HOMEBOUND INSTRUCTION

POLICY - 117

If a prolonged absence due to illness occurs, the parent/guardian may submit a physician's statement to arrange homebound instruction for the student. Homebound Instruction is generally reserved for absences expected to be in excess of several weeks. Please see Policy #117 for specific policy language.

The necessary physician's form for homebound instruction is available in each building office.

The following Homebound Information is reprinted from the Yough Education Association (YEA) contract.

1. Preference in Homebound Instruction will be given to teachers regularly employed in the District.
2. Opportunities for Homebound Instruction shall be posted in all buildings for three (3) days and announced as soon as the need for an instructor is known. Employees desiring such assignments should register with the building principal within three (3) days of posting notice. Teachers who have the homebound student in class will be given first preference, followed by teachers from the same building, then the same level, (secondary or elementary), then all staff, then the substitute list.
3. Compensation for Homebound Instruction shall be at the contractual hourly rate.
4. All assignments shall be voluntary.

This report should be submitted at the end of each month, prior to the third working day of the month, for payment to be approved at the subsequent board meeting.
