

**AIDS INSTRUCTION**

In compliance with the regulations of the Commissioner of Education, the district will provide classroom instruction concerning Acquired Immune Deficiency Syndrome (AIDS) as part of a sequential and comprehensive health program for all students, K-12. Instruction shall be offered during regularly scheduled classes, be age-appropriate, and include the following information:

1. the nature of the disease;
2. methods of transmission of the disease; and
3. methods of prevention of the disease (stressing abstinence as the most effective and appropriate protection against AIDS).

A student may be excused from that segment of AIDS instruction regarding methods of prevention of the disease if his/her parent/guardian files a request with the Building Principal. The request must give assurance that such instruction will be given at home.

An advisory council consisting of Board members, appropriate school personnel, parents and community representatives, is responsible for making recommendations on content, implementation, and evaluation of the AIDS instructional program.
