

To: All District Staff
Re: Cost Savings Task Force
Action: Respond with letter of interest

In recognizing the challenges ahead regarding the financial state of the district, a cost savings task force is being formed as an advisory committee to the Superintendent and to the Board of Trustees to provide options moving forward.

This follows the school visits and surveys that occurred through November and department visits and that will occur through January to provide information, support staff, and gather input from stakeholders.

The purpose of this communication is to seek representation from district employees to serve on this cost savings task force. Representatives will need to commit to attending meetings on January 12th, January 17th, January 26th and January 31st from 5:00-8:00 p.m. on each evening. Meetings will be held at the Central Administration Building.

Please submit your letter to westt@sw1.k12.wy.us if interested in serving on this task force.
