

VALEDICTORIAN AND SALUTATORIAN

A graduating class valedictorian will be selected on the basis of weighted grade point average. The student with the highest grade point average will be valedictorian. In instances where more than one student holds the numerical one rank, all students holding that rank will be co-valedictorians.

The graduating class salutatorian shall be the student with the second highest grade point average if that student has not been declared co-valedictorian in which case the student with the next highest average will be salutatorian. In instances where more than one student holds the numerical two rank, all students holding that rank will be declared co-salutatorians.
