**V. WORK SESSION**

During the August 8, 2016 regular School Board meeting, the Board postponed the approval of the Student Conduct and Safety Handbook for further discussion with the entire School Board.

Some school administrators, directors and staff were present to hear discussion and provide feedback on Electronic/Communication Devices. Mr. William Barnes, Director of Secondary Education, indicated that he had reviewed the policies of several surrounding school divisions. Each school division has some type of policy allowing the use of electronic devices in the schools and/or school buses outside of the classroom (i.e. bus, cafeteria, hallway, etc.). Some administrators present stated they do allow use of electronic devices in the classroom for instructional time. However, they did not want electronic/communication devices to interrupt instruction time in the classroom when not in a learning setting. Other staff members pointed out that there may be less referrals when students are allowed to use electronic devices during the lunch period and/or during transportation to/from school.

After hearing pros and cons on electronic/communication devices, the Board and staff were in agreement with the following language:

**Electronic/Communication Devices**

Prince George County Public Schools recognizes that student access to cell phones and other electronic devices is common with today’s learner. However, it is imperative that students and parents understand that there are appropriate and inappropriate times for the use of such devices. Students are cautioned that any media (photographs, videos, etc.) created and/or exchanged that creates a disruption to the school environment may result in disciplinary action up to and including out-of-school suspension, alternate placement, expulsion, and/or legal ramifications. School personnel will establish consistent implementation procedures by building and/or department. If a student is in violation of district policy, the device may be confiscated from the student and returned only to the student’s parent/guardian.
In addition, when students are taking Standards of Learning (SOL) tests, they are prohibited from having in their possession a cell phone or any other unapproved electronic device with camera features, text messaging functions, voice-activated recording capabilities, or Internet access. (Policy JFC-R)

Mr. Jim Scruggs and Mr. William Barnes will work together with staff to develop guidelines for elementary and secondary schools respectively. Drafts of the guidelines should be presented to the School Board at the September 13, 2016 meeting and final approval given at the October 10, 2016 meeting.

The Board was also made aware of changes on page 50 to add a field for the parent to include their physical address on the signature page.
