

STUDENT FUND RAISING ACTIVITIES

Fund raising projects initiated by students for specific purposes shall be permitted if approved by the Building Principal. Such fund raising shall be listed separately from student activity accounts. Each fund raising project shall be approved for that one time only, so that future student groups need not feel compelled to continue the same project.

All fund-raising activities must be voluntary and in accord with the Rules of the Regents and the State Education Department's "Guidelines Relating to Solicitation of Charitable Donations from Children". No direct solicitation of students is permitted during school hours.
