

PRESCHOOL SPECIAL EDUCATION

The Board of Education recognizes the value of early intervention to address the needs of preschool children with disabilities. The Board further recognizes its responsibility to ensure that all resident preschool children with disabilities have the opportunity to participate in preschool programs, approved by the Commissioner of Education, from which they may benefit educationally. The Board authorizes the Superintendent of Schools to establish administrative practices and procedures which shall include:

1. locating, identifying, evaluating, referring and placing all preschool children (generally ages three and four) with disabilities. The register of children eligible to attend a preschool program is to be maintained and revised annually by the Committee on Preschool Special Education (CPSE);
2. ensuring that the parent(s)/guardian(s) of preschool age children with disabilities have received and understand the request for consent for evaluation of their child;
3. developing an individualized education program (IEP) for each preschool age child with a disability;
4. appointing and training appropriately qualified personnel, including the members of the CPSE and ensuring that preschool education providers with whom the district contracts have appropriately trained and qualified personnel.
5. maintaining lists of impartial hearing officers and of State Education Department-approved special education programs within the county and adjacent counties in which the district is located;
6. preparing and keeping on file summary reports of student data including the number of preschool students with disabilities served, as well students referred but not served and the reasons why they are not served; and
7. reporting to the State Education Department the data on preschool children with disabilities as required, on a form prescribed by the Commissioner.

The duties described above will be carried out within the timeframes established by statute and regulation.

The Board of Education hereby establishes the CPSE as required under the Education Law. Its responsibilities will include the evaluation and recommendation for placement in appropriate approved programs and the provision of appropriate special education programs and

services for each preschool child with a disability. The CPSE shall review, at least annually, the status of each preschool child with a disability. It is ultimately the responsibility of the Board to arrange for the appropriate approved preschool program and services for the district's children. Should the Board disagree with the CPSE's recommendations, it shall send the recommendation back to the CPSE so that the CPSE may schedule a timely meeting to review the Board's concerns and to revise the IEP, as appropriate. Placement may be appealed by a parent or guardian to an impartial hearing officer.

In the event that a parent/guardian files a due process complaint, a meeting must be convened between the parent/guardian and representatives of the district to try and resolve the complaint within 15 days of receiving the notice, and before the initiation of an impartial hearing. Parents/guardians and the district will jointly determine who should be present at this meeting.

If an agreement cannot be reached, parent/guardians shall be offered mediation to resolve complaints regarding the education of preschool children with disabilities at the same time notice of the availability of an impartial hearing is provided.

The CPSE shall make an annual report on the status of each preschool child with a disability and report on the adequacy of preschool special education programs and services to the Board.

The Board directs the Superintendent to develop and maintain a plan which incorporates information concerning the provision of services for preschool children with disabilities, pursuant to the Regulations of the Commissioner of Education.

PRESCHOOL SPECIAL EDUCATION REGULATION (current)
7614R

I. The Committee on Preschool Special Education (CPSE)

The Board of Education shall appoint a Committee on Preschool Special Education (CPSE) composed of:

1. an appropriate professional employed by the school district who shall serve as the chairperson of the committee;
2. a parent/guardian of a child with a disability who resides in the district and is enrolled in preschool or elementary level education provided the parent/guardian is not employed by or under contract with the district or county;
3. the child's teacher;
4. a professional who participated in the evaluation of the child; and
5. for a child in transition from programs and services provided pursuant to applicable federal laws, the appropriately licensed or certified professional designated by the applicable agency.

The chief executive officer of the county in which the district is located also may appoint an appropriately licensed/certified professional to the CPSE.

The Board directs the Superintendent of Schools to ensure that all members of the CPSE are appropriately trained for their responsibilities on the CPSE.

II. Identifying and Evaluating Preschool Children with Disabilities

The district shall conduct a census in accordance with the Education Law to locate and identify all children with disabilities who reside in the district and establish a register of children who are eligible to attend a preschool program in accordance with Section 4410 of the Education Law. The register shall be maintained and revised annually by the CPSE. Census data shall be compiled and maintained in accordance with Section 200.2(a) of the Regulations of the Commissioner.

Age eligibility for preschool special education will be determined in the following manner: if the child turns three between January 1 and June 30 of a calendar year, the child will be eligible for special education as of January 2 of that year; if the child turns three on or after July 1 during that year, the child will be eligible as of July 1.

Upon the receipt of written notification that a preschool child is suspected of having a disability, the chairperson of the CPSE shall notify the child's parent(s)/guardian(s) that a referral has been made and request consent for the child's evaluation. Such notification must include the following information: the right to consent or withhold consent to an initial evaluation or placement; the right to a hearing; procedures for appeal; the availability of mediation to resolve complaints regarding the education of a preschool child with a disability; an acknowledgment that if consent is refused, there will be no evaluation and the student shall remain in his/her current placement, or receive admittance to the requested school pending the outcome of a hearing; the availability of free or low cost legal aid and reimbursement of reasonable attorney's fees if the parent(s)/guardian(s) win their hearing. The notification shall be in the dominant language or mode of communication of the parent(s)/guardian(s).

If parental consent is not obtained within 30 days of receipt of referral, the Board shall initiate an impartial hearing to determine if the individual evaluation shall be conducted. The CPSE chairperson shall notify the parent(s)/guardian(s) of his/her right to request an informal conference at which the parent(s)/guardian(s) may ask questions regarding the evaluation.

III. Individual Evaluation

The CPSE shall ensure an individual evaluation of the preschool child is conducted at no cost to the parent(s)/guardian(s). The district shall maintain a list of approved evaluators which shall be provided to the parent(s)/guardian(s). The parents may select the evaluator from the list.

The evaluation shall include: a physical examination; a social history; a psychological evaluation unless determined to be unnecessary by the school psychologist; and other appropriate assessments or evaluations as necessary to ascertain the physical, mental and emotional factors which contribute to the suspected disabilities.

The evaluator shall submit a written report to the members of the CPSE and to a person designated by the county in which the preschool child resides. The report shall include a detailed statement of the preschool child's individual needs, if any. The report shall not recommend the type, frequency and duration of service; the manner in which the child could be provided with instruction and/or related services; nor refer to any specific service provider. The parent(s)/guardian(s) shall receive a summary of the evaluator's findings. Upon request, the parent(s)/guardian(s) shall also receive a copy of the evaluator's statement and recommendation to the CPSE.

If the parent(s)/guardian(s) disagrees with the evaluation, he/she shall notify the district so the district may initiate an impartial hearing to determine the adequacy of the evaluation. If the hearing officer determines the evaluation was inadequate then the parent(s)/guardian(s) may obtain an independent evaluation at no cost to themselves. Even if the evaluation is determined adequate by the hearing officer, the parent(s)/guardian(s) may obtain an independent evaluation, but not at public expense.

IV. Determining the Appropriate Preschool Program in the Least Restrictive Environment and Developing the Individualized Education Program (IEP)

Following the individual evaluation, if the CPSE determines the child has a disability, the members shall recommend approved appropriate services and/or special programs and the frequency, duration and intensity of such services including, but not limited to, the appropriateness of single services or half-day programs based on the individual needs of the child.

Before the CPSE recommends any program, the members must first consider the appropriateness of providing (1) related services only, (2) special education itinerant services only, (3) related services in combination with special education itinerant services, (4) a half-day preschool program, or (5) a full-day preschool program. If it is determined that a child needs a single related service, the service must be provided as a related service only or, where appropriate, as a special itinerant service.

Before recommending a program which provides special education services in a setting which includes only children with disabilities, the CPSE must consider programs in which the child will be placed with non-disabled children of a similar age. Settings which do not provide contact with non-disabled children may only be considered when the nature or severity of the child's disability is such that education in a less restrictive environment with the use of supplementary aids and services cannot be satisfactorily achieved. In cases where the recommendation is for services to be provided in a setting without regular contact with non-disabled peers, the recommendation must contain a statement as to why less restrictive placements were not recommended.

Prior to making any recommendation that would place a child in an approved program owned or operated by the same agency which conducted the initial evaluation of the child, the CPSE may obtain an evaluation of the child from another approved evaluator. If the CPSE decides to obtain another evaluation and the parent(s)/guardian(s) withdraws consent or otherwise chooses not to have their child further evaluated, the CPSE shall inform the parent(s)/guardian(s) that their child's review cannot proceed until such time as the additional evaluation has been completed.

Twelve-month special services and/or programs shall be provided to eligible preschool children consistent with their individual needs, as specified in the IEP. The CPSE or the Board may recommend services and programs that are different in type or intensity than the services and programs provided during the school year.

Any recommended programs and services shall be selected from the list of approved preschool programs within the county and adjoining counties or the municipality's list of itinerant service providers. The CPSE must provide the recommendation to the Board within 30 days of the date of receipt of consent and shall notify the parent(s)/guardian(s) of the child of its recommendation. The recommendation must state the reasons for the recommendation even if the CPSE determines the child has no disability. In addition, if the CPSE's recommendation differs from the parent's(s')/guardian's(s') preference with respect to the frequency, duration or intensity of services, the recommendation must specify reasons why a program different than the parent's(s')/guardian's(s') preference was recommended.

In developing an individualized education program (IEP), the CPSE must review all relevant information, including but not limited to:

1. information presented by the parent(s)/guardian(s) and the child's teacher(s);
2. the results of all evaluations; and
3. information provided by the appropriate licensed or certified professional designated by the agency that is charged with the responsibility for the child pursuant to applicable federal laws, if any.

Upon the parent's(s')/guardian's(s') request, the CPSE shall provide copies of all written documentation to be considered by the committee in the development of the preschool child's IEP.

The Board shall arrange the appropriate services and/or program after receipt of the recommendation of the CPSE. Should the Board disagree with the recommendation of the CPSE, the recommendation shall be returned to the CPSE with notice to schedule a timely meeting to review the Board's concerns. The parent(s)/guardian(s) and the county shall be notified of the

Board's disapproval of the recommendation and the need to schedule a meeting to discuss the Board's reasons for disapproval and to revise the IEP as deemed appropriate.

Services of a program shall commence with the July, September or January starting date of the approved program. Should the recommendation of the CPSE be given 30 days prior to, or after, such starting date for the program selected for the child, services shall be provided no later than 30 days after the recommendation of the CPSE. The CPSE shall review at least annually the status of each preschool child with a disability.

V. Due Process Provisions

Should the parent(s)/guardian(s) of a preschool child disagree with the determination of the Board or if the CPSE or the Board fails to make or effectuate such a recommendation within the time periods set by the Commissioner, an impartial hearing may be requested.

Parents or guardians of preschool children with, or suspected to have, disabilities shall have mediation available to resolve complaints regarding the education of a student. The availability or use of mediation shall not diminish or limit any rights of parents or guardians provided for in law, including the right of a parent or guardian to request an impartial hearing subsequent to mediation. Parents or guardians will not be deemed to have failed to exhaust administrative remedies by requesting an impartial hearing in the absence of or prior to mediation.

During the pendency of an appeal, unless the parent(s) or guardian(s) and Board otherwise agree, the child will remain in the current educational placement at the time the Board made the decision which is the subject of the appeal. If the child has not been previously served, he/she may enter the Board recommended placement if the parent(s)/guardian(s) consents. Until his/her third birthday, a preschool child who received services from an agency after having been placed by a Family Court, may continue to receive services at the agency. The child may remain in such placement until August 31 of that calendar year, and thereafter must be referred to the CPSE.
