

## **SUPERINTENDENT'S REPORT – BOARD OF ED MEETING 10/6/20**

Many of the following “building brag” items were included in Dr. McCahill’s report on 10/6:

From High School Principal Mike Mahoney:

- The campus is alive as sports practices started last week. Competition will begin this Saturday!

From Barr 5<sup>th</sup>-8<sup>th</sup> Grade Principals Roger Guccione and Anne Chen:

- Barr faculty and students are off to a great start! After talking to students, we recognize that some students prefer the in-person part of their school week, while others prefer to work from home. This has given us insight into how conducive our hybrid model has been for our school community. Kudos to our teachers and staff for balancing the learning experience for all of our students!
- Under Social Emotional Learning (SEL) the teachers were able to reorganize 5<sup>th</sup> and 7<sup>th</sup> grade lunch and recess to allow students to be with their friends, socialize and participate in some fun activities.

From Highview Principal Nancy Bonner:

- We are happy to report that we have begun the rollout of RULER to our students in both 3rd and 4th grade. Our theme is “Emotions Matter” and they have developed the Class Charter and this week’s focus is learning about the Mood Meter.

From Miller Principal Maryellen Griffin:

- We have received many verbal and written thank you’s from parents for all the safety procedures that we have put into place to keep reentry safe and successful.
- Thank you to the PTA for organizing several successful picture days. It was great to see our virtual students on campus smiling!
- Our students are enjoying the black top games that the Art Club under the direction of Ms. Kodi Tidd painted last year.
