Meet Irene, the 2018 Teen Honoree for the New York City Walk to Cure Arthritis!

Irene is a kind, caring, loving and happy fourteen-year-old! She loves to play basketball, listen to music and get together with her friends! Irene was diagnosed with Polyarticular Juvenile Idiopathic Arthritis (JIA) when she was 16 months old.

Irene and her family got involved with the Arthritis Foundation because they wanted to make a difference in the lives of others while raising awareness for Irene's condition.

Their continuous efforts to support the Arthritis Foundation and the New York City Walk has and continues to help so many others that suffer like Irene. Over the years, Team Irene has raised more than \$35,000 dollars for the Arthritis Foundation!

In June 2017, The Loukoumi Foundation presented Irene with the Make A Difference Award for her continuous efforts to support the Arthritis Foundation over the years.

Irene is very excited to be the adult youth honoree this year and wants to share her story and make a difference in the lives of others that suffer like her!
