

Tattnall County Schools Aspiring Leaders Program

Dear Prospective Candidate:

Thank you for your interest in preparing yourself to support every child in the district to succeed – as students in our schools, as scholars in college and post-secondary education, as professionals in careers, and as citizens in our communities. The Aspiring Leaders Program is designed to provide aspiring leaders the opportunity to participate in a performance-based professional growth experience that results in strong leaders who drive change and positively impact student achievement and are well-prepared to assume leadership roles within the district.

The first step in the selection process for becoming a member of Aspiring Leaders Program is to complete the attached application and to follow the instructions for submitting the supporting documentation. This application requests evidence of eligibility, response to a writing prompt, and administrator recommendation. The Program Selection Committee will review all of the applications and notify you of your selection status for the program by October 27, 2017.

Because the content of the Aspiring Leaders Program is aligned with the real work of schools, it is imperative that a prospective candidate clearly articulates his or her leadership qualities, strengths, and experiences in the application process. Please review the enclosed criteria and selection process for additional information.

Thank you for taking this step in your career development by applying to the Aspiring Leaders Program. We look forward to learning more about you.

Best regards,

Gina Williams, Ed. D.
Superintendent
