

Dir of PPS 4-9-20 Update

Dear Parents/Guardians,

At this point in time, related service providers and counseling providers have been in contact with families and have spoken with you and the children. Teletherapy and telepractice sessions will be ongoing, and will include video, telephone, or other electronic communication as appropriate and necessary. In addition, your child's provider will continue to communicate with you to provide scaffolds, supports and additional materials (digital or otherwise) that reinforce concepts and demonstrate skills. We will continue to reach out to you to continue to schedule CSE meetings. In some cases, providers will be contacting you to complete evaluations in preparation for these meetings.

Pupil Personnel Services will continue to support your needs and the needs of the students as we move forward. Voice messages may be received and are checked daily at 516-434-2620. If we have called you and left a message, you may return the call at this number and indicate the best time for us to contact you. You may also email the office at kwilson@islandparkschools.org. This is especially useful in instances whereby you may need to supply us with your updated telephone number and email address.

As always, take care and stay safe during this challenging time.

Sincerely,
Mr. Jacob Russum
