

COMMENCEMENT EXERCISES

To participate in graduation exercises, students must be eligible to meet all requirements for a June graduation as set by the Board of Education and the State of New York. These requirements include those established for Regents diplomas, local diplomas, IEP diplomas or local certificates.

To be eligible, a student must be attending and participating in courses which, in conjunction with requirements already completed, will satisfy all graduation requirements. Under this policy, an eligible student who fails a course(s) or State exam(s) in June may participate in commencement exercises.
