SECTION I GENERAL CONSIDERATIONS AND PLANNING GUIDELINES

PURPOSE

Emergencies in schools are defined as undesirable events that occur and have the potential to cause injury or illness to members of our school community or disrupt the orderly educational process. They range from acts of bullying or harassment to catastrophic natural or man-made events. Emergency management is the discipline of dealing with and avoiding risks. It is a discipline that involves preparing for an emergency situation or disaster before it occurs as well as supporting and rebuilding from the emergency after natural or human-made disasters have occurred.

Emergency management in our schools is the continuous process by which our staff, students, administrators, parents, school groups, emergency responders and our community manages hazards in an effort to avoid or mitigate the impact of disasters resulting from hazards. Preventive measures and good planning will reduce the likelihood that emergencies will occur and allow us to address those that do in an expeditious and effective manner.

Districts are required to develop district-wide school safety and emergency management plans designed to prevent and effectively manage such events to minimize the effects of serious incidents and emergencies. These plans also facilitate the coordination of the District with local and county plans and resources when incidents and emergencies occur.

The district-wide plan is responsive to the needs of all schools in the District and is consistent with the more detailed school emergency plans required at the building level. Districts are vulnerable to a wide variety of acts of violence; and natural and manmade disasters. To address these threats, the State of New York has enacted the Safe Schools Against Violence in Education (S.A.V.E.) law. Project S.A.V.E. is a comprehensive planning effort that addresses prevention, response, and recovery with respect to a variety of emergencies in schools.

The Tuckahoe Union Free School District supports the S.A.V.E. legislation. As such, the Superintendent of Schools, Board of Education, and the entire District staff encourages and advocates on-going district-wide cooperation in support of Project S.A.V.E.

SUPERINTENDENT'S DIRECTIVE

The Superintendent of Schools will serve as the District's Chief Emergency Officer (CEO) and be responsible for coordinating communication between school staff and emergency responders. The CEO will also require each building principal to maintain a Building-level Emergency Response Plan in compliance with Commissioner of Education Regulation 155.13. Each plan should be updated annually with the assistance of the Building Emergency Response Team (BERT). The plan shall provide for lockdown, lockout, sheltering, evacuation, early dismissal, fire and other emergency planning and notification (when necessary) to students and staff, annual drills and exercises, and coordination with local and county emergency preparedness administrators. These plans shall be submitted to the

District's Safety Team for annual approval and incorporation into the overall District-wide Safety and Emergency Management Plan.

IDENTIFICATION OF SCHOOL TEAMS

The Tuckahoe Union Free School District District-wide Safety and Emergency Management Plan was developed pursuant to Commissioner's Regulation 155.17. At the direction of the Board of Education and under the direction of the Superintendent, a District-wide Safety Team will be utilized for emergency management within the District. The Safety Team shall include, but is not limited to, representatives of the Board of Education, teacher(s), administrators, school safety personnel, representative(s) of the parent organization(s) and other school and community personnel as deemed necessary.

The duties of the team shall include the development, review, and update of the District-wide Safety and Emergency Management Plan in compliance with Commissioner of Education Regulation 155.13.

The Tuckahoe Union Free School District Safety Team should meet regularly throughout the year to conduct the following business:

1. Assess and review the District-wide Safety and Emergency Management Plan annually.
2. Make any necessary recommendations regarding emergency operations, planning, procedures, and/or protocols.
3. Conduct training sessions as necessary.
4. Meet with, oversee, and help guide the Building Emergency Response Teams at each school as necessary.
5. Meet as needed with the District's Emergency Management Consultant to review protocols and procedures as well as receive training and instruction.
6. Meet with local government and emergency service organization officials to develop procedures for obtaining guidance and for emergency situations that exceed the expertise and/or resources of the District. These procedures may then be incorporated into the District's Emergency Management Plan.
7. Conduct all other business as deemed necessary.

DISTRICT SAFETY TEAM:

Members listed here may be removed from the “additional emergency numbers” table.

TRAINING, DRILLS AND EXERCISES

DRILLS AND EXERCISES:

The District will conduct emergency management drills and exercises annually including, but not limited to:

FIRE AND LOCKDOWN DRILLS: Fire and Lockdown Drills will be conducted during school days in each school within the District with staff and students twelve (12) times annually (September – June). The first eight (8) drills are conducted prior to December 31st of each school year. Eight of all such drills shall be fire evacuation drills. Four of all such required drills shall be lockdown drills. The appropriate Fire Department may, upon mutual agreement with the District, participate in some or all of the drills and offer feedback regarding effective building evacuation in the event of a fire. The appropriate Police Department may upon mutual agreement with the District, participate in some or all of the lockdowns drills and offer feedback regarding the effectiveness of these drills. Drills shall be conducted at different times of the school day with at least one of the eight required evacuation drills occurring during a mass gathering event such as lunch or assemblies.

EARLY DISMISSAL DRILL: The District will conduct an Early Dismissal drill annually wherein students are dismissed early from each school. Parents will be notified of these drills well in advance. PROACTIVE BUILDING SECURITY MEASURES

1. The Tuckahoe Union Free School District buildings use a limited points of entry system. All doors are locked. Signs are in place directing visitors to sign-in at the reception desk at each school. Main doors are controlled by remote “buzzer” entry during normal school hours.
2. All schools have monitors or office staff members just inside the entrance to each school in the District. These monitors ensure visitor sign-in procedures and help supervise building traffic flow. The monitors are under the supervision of the building principals.
3. Staff members are required to wear visible identification badges.
4. Visitors are required to sign in and wear visitor identification.
5. Visitor access is limited to specific areas of the school building.

VITAL EDUCATIONAL INFORMATION

Information on each building's student and staff, transportation needs, and the telephone numbers of key officials are outlined in each Building-level Emergency Response Plan.

EARLY DETECTION OF POTENTIALLY DANGEROUS BEHAVIOR

This section contains the District policy and procedure for disseminating information regarding early detection of potentially dangerous behavior.

1. A summary of the District's Code of Conduct is reviewed with all students in the District at the start of every school year to ensure that all students understand acceptable behavior in the school setting. The Code of Conduct delineates, among other behavior, lack of tolerance for bullying, violence, and harassment.
2. A "plain language" summary of the Code of Conduct is mailed or emailed to all parents/guardians of students in the District at the start of each school year, and is disseminated at the time of registration thereafter.
3. All new employees will be provided with a copy of the Code of Conduct at the time of hire. All teachers and other staff members will be provided with a copy of the Code of Conduct annually.
4. Efforts are made on the building level in each of the District's schools to identify, prevent, and resolve potentially dangerous behavior at the earliest possible stage. Instructional Support Teams meet regularly in each building in order to work with classroom staff in identifying and preventing potentially dangerous behavior. School counselors, school psychologists, nurses, outside agencies (when appropriate), administrators, teachers, parents/guardians and students are involved in this process.
5. District students at all grade levels participate in instruction guided by evidence-based violence prevention/intervention programs. Elements of these programs support students in identifying potentially violent or problematic situations with peers and in developing strategies to address these such as reporting to an adult.
6. Secondary health curricula incorporate information regarding emotional health, the impact of drugs and alcohol on an individual's behavior, and on responsible decision-making.
7. Each of the District's school psychologists facilitates counseling groups for identified students around issues related to poor social skills development, anger management, and good decision-making.

8. Certified and noncertified staff members working with students who have been identified by the Committee on Special Education as being at-risk for engaging in violent behaviors receive annual training in crisis prevention and intervention.
9. The District works in collaboration with the District-wide PTA to offer parents/guardians information regarding early-warning signs of potentially dangerous and/or violent behavior, as well as a forum to discuss specific parental concerns.

The District website may also be used to provide updated information throughout an incident as deemed appropriate by the Incident Commander. Schools may also use their websites, Google groups, and hotlines for announcements or updates as directed by the Incident Commander.

When an emergency requires notification of staff, the Superintendent or his designee will provide updated information to parents and students through the emergency notification system and to the following radio and television stations:

WFAS 103.9 FM

WFAS 1230 AM

WHUD 100.7 FM

TV Channel 2 WCBS

TV Channel 4 WNBC

TV Channel 5 Fox

TV Channel 7 WABC

TV Channel 12 News

TV Channel 44 FIOS1

TV Channel 77, Public Access

Online News Outlets: LoHud

Additional information may also be found on the District's website:

<https://www.tuckahoeschools.org/>.

During an emergency, all contact with the media will be handled either by the Superintendent or the Assistant Superintendent for Curriculum, Instruction & Technology. The media and public will be informed and updated as soon as practicable on all developments in statements released by the Superintendent or his designee. Students, staff and parents should refer all questions and requests for

information to the Superintendent in order to assure the release of factual and current information. The Superintendent may refer such requests to the Assistant Superintendent for Curriculum, Instruction & Technology for response.

Emergency events are unforeseen and unpredictable. The safety of students and staff is the primary focus of all activities surrounding an emergency event. Every effort will be made to contact parents and the general public once the situation has stabilized. Please contact the District Emergency Coordinator if you require additional information.

INTERNAL

After receiving the information from the Incident Commander at the scene, an email will be sent from the Superintendent's office to all administrators and administrative offices alerting them to the nature and status of any incident in the district. The mass communication system may be used to provide information as deemed appropriate by the Incident Commander. Portable radios will also be used when possible.

SITUATIONAL RESPONSES

MULTI-HAZARD RESPONSE

In the event of an emergency, a Command Center will be set up at a safe location in collaboration with emergency responders. Each building has specific plans for dealing with a wide range of hazards. Specific response procedures are sensitive in nature and therefore are contained within each confidential building-level emergency response plan.

In each emergency, the building's administrator will contact the District office for assistance. The District office will provide support as appropriate and deemed necessary by the Incident Commander on the scene (i.e. sending additional mental health resources). The Superintendent or his/her designee will be the sole contact person for releasing information to the media and for communicating the status of the emergency with other District schools, out-of-district schools, private schools, and outside agencies.

RESPONSES TO ACTS OF VIOLENCE AND IMPLIED OR DIRECT THREATS

1. Students are required to inform school staff about any direct or indirect threat of violence or actual act of violence to themselves, others or school property.
2. Staff members are required to immediately inform the Principal or his / her designee of any direct or indirect threat of violence or actual act of violence to students, themselves, others or property. The Principal or her/his designee decides whether to utilize the building's trained clinician(s) in an effort to de-escalate or defuse the situation.
3. Parents and visitors are encouraged to tell school staff about any indirect or direct threats of violence or actual act of violence towards students, themselves, others or property.

4. After considering the specificity/generality of the threat or severity of the violent act, the Principal or her/his designee will decide whether to immediately contact the Superintendent of Schools or the Assistant Superintendent to advise them of the threat, get help to determine the level of threat or report the violent act. The Principal will have the discretion to report minor incidents to the Superintendent verbally and/or in memorandum form after the situation has been resolved.
5. The Principal or her/his designee will also decide whether to contact law enforcement personnel. **Threats or actions placing students, staff and others in imminent danger require an immediate LOCKDOWN protocol followed by a call to the police and the District Superintendent (if safe to do so).** Violent offenses defined in the S.A.V.E. regulations will also require the involvement of the police.
6. The Principal, and/or her/his designee then determine the appropriateness of directing the Building Emergency Response Team to be activated.
7. The Building Emergency Response Team (BERT) consisting of trained staff and school personnel may assist with an Evacuation, Lockout, Shelter – In – Place, Fire or Early Dismissal and will follow the appropriate protocol (see appendixes for further information). The Incident Command System (ICS) under the National Incident Management System (NIMS) should be followed as closely as possible to ensure good coordination between the building level teams, District leadership, and responding agencies.
8. If the threat of violence or danger is imminent, a Lockdown may be utilized. A Lockdown is time sensitive and therefore may be requested by any school staff member based on the incident and timely need for the Lockdown. During the Lockdown, all school staff, students, and visitors (including all BERT members) are required to Lockdown in the nearest lockable space and await further instruction.
9. Procedures for contacting parents, guardians and persons in parental relation to students in the event of a violent incident or early dismissal are spelled out by each building. The use of the District’s mass communication system is typically utilized.
10. Aggressively dangerous and violent students should only be restrained by qualified staff. Police should be called when necessary to assist school staff in managing the situation. Violent adults are to be reported to the building administrator immediately, and the police called. Violent adults are only to be removed by police.
11. The building administrator will investigate reported threats and reported acts of violence and will make the determination of disciplinary measure consistent with the District’s Code of Conduct. Chronic offenders may require a behavior intervention plan, close monitoring, and/or police involvement.
12. School administrators must keep records of serious threats and acts of violence and report them annually to the state.
