program of instructional improvement. The administrative staff shall evaluate the curriculum in a systematic manner involving school personnel and others as appropriate. In addition, the administrative staff shall make periodic recommendations to the Superintendent and Board of Education. Also, the Board of Education from time to time may invite teachers or others to discuss the curriculum.

Curriculum evaluation is concerned with the extent to which:

- a) Each student achieves in accordance with his/her ability;
- b) Each staff member performs at full potential;
- c) The total learning environment, including institutional processes, physical facilities, and the educational program, remains consistent with the needs of students and the larger society and contributes to the accomplishment of the goals of the school.

The Board of Education expects staff members to maintain a continual program of evaluation towards the schools' and District's objectives. The Board of Education will periodically request the Superintendent to present factual information that it considers necessary to evaluate the effectiveness of the school system.

(Cont'd.)**

In addition, parents and members of the community are encouraged to provide feedback on District curricula and instruction. The Superintendent will consult with building administrators, teachers, students and the community in order to develop a comprehensive curriculum and to promote a continuing review and upgrading of such curriculum. Input from Building Level Advisory Committees will be utilized in evaluating and revising District curricula.

Further, curriculum changes will take into consideration the results of the State Comprehensive Assessment Report, local testing, classroom evaluations, reflect minimum State requirements, and address future needs of the community and student population.

Further, the Board of Education expects administrators and staff to work together in evaluating the educational program and recommending changes or additions in courses, programs, instructional methodology and/or staff development activities which are necessary to implement such changes and/or additions.

Further, major changes in program must have the approval of the Board of Education.

SUBJECT: REQUEST FOR PART 100 VARIANCE OR PART 200 INNOVATIVE PROGRAM WAIVER FROM COMMISSIONER'S REGULATIONS

Consistent with the purposes of *A New Compact for Learning*, the Board of Education encourages collaboration by teachers, administrators, parents and students of the District in developing innovative educational programs and practices that will lead to greater achievement for all students.

Requests for a variance or waiver from the requirements in Part 100 and Sections 200.1/200.6, respectively, of the Commissioner's Regulations must be approved by the local Board of Education and signed by the Superintendent of Schools. An application may also be submitted by several districts, or a combination of districts, BOCES and/or private schools, applying as a consortium. Consortium applications must be approved by each participating local Board of Education and Superintendent of Schools.

Subsequent to Board of Education approval, all applications must be forwarded to the District Superintendent of Schools of which the local District is a part for review, consultation, and recommendation prior to submission to the State Education Department. The District Superintendent may provide technical assistance to the applicant and make recommendations to the State Education Department. Interested applicants may also request technical assistance through their Regional Education Coordinator.

SUBJECT: EQUAL EDUCATIONAL OPPORTUNITIES

It is the policy of this District that each student attending its public schools shall have equal educational opportunities and will not be excluded or prevented from participating in or having admittance to the educational courses, programs or activities; school services; and extracurricular events on the basis of race, color, creed, religion, national origin, political affiliation, sex, sexual orientation, age, marital status, military status, disability, or use of a recognized guide dog, hearing dog or service dog. Sexual orientation is defined as heterosexuality, homosexuality, bisexuality, or asexuality, whether actual or perceived.

Administration shall establish grievance procedures that provide for the prompt and equitable resolution of complaints pertaining to discrimination on the basis of race, color, creed, religion, national origin, political affiliation, sex, sexual orientation, age, marital status, military status, disability, or use of a recognized guide dog, hearing dog or service dog.

Prohibition of Retaliatory Behavior

The Board prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participated in the investigation of a complaint of discrimination. Follow-up inquiries shall be made to ensure that discrimination has not resumed and that all those involved in the investigation of the discrimination complaint have not suffered retaliation.

Instruction

SUBJECT: SAFETY CONDITIONS AND PROGRAMS

The practice of safety will be considered an integral part of the instructional program through fire prevention, emergency procedures and drills, driver education, and traffic and pedestrian safety.

Each Principal will be responsible for the supervision of a safety program for his/her school.

The safety program may include, but not be limited to, in-service training, plant inspection, fire prevention, accident recordkeeping, driver and vehicle safety programs, emergency procedures and drills, and traffic safety programs relevant to students, employees and the community.

It shall be the duty of the Board of Education to provide inspections and supervision of the health and safety aspects of the school facilities.

Eye Safety/Student Use of Hand-Held Laser Pointers

Eye safety devices are to be provided by the School District for the protection of employees, students and visitors, and worn in the technology education classes and labs when activities present a potential eye hazard. The Superintendent or his/her designee will ensure that these devices are properly repaired, cleaned and stored to prevent the spread of germs or diseases after individuals use them.

Each classroom teacher is responsible for the safe and proper use of all instructional materials and equipment by students in his/her classroom. Laser pointers are to be used by students only when such use is approved and supervised by the classroom instructor.

Students will be advised not to stare directly into the beam from a laser pointer or direct the beam at the eyes of another individual. Students are not to aim the pointer into the audience. Students are to be made aware of the hazards associated with the particular type of laser pointer used.

SUBJECT: PREVENTION INSTRUCTION

Acquired Immune Deficiency Syndrome (AIDS) Instruction in Health Education

The Board of Education shall provide a health education program that will include appropriate instruction for all students concerning Acquired Immune Deficiency Syndrome (AIDS). Accurate information concerning the nature of the disease, methods of transmission, and means of prevention shall be provided in an age-appropriate manner and shall be consistent with community values and will stress that abstinence is the most appropriate and effective premarital protection against AIDS.

A representative community advisory group consisting of appropriate school personnel, School Board members, parents, religious representatives, and other community members shall be established in order to make recommendations for curriculum content, implementation, and evaluation of an AIDS instructional program. Appropriate training will be provided for instructional staff.

No student shall be required to receive instruction concerning the methods of prevention of AIDS if the parent or legal guardian has filed with the Principal a written request that the student not participate in such instruction, with an assurance that the student will receive this instruction at home.

AIDS instruction in the elementary grades shall be taught by the regular classroom teachers, while such instruction in the middle and high school grades shall be a part of the required health education curriculum.

Substance Abuse - Prevention Instruction

The Board of Education recognizes the need to educate students on the hazards of alcohol, tobacco and/or drug abuse. An educationally sequential health prevention program, utilizing as appropriate community, staff and student input, will be developed to inform students of:

- a) Causes for substance abuse;
- b) Physical and psychological damage associated with substance abuse;
- c) Avoidance of alcohol, tobacco and drugs;
- d) Dangers of driving while under the influence of alcohol or drugs.

Environmental Conservation Instruction

The Board of Education supports and encourages the development of a District-wide, articulated curriculum of environmental conservation integrated into other program disciplines.

SUBJECT: PREVENTION INSTRUCTION (Cont'd.)

Fire and Arson Prevention/Injury Prevention/Life Safety Education

The Board of Education directs the administration to provide instruction in fire and arson prevention, injury prevention and life safety education relating to protection against injury or death and property loss or damage as a result of criminally initiated or other preventable fire.

Such instruction shall include materials to educate children on the dangers of falsely reporting a criminal incident, an impending explosion or fire emergency involving danger to life or property, an impending catastrophe, or a life safety emergency.

The Board of Education directs the administration to provide such instruction for all students for a period of not less than forty-five (45) minutes in each month that school is in session.

Student Safety

Instruction in courses in technology education, science, home and career skills, art and physical education, health, and safety shall include and emphasize safety and accident prevention.

Safety instruction shall precede the use of materials and equipment by students in applicable units of work in the courses listed above, and instructors shall teach and enforce all safety procedures relating to the particular courses. These shall include the wearing of protective eye devices in appropriate activities.

Emergency Planning

The School District shall maintain updated plans and operating procedures to be followed in the event of natural or manmade disasters or enemy attack. Students shall be provided instruction to respond effectively in emergency situations.

Instruction on Prevention of Child Abduction

All students in grades K through 8 in District schools shall receive instruction designed to prevent the abduction of children. Such instruction shall be provided by or under the direct supervision of regular classroom teachers and the Board of Education shall provide appropriate training and curriculum materials for the regular classroom teachers who provide such instruction. However, at the Board's discretion, such instruction may be provided by any other public or private agency.

The Commissioner of Education will provide technical assistance to assist in the development of curricula for such courses of study which must be age appropriate and developed according to the needs and abilities of students at successive grade levels in order to provide awareness skills, information, self-confidence, and support to aid in the prevention of child abduction.

SUBJECT: PREVENTION INSTRUCTION (Cont'd.)

For purposes of developing such courses of study, the Board of Education may establish local advisory councils or utilize the school-based shared decision making and planning committee established pursuant to the Regulations of the Commissioner to make recommendations concerning the content and implementation of such courses. Alternatively, the District may utilize courses of instruction developed by consortia of school districts, boards of cooperative educational services, other school districts, or any other public or private agency. Such advisory council shall consist of, but not be limited to, parents, school trustees and Board members, appropriate school personnel, business and community representatives, and law enforcement personnel having experience in the prevention of child abduction.

Instruction on Child Development and Parenting Skills

Instruction regarding child development and parenting skills may be offered by the District. The curriculum shall include instruction on the consequences and prevention of shaken baby syndrome, which may include the viewing of a video presentation for students in secondary schools.

SUBJECT: CAREER AND TECHNICAL (OCCUPATIONAL) EDUCATION

The Board of Education recognizes the need for career and technical education and reaffirms its policy of strengthening the local high school career and technical education program through utilization of any available federal and state funds for that purpose and of supporting the BOCES program.

Equal Opportunity

The Board of Education prohibits discrimination on the basis of sex, sexual orientation, race, color, creed, religion, national origin, political affiliation, age, marital status, military status or disability in any career and technical education program or activity of this District.

The career and technical education program and/or activities shall be readily accessible to students with disabilities.

Public Notification

Prior to the beginning of each school year or academic semester, the District shall issue an appropriate public announcement which advises students, parents, employees and the general public that career and technical education opportunities will be offered without regard to sex, sexual orientation, race, color, creed, religion, national origin, political affiliation, age, marital status, military status or disability. Included in such announcement will be the name, address, and telephone number of the person designated to coordinate Title IX/Section 504/ADA activities.

Grievance Procedure

Grievance procedures for resolving complaints regarding discrimination shall be disseminated to adequately inform students, parents and employees of the existence of these procedures.

Local Advisory Council

In accordance with Education Law, the Board will appoint a Local Advisory Council for Career Education. The Board may, with BOCES approval, utilize the BOCES Advisory Council as its Local Advisory Council.

SUBJECT: TITLE I PARENT INVOLVEMENT POLICY

The Board of Education recognizes the rights of parents/persons in parental relation to be fully informed of all information relevant to their children, including children who participate in programs and projects funded by Title I. Therefore, the Board of Education encourages the participation of parents of students eligible for Title I services in all aspects of their child's education, including the development and implementation of district programs, as well as activities and procedures that are designed to carry out No Child Left Behind (NCLB) parent involvement goals.

District-Wide Parent Involvement Policy

In order to facilitate parental participation, in accordance with NCLB requirements, as outlined in the Elementary and Secondary Education Act Section 6318(a)(2), the District will:

- a) Involve parents in the joint development of the Title I Plan. If the plan is not satisfactory to the parents of children participating in Title I programs, the District will submit any parent comments to the State Education Department along with the District's plan;
- b) Provide the coordination, technical assistance, and support necessary to assist participating schools in planning and implementing effective parent involvement activities to improve student academic achievement and school performance;
- c) Build the schools' and parents' capacity for strong parental involvement through implementing and encouraging participation in appropriate parental involvement activities;
(District to list specific ways to encourage participation)
- d) Coordinate and integrate parental involvement strategies under Title I with those of other programs including, but not limited to, the Headstart Program, the Reading First Program, Even Start Program, Parent Resource Centers and other programs;
(District to list specific programs or activities)
- e) Conduct, with the involvement of parents, an annual evaluation of the content and effectiveness of the parental involvement policy in improving the academic quality of the Title I schools. The evaluation shall include identifying barriers to greater participation by parents in activities under the policy and use the findings of the evaluation to design strategies for more effective parental involvement and, to revise, if necessary, the parental involvement policies at the District and school levels;
(District to list way(s) to be used for annual evaluation [such as Parent Advisory Councilor Annual Title I Planning Meeting])

School-Level Parent Involvement Policy

In accordance with Section 6318(c), the Board of Education directs each school receiving Title I funds to ensure that a building level parental involvement plan is developed with the participation of that school's parents. In addition to the goals stated above, each school building level plan will describe the details to:

- a) Convene an annual meeting, at a convenient time, to inform parents of their school's participation in Title I programs and to explain Title I requirements and the right of the parents to be involved. All parents of children participating in Title I programs will be invited and encouraged to attend the meeting.
- b) Offer a flexible number of meetings, such as meetings in the morning or evening; and may provide (with funds provided under this provision of law) transportation, child care, or home visits, as such services relate to parental involvement;
- c) Involve parents in an organized, ongoing, and timely way in the planning, review, and improvement of Title I programs, including the planning, review, and improvement of the school parental involvement policy.
- d) Provide parents of participating children with timely information about programs, a description and explanation of the curriculum in use in Title I programs, the forms of academic assessment used to measure student progress, the proficiency levels students are expected to meet, and if requested by parents, opportunities for regular meetings to formulate suggestions and to participate, as appropriate, in decisions relating to the education of their children and respond to any such suggestions as soon as practicably possible; and
- e) Develop a school-parent compact jointly with parents that outlines how the parents, school staff and students will share the responsibility for improved student academic achievement and detail the means by which the school and parents will build and develop a partnership to help all children achieve the state's standards.
- f) The compact must include:
 - 1. A description of the school's responsibility to provide high-quality curriculum and instruction in a supportive and effective learning environment that enables the children served in Title I schools to meet the State's student academic achievement standards.

SUBJECT: INSTRUCTIONAL TECHNOLOGY

The Board of Education recognizes its responsibility to further the District's educational goals through the use of appropriate and high quality technological materials and equipment. For the purpose of this policy, technology refers to computers, interactive videodiscs, Compact Disc-Read Only Memory (CD-ROM) devices, local area networks, satellite transmission and other telecommunications equipment.

Continuing advances in technology are bringing about changes that have an increasing impact on the way we obtain, process, evaluate and use information. Therefore, the District is committed to:

- a) A comprehensive staff development program to ensure appropriate and effective use of technology.
- b) The preparation of students to utilize multiple types of technology.
- c) The integration of technology within and across all curriculum areas.
- d) The equitable distribution and access to technological equipment and materials for all students.
- e) The promotion of technology as an alternative to traditional methods of gathering, organizing and synthesizing information.
- f) The provision of sufficient funds, within the budgetary constraints of the Board, for the implementation of technology instruction.

The Board directs the Superintendent or his/her designee to assess the technological needs of the District's instructional program, research and review current materials and make recommendations to the Board.

SUBJECT: THE CHILDREN'S INTERNET PROTECTION ACT: INTERNET CONTENT FILTERING/SAFETY POLICY

In compliance with The Children's Internet Protection Act (CIPA) and Regulations of the Federal Communications Commission (FCC), the District has adopted and will enforce this Internet safety policy that ensures the use of technology protection measures (i.e., filtering or blocking of access to certain material on the Internet) on all District computers with Internet access. Such technology protection measures apply to Internet access by both adults and minors with regard to visual depictions that are obscene, child pornography, or, with respect to the use of computers by minors, considered harmful to such students. Further, appropriate monitoring of online activities of minors, as determined by the building/program supervisor, will also be enforced to ensure the safety of students when accessing the Internet.

Further, the Board of Education's decision to utilize technology protection measures and other safety procedures for staff and students when accessing the Internet fosters the educational mission of the schools including the selection of appropriate teaching/instructional materials and activities to enhance the schools' programs; and to help ensure the safety of personnel and students while online.

However, no filtering technology can guarantee that staff and students will be prevented from accessing all inappropriate locations. Proper safety procedures, as deemed appropriate by the applicable administrator/program supervisor, will be provided to ensure compliance with the CIPA.

In addition to the use of technology protection measures, the monitoring of online activities and access by minors to inappropriate matter on the Internet and World Wide Web *may* include, but shall not be limited to, the following guidelines:

- a) Ensuring the presence of a teacher and/or other appropriate District personnel when students are accessing the Internet including, but not limited to, the supervision of minors when using electronic mail, chat rooms, and other forms of direct electronic communications. As determined by the appropriate building administrator, the use of e-mail and chat rooms may be blocked as deemed necessary to ensure the safety of such students;
- b) Monitoring logs of access in order to keep track of the web sites visited by students as a measure to restrict access to materials harmful to minors;
- c) In compliance with this Internet Safety Policy as well as the District's Acceptable Use Policy, unauthorized access (including so-called "hacking") and other unlawful activities by minors are prohibited by the District; and student violations of such policies may result in disciplinary action; and
- d) Appropriate supervision and notification to minors regarding the prohibition as to unauthorized disclosure, use and dissemination of personal information regarding such students.

SUBJECT: THE CHILDREN'S INTERNET PROTECTION ACT: INTERNET CONTENT FILTERING/SAFETY POLICY (Cont'd.)

The determination of what is "inappropriate" for minors shall be determined by the District and/or designated school official(s). It is acknowledged that the determination of such "inappropriate" material may vary depending upon the circumstances of the situation and the age of the students involved in online research.

The terms "minor," "child pornography," "harmful to minors," "obscene," "technology protection measure," "sexual act," and "sexual contact" will be as defined in accordance with CIPA and other applicable laws/regulations as may be appropriate and implemented pursuant to the District's educational mission.

Under certain specified circumstances, the blocking or filtering technology measure(s) may be disabled for adults engaged in bona fide research or other lawful purposes. The power to disable can only be exercised by an administrator, supervisor, or other person authorized by the School District.

The School District shall provide certification, pursuant to the requirements of CIPA, to document the District's adoption and enforcement of its Internet Safety Policy, including the operation and enforcement of technology protection measures (i.e., blocking/filtering of access to certain material on the Internet) for all School District computers with Internet access.

Notification/Authorization

The District's Acceptable Use Policy and accompanying Regulations will be disseminated to parents and students in order to provide notice of the school's requirements, expectations, and student's obligations when accessing the Internet.

Student access to the DCS will automatically be provided unless the parent has submitted written notification to the District that such access not be permitted. Procedures will be established to define the process by which parents may submit a written request to deny or rescind student use of District computers.

The District has provided reasonable public notice and has held at least one (1) public hearing or meeting to address the proposed Internet Content Filtering/Safety Policy prior to Board adoption. Furthermore, appropriate actions will be taken to ensure the ready availability to the public of the District's Internet Content Filtering/Safety Policy, as well as any other District policies relating to the use of technology.

SUBJECT: DISTRICT WEB SITE

Internet access in the District provides an opportunity for students, parents, and staff to share information in a dynamic and unique way. One communication avenue is the District's web site. It has been implemented to provide information about curriculum, instruction, school-related activities and other general information related to the District's schools, programs and mission.

This policy defines the purpose of the District's web site and general use and publishing guidelines. The Board of Education directs the Superintendent of Schools to create and implement appropriate regulations to maintain the integrity of the information communicated on the District's web site.

Web content and web page developers will adhere to all provisions of this policy, its related regulations, and the Computer Use Policy/AUP (Acceptable Use Procedures).

Educational Value

All District web site content and links to external sites will be consistent with District goals to keep the public informed of District activities and support the success of the educational programs. Each building's homepage must include a disclaimer message indicating that when the user leaves the District web site, the District does not necessarily approve the site. No information that is offensive or materially disruptive to the educational process shall be permitted on the District web site. Links with sites with derogatory or offensive material will not be permitted. Also, no derogatory material toward any individual or group will be permitted on the District web site or on any links to the District web site.

Teacher Web Pages

The District web site will link to teacher-developed web sites provided that the teacher's web site meets the requirements set forth in this policy, its related regulations and the Computer Use Policy/AUP. Teachers should request approval, in writing, of a link through the Building Principal.

The District encourages the publication of web pages related to curriculum and informational materials. The District will not link or publish individual teacher sites that do not directly support established District curriculum and programs. All content must be kept current.

Student Web Pages

The District web site will publish web pages or link web sites created by students as part of a class activity. Material presented on student class activity web pages must meet the educational objectives of the class activity and be approved by the teacher and Web Site Manager. All content must be kept current. It will not be considered a violation of a student's free speech to require removal of material based on legitimate educational concerns or any violation of the Computer Use Policy or

this policy. Student web pages must include the following disclaimer: "This is a student Web Page. Opinions expressed on this page do not necessarily reflect and shall not be attributed to the District." The District reserves the right to remove or unlink any web pages that are in violation of this policy.

Privacy and Safety

At no time shall any personally identifiable student information appear on the District's web site or linked sites, except in accordance with the FERPA regulations, this policy and expressed written permission.

At no time shall any teacher's title and District e-mail address, or other staff member's personal information, other than name, appear on the District's web site or linked sites without the permission of the individual.

Information on Adults

Public information (such as the names, titles and contact information for members of the Board of Education and District office personnel, etc.) may be published on the web site as needed.

Information on Minors between the Ages of 13 and 18

Information on minors between the ages of 13 and 18 (such as *their names, photographs, projects such as essays, art work, poetry, etc.*) may be published on the web site *ONLY* with the expressed WRITTEN permission of the minor's custodial parent/guardian. The school should keep a copy of the completed permission form and send the original to the District Web Site Manager along with the material being submitted.

Information on Minors Younger than 13

No information on minors younger than 13, which could be used to identify any particular individual, is to be published on the District web site or any site to which the District web site links. Forbidden content includes names (first and/or last) and photographs identifying the student(s) by name. However, group and individual photographs of minors younger than 13 that do not identify the student(s) by name may be published on the District web site only with the expressed WRITTEN permission of the minor's custodial parent/guardian.

Copyright

All students and staff are directed to adhere carefully to all copyright laws and District policies and regulations regarding copyright protection. Web page authors are cautioned that material that may be copied legally under the "fair use" provision of copyright law may be viewed as a public

SUBJECT: INSTRUCTION FOR ENGLISH LANGUAGE LEARNERS OR STUDENTS WITH LIMITED ENGLISH PROFICIENCY

The Board of Education recognizes its responsibility to ensure that students of foreign birth or ancestry, who have limited English proficiency, are provided with an appropriate program of bilingual transitional education or a free-standing program of instruction composed of English as a Second Language component. Regulations and procedures shall be developed pursuant to the Regulations of the Commissioner to:

- a) Identify those students who are English language learners or who have limited English proficiency by means of a diagnostic screening of new entrants and provide a program of bilingual education or English as a Second Language for eligible students. A plan shall be developed to meet the educational needs of each student and proficiency will be measured annually by a language assessment instrument in order to determine further participation by a student. The plan will include assessment of each student's performance in content areas to measure the student's academic progress. State mandated tests may be offered in a student's native language.
- b) Ensure that such students have access to appropriate instructional and support services, including guidance programs pursuant to Commissioner's Regulations and the opportunity to participate in District educational programs, including all existing extracurricular programs and activities, which are available to all other students enrolled in the public schools of the District.

The instructional programs and services available to limited English proficient pupils to help them acquire English proficiency may include, pursuant to Commissioner's Regulations, bilingual education programs, free-standing English as a second language programs, appropriate support services, transitional services, in-service training and parental notification.

No pupil shall be served in a bilingual or English as a second language program pursuant to Commissioner's Regulations for a period in excess of three (3) years from the date of enrollment in school unless such period is extended by the Commissioner of Education with respect to an individual pupil for a period not to exceed six (6) years.

A student whose score on an English language assessment instrument as specified in Section 154.2(a) of the Commissioner's Regulations is a result of a disability shall be provided special education programs and services in accordance with the individualized education program (IEP) developed for such student and shall also be eligible for services pursuant to Part 154 of the Commissioner's Regulations when these services are recommended in the IEP.

The parent/guardian of a student identified as an English language learner or as limited English proficient shall be informed in his/her native language, if necessary, of the student's identification for and/or participation in an English language learner instructional program.

The purpose of instructional materials shall be to implement, enrich, and support the educational program of the school.

Instructional materials should contribute to the development of positive social and intellectual values of the students.

The Board of Education shall provide the faculty and students in the District with such instructional materials as are educationally needed and financially feasible to make the instructional program meaningful to students of all levels of ability. In addition, the Board will ensure that all instructional materials will be made available in a usable alternative format for each student with a disability at the same time as such instructional materials are available to non-disabled students. The alternative format must meet the National Instructional Materials Accessibility Standard (NIMAS) defined in federal law.

SUBJECT: SELECTION OF LIBRARY AND AUDIOVISUAL MATERIALS

The Board of Education agrees that the responsibility of the school library is:

- a) To provide materials that will enrich and support the curriculum, taking into consideration the varied interests, abilities and maturity levels of the students served.
- b) To provide materials that will stimulate growth in factual knowledge, literary appreciation, aesthetic values and ethical standards.
- c) To provide a background of information that will enable students to make intelligent judgments in their daily lives.
- d) To provide materials on opposing sides of controversial issues so that young citizens may develop, under guidance, the practice of critical reading and thinking.
- e) To provide materials representative of the many religious, ethnic, and cultural groups and their contribution to our American heritage.
- f) To place principle above personal opinion and reason above prejudice in the selection of materials of the highest quality in order to assure a comprehensive collection appropriate for the users of the library.

In interpreting these principles, the following will apply:

- a) Broad and varied collections will be developed systematically by the librarian and the audiovisual specialist, based on recommendations of the professional staff and suggestions of students and parents. Final approval will be made by the Building Principal.
- b) Qualitative standards of selection involving factual accuracy, authoritativeness, artistic quality and appeal will be applied by librarians and audiovisual specialists before purchases are made.
- c) Materials will not be excluded because of the race, nationality, political opinions or religious views of the author.
- d) Materials will be continuously re-evaluated in relation to changing curriculum and instructional needs. Worn out, out-dated materials will be discarded.

SUBJECT: ANIMALS IN THE SCHOOL (INSTRUCTIONAL PURPOSES)

Observation and experimentation with living organisms and animals gives students unique perspectives of life processes. Animals and animal materials should be used respectfully and for the purpose of meeting course objectives.

The Board of Education, in recognizing the educational uses of animals in the classroom, requires that permission be obtained from the Building Principal before animals are brought into the school or classrooms. It is the Principal's responsibility to ensure that there is an appropriate educational purpose if any animal is housed in a classroom. Animals are not to be transported on school buses with the exception of animals certified to assist persons with disabilities.

Study and Care of Live Animals

It shall be the responsibility of the Principal or his/her designee to develop a plan of care for those animals housed in school in the event of an emergency school closing or in the event the animals remain in the classroom on days when school is not in session.

Dissection of Animals

Any student expressing a moral or religious objection to the performance or witnessing of the dissection of an animal, either wholly or in part, shall be provided the opportunity to undertake and complete an alternative project approved by the student's teacher; provided, however, that such objection is substantiated in writing by the student's parent or legal guardian. An alternate activity clearly related to and of comparable rigor will be assigned in lieu of laboratory dissection. Some examples of alternate activities include the use of computer simulations or research. Students who perform alternative projects shall not be penalized.

Effective July 1, 2011, the District will give reasonable notice to all students enrolled in a course that includes the dissection of an animal and students' parent(s)/legal guardian(s) about their rights to seek an alternate project to dissection. Such notice shall be made available upon request at the school and distributed to parents and students enrolled in a course that includes dissection at least once at the beginning of the school year.

Instruction in the Humane Treatment of Animals

Students in elementary school must receive instruction in the humane treatment and protection of animals and the importance of the part they play in the economy of nature as well as the necessity of controlling the proliferation of animals that are subsequently abandoned and caused to suffer extreme cruelty. Such instruction shall be for a period of time as specified by the Board of Regents and may be joined with work in literature, reading, language, nature study, or ethnology.

SUBJECT: TEXTBOOKS/WORKBOOKS/CALCULATORS/INSTRUCTIONAL COMPUTER HARDWARE

Textbooks

The term "textbook" shall refer to a book supplied to a student for a fixed period of time for his/her personal use and basic to the study of a subject. The Board of Education shall make provision for funds to be budgeted for the purchase of textbooks and related instructional materials.

Upon the recommendation of the Superintendent of Schools, the Board of Education shall designate the textbooks to be used. Textbooks, once designated, cannot be superseded within a period of five (5) years except by a three-fourths (3/4) vote of the Board.

As required by federal law and New York State Regulations, the District has adopted the National Instructional Materials Accessibility Standard (NIMAS) to ensure that curriculum materials are available in a usable alternative format for students with disabilities. To facilitate this process, the District will participate in the National Instructional Materials Access Center (NIMAC) and will require that all contracts with publishers for textbooks and other printed core materials executed after December 2006 include a provision requiring the publisher to produce NIMAS files and send them to NIMAC.

Students will be required to pay for lost books or for excessive damage to books.

Textbooks for Resident Students Attending Private Schools

Resident students attending private schools will be supplied non-sectarian textbooks in accordance with the requirements of Education Law.

Workbooks

The term "workbook" shall refer to the type of book that provides spaces to write in and is consumed each year. It is usually paper-covered and designed to be used in connection with a textbook. The Board of Education shall approve the expenditure of funds for the purchase of workbooks and manuals.

Calculators

The District can require students to provide their own "supplies" (defined as something which is consumed in use, loses its appearance and shape in use, expendable, and inexpensive). Examples include pencils, pens, paper, etc. Calculators do not fall into this category and must be considered like classroom teaching materials for which the District is authorized to levy a tax. In addition, the District may purchase, and must still provide, calculators even if operating under a contingent budget if the calculators are required for participation in an educational program.

Instructional Computer Hardware

Loan to Students Attending Nonpublic Schools in the District

The School District shall loan, upon request of an individual or a group of individual students, to all students legally attending nonpublic elementary or secondary schools located in the School District, instructional computer hardware which is designated for use in any public elementary or secondary schools of the State or is approved by any school authorities as such term is defined in Education Law Section 2(12).

Such instructional computer hardware is to be loaned free to such children, subject to such rules and regulations as are or may be prescribed by the Board of Regents and school authorities and shall be required for use as a learning aid in a particular class or program. Instructional computer hardware containing computer software programs which are religious in nature or content shall not be purchased or loaned by the School District.

The School District shall not be required to loan instructional computer hardware to nonpublic school students in excess of that acquired pursuant to Education Law Section 753 and shall be loaned on an equitable basis to children attending nonpublic schools in the District and to students with disabilities residing in the District who attend programs under the provisions of Education Law Sections 4401(2)(c),(2)(e),(2)(g),(2)(i), and (2)(l). However, the School District shall not be required to loan instructional computer hardware purchased with local or federal funds or with State funds, other than Instructional Computer Hardware Aid funds.

School authorities shall specify a date by which written requests for the purchase and loan of instructional computer hardware must be received by the District. Such date shall not be earlier than the first day of June of the school year prior to that for which such instructional computer hardware is being requested. For a child not attending a nonpublic school prior to June first, the parent/guardian may submit a written request for instructional computer hardware within thirty (30) days after such child is enrolled in the nonpublic school. In no event, however, shall a request made later than the times otherwise provided pursuant to Education Law Section 754 be denied where a reasonable explanation is given for the delay in making the request. All nonpublic schools in the School District shall be notified of the specified date.

SUBJECT: RELIGIOUS EXPRESSION IN THE INSTRUCTIONAL PROGRAM

The Board of Education acknowledges the importance of religion to the understanding of society and the richness of the human experience. In approaching the teaching about religion in the school, the District will be guided by three concepts when making decisions about the appropriateness of activities for inclusion in the school program: the activity should have a secular purpose; the activity should neither advance nor inhibit religion; and the activity must not foster an excessive entanglement of "government" with religion.

Nurturing the development of knowledge and respect for the rights of all cultural and religious groups is a continuing goal of the School District. Students, faculty and administration are reminded of the pluralism of religious beliefs and are urged to be conscious of and respect the sensitivity of others.

Opportunities to learn about cultural and religious traditions should be provided within the framework of the curriculum. Information about religious and cultural holidays and traditions focusing on how and when they are celebrated, their origins and histories should be part of this instruction. This educational opportunity should be handled with great care, sensitivity and respect for the feelings and beliefs of individuals.

An environment should be created and encouraged where students of various ethnic backgrounds feel comfortable in sharing comments about their religious and cultural traditions. No student should be singled out to share or participate in such discussions solely on the basis of that student's identification with the cultural/religious heritage being addressed. A student's preference not to share or participate in such discussions should be honored and respected without penalty.

School Activities Related to Religious Holidays or Themes

School activities related to the teaching about religious holidays or themes must be consistent with, representative of, and congruent with the District's curriculum.

In planning school activities related to the teaching about religious holidays or themes, special effort must be made to ensure that the activity is not devotional and that students of all faiths can join without feeling they are betraying their own beliefs.

In planning school activities related to the teaching about religious holidays or themes, age appropriate activities are encouraged within the framework of the curriculum. Teaching about religious and cultural holidays may include such special activities as parties and special foods, if they reinforce educational goals.

Symbols in the Schools

The purpose of using religious symbols should be to teach about religious concepts and traditions, and to convey historical or cultural content, not to promote or celebrate religious concepts, events or holidays.

SUBJECT: RELIGIOUS EXPRESSION IN THE INSTRUCTIONAL PROGRAM (Cont'd.)

Music in the Schools

The purpose of using religious music should be to teach musical concepts, to convey historical and cultural content, or to create aesthetic experiences in a setting which emphasizes artistic expression and educational value, not to promote or to celebrate a religious faith.

Curriculum Areas in Conflict with Religious Beliefs

Students shall be given the option to be excused from participating in those parts of an activity, program, or area of instruction involving a religious theme which conflicts with their own religious beliefs or that of their parents/guardians in accordance with applicable law and regulations. Alternatives may be provided that are of comparable instructional value.

SUBJECT: INDEPENDENT STUDY

Independent study, for credit, will be available to meet the individual needs of students in grades 9 through 12. The Principal, after consultation with relevant faculty, may award transfer credit for work done through independent study. The decision should be based on whether the student's record indicates that the work is consistent with New York State commencement level learning standards and is of comparable scope and quality to that which would have been done in the school awarding the credit. Credit shall be granted only for courses in the approved curriculum.

SUBJECT: FIELD TRIPS

The Board of Education recognizes that field trips are an educationally sound and important ingredient in the instructional program of the schools.

For purposes of this policy, a field trip shall be defined as any journey by a group of students away from the school premises, under the supervision of a teacher, which is an integral part of an approved course of study and conducted for the purpose of affording a first-hand educational experience not available in the classroom.

Field trips are a part of the curriculum of the schools, and student conduct and attendance on field trips are governed by the same rules that govern regular classroom activities. The Mount Pleasant Central School District shall obtain written parental/guardian permission for students going on school-sponsored field trips.

The Superintendent shall submit a report on any and all proposed field trips for the school year to the Board of Education for approval.

The Superintendent shall prepare procedures for the operation of a field trip activity. Field trip support shall be determined annually by the Board during its budget deliberations. Regardless of the fiscal support for field trips, the rules of the School District for approval and conduct of such trips shall apply.

The Superintendent/designee may cancel previously approved field trips due to extenuating circumstances.

Instruction

SUBJECT: HOME INSTRUCTION (HOME SCHOOLING)

From time to time, parents will choose to instruct their children at home. The School District will attempt to cooperate with parents who wish to provide home schooling for their children realizing that the child who is educated at home should receive an education in a manner consistent with an educational plan and at least substantially equivalent to that given to students of like age and attainments in the local public schools. The required subjects should be taught in a competent, systematic, and sequential manner, specifically in relation to the required courses as enumerated in Commissioner's Regulation Section 100.10.

Provision of Services to Home-Instructed Students

They are not awarded a high school diploma. A high school diploma may only be awarded to a student enrolled in a registered secondary school who has completed all program requirements set by the Board of Regents, the school or the District.

- a) They are not eligible to participate in interscholastic sports. Commissioner's Regulations mandate that only students enrolled in the public school are allowed to participate in interscholastic sports.
- b) The District is not required to loan available textbooks and other materials (e.g., library materials, microscopes, computer software, movie projectors).
- c) The School District is not required to furnish health services.
- d) The District is not responsible for providing remedial programs.
- e) They may not participate in the instructional program of the School District except for dual enrollment opportunities the District *may* make available under the "Dual Enrollment Law" and for special education programs and services the District is required to offer.
- f) The District shall offer a home-instructed student with disabilities the special education services as addressed in the approved Individualized Education Program (IEP) by the Committee on Special Education. *However, there is no requirement that such services be provided in the student's home.* Further, the District shall conduct a census and register of students with disabilities who reside in the District in accordance with Education Law and Commissioner's Regulations.

Primary responsibility for determining compliance with Commissioner's Regulations addressing home instruction rests with the Superintendent of Schools of the school district in which a home-instructed student resides.
