

Consent Agenda Item 7-h

Recommendation to authorize the District's Information Technology Department to initiate the purchase of the following PowerSchool Modules: Assessment & Analytics, Registration Signature, and 504 Accommodations in the amount of \$79,566.40.

- The Assessment & Analytics module will provide teachers the opportunity to perform assessments directly in PowerSchool. Analytics is a data warehouse solution that provides one place to go for analysis of student achievement and test results.
- Registration Signature will give the District the opportunity to allow parents to register students online. This will help with our goals of going paperless, as well as minimize data entry issues that affect state reporting.
- The 504 Accommodations module will aid the District with having an electronic source to monitor and track 504 accommodations for students. While protecting student confidentiality, teachers will be able to see accommodations required to meet student needs.

This is a sole source purchase funded through the Technology budget.
