

So close and yet so far! A unique visit to NYC that you've never done before! This trip will take us to the Lower East Side to the Tenement Museum (and more) where we will "see" the most interesting aspects of the immigrant experience! Enacted by period performers, you'll visit restored apartments and businesses of the past – virtually a theatrical play in a tour! Note: two to three flights of stairs (23-48 steps) will be taken in a gradual progression for the full experience. An "impossible" lunch is included and time permitting, another stop along the way. The trip is in June but register now to reserve your spot! We're expecting a sellout!
