SUPERVISORY REPORT

Marzano's research on effective schools reports that strong leadership is one of the top five school-level factors impacting academic outcomes for students.

Effective leadership and supportive policies can greatly impact the learning environment. *Marzano's* research on effective schools reports that strong leadership is one of the top five school-level factors impacting academic outcomes for students.

In schools that support 21st Century Learning, leaders regularly engage teachers in observations, class visits, and discussions about best practices for teaching with technology. However, many teachers do not feel that their school is making 21st Century Learning a priority. According to a *Walden University* study, only 66% of teachers feel that administrators are supportive of new technology use, yet 92% of administrators state that they are supportive of new technology use.

Rewarding and acknowledging teachers' use of new technologies is a critical piece of the puzzle. Clarity CASE data from thousands of schools reveals that only 38% of teachers feel that they are rewarded for using technology more than half of the time. Furthermore, 17% of all Clarity teachers believe that school Internet filters thwart the learning process more than half of the time.

Creating an environment that supports and acknowledges teachers for their efforts with new technologies is necessary for transformatonal learning to happen system-wide.

Contributing Factors

The factors that most contribute to the success of your organization include ...

49% of teachers feel rewarded for using technology more than half the time

50% of teachers report that technology is part of classroom observations or visits more than half the time

36% of teachers report that technology is a topic at department and grade-level meetings more than half the time

61% of teachers believe that school filters rarely or never get in the way of learning
