Caring for your teeth and gums is important to your overall health. Dental problems can be prevented through education and early treatment.

NO out of pocket costs to children or their parents, no co-pays, and all insurances accepted. **Uninsured children will receive care.**

Waiting time at a doctor's office + transportation time to and from their appointment + exam time = hours missed at work and in the classroom. **Dental services in the school eliminates this time lost.** If you choose you can attend the appointment with your child. If you are unable to, we will send information home so you are fully informed.

Enroll your child today! Complete a dental services consent form and return it to the school nurse. If you have questions, please call the School Based Health Center Health Advocate at **914-406-8211**.
