

Supt's Message 3-20-2020

I want to update you about the COVID-19 virus and our school community. Please note that we are in contact with the Nassau County Department of Health and as of now, there are no confirmed cases of COVID-19 in the Island Park School community. However, an employee in the Lincoln Orens Middle School, contacted us late yesterday, March 19, and advised us that they had been tested for COVID-19. The results are expected in 3 to 5 days and I will update you further once I receive additional information. The school buildings have been thoroughly cleaned, including the areas occupied by the employee.

In the meanwhile, let's all remember to practice social distancing as recommended by the CDC. If you or your child do not feel well, contact your physician or call the New York State Coronavirus Hotline: 1-888-364-3065.

Please know that I remain committed to keeping you as informed as possible about any new developments.

Rosmarie T. Bovino, Ed.D.
Superintendent of Schools
