

CARMEL CENTRAL SCHOOL DISTRICT

April 22, 2020

Dear Parents of Incoming Kindergarten Students:

Although our school buildings remain closed due to the COVID-19 pandemic, please know Kindergarten registration remains a priority.

To that end, we are currently working on a plan for a secure online Kindergarten registration process. This online system will allow parents to complete the registration process and safely upload any required documentation. As this is a new system for the District, we anticipate the online registration will be available in 4-6 weeks.

In the meantime, parents are invited to visit our [Kindergarten Student Registration webpage](#) to review the information and documentation that will be required (no need to download and fill out the forms). It is recommended that you view the packet in its entirety ahead of time so that you are aware of the information and documentation you will need in order to complete the online registration process.

We are discussing options for screening of students, once the registration process has been completed. This will be communicated to parents as we move forward.

While the registration process is occurring later than normal, the end result will be the same for you and your child and we are looking forward to welcoming students and families in September. We will be in touch again, once our online system is available.

Cordially,

Dan Brown, Principal, Kent Primary School

Mike Kirk, Principal, Matthew Paterson Elementary School

Kathryn White, Principal, Kent Elementary School
