DEFENSIVE DRIVER EDUCATION

NEW YORK STATE DRIVING AWARENESS COURSE

This course offers the motorist three benefits:

- A premium reduction of not less than 10% on liability insurance each year for three years.
- A 10% reduction on your collision insurance premium each year for three years. This reduction is recognized by most insurance companies; however, you are advised to verify this with your insurance company prior to registering.
- A maximum of 4 points removed from your driving record if violation points have occurred.

The most important benefit is not the guaranteed 4 points reduction on your license or the 10% reduction of your liability and collision insurance, but that the material presented during the 6 hour National Traffic Safety Institute course program may help you to prevent being involved in a serious or even fatal accident. This program covers six hours of classroom instruction.
