**Pearl River
District Wide School Safety Plan**

Commissioner's Regulation 155.17 Project 14

INTRODUCTION

Emergencies and violent incidents in school districts are critical issues that must be addressed in an expeditious and effective manner. The Pearl River UFSD is required to develop a District Wide School Safety Plan designed to prevent or minimize the effects of serious, violent incidents and emergencies and to facilitate the coordination of schools with local and county resources in the event of such incidents or emergencies.

The District Wide Plan is responsive to the needs of all schools within the District and is consistent with the more detailed emergency response plans required at the school building level. Schools are at risk of a wide variety of acts of violence and natural and technological disasters. To address these threats, the State of New York has enacted the Safe Schools Against Violence in Education (SAVE) law.

This component of Project SAVE is a comprehensive planning effort that addresses risk reduction/prevention, response, and recovery with respect to a variety of emergencies in the District and its schools.

Pearl River supports the SAVE Legislation and intends to facilitate the planning process. The Superintendent of the Pearl River Schools encourages and advocates on-going cooperation and support of Project SAVE.

GENERAL CONSIDERATIONS

A. Purpose

The Pearl River District-Wide School Safety Plan was developed pursuant to Commissioner's Regulation 155.17. At the direction of the Pearl River Board of Education, the Superintendent appointed a District Wide School Safety Team and charged it with the development and maintenance of the School Safety Plan.

B. Identification of School Teams

Pearl River has appointed a District Wide School Safety Team consisting of, but not limited to, representatives of the school Board of Education, students, teachers, administrators, parent organizations, school safety personnel and other school personnel. The members of the team and their positions or affiliations are as follows:

- Marco Pochintesta, Superintendent of Schools (Chief Emergency Officer)
- Diana Musich, Assistant Superintendent for Human Resources & Community Services
- Dr. Robert Roelle, Assistant Superintendent of Curriculum & Instruction
- Ann Marie Tromer, Assistant Superintendent for Business
- Mary Cinelli, Coordinator of School Transportation
- Robert Nelan, Director of Facilities
- Maria Paese, Principal, Pearl River MS
- Suzanne Horton, Assistant Principal, Pearl River HS
- Diana Gillule, Teacher, Lincoln Avenue Elementary School
- Fiona Burke, RN, Franklin Avenue Elementary School
- Lisa Ross, Secretary, Lincoln Ave. Elementary School

- Rebecca Massa, School Psychologist, Lincoln Avenue Elementary School
- Roseanne Daly, RN, Evans Park Elementary School
- Brian Wharton, Facilities, Pearl River MS
- Members of Fire Districts
- Members of Law Enforcement
- Members of Emergency Medical Services

In order to comply with the new State Education Law 2801-a and Commissioner's Regulations at NYCRR section 155.17, a revised contract with the Town of Orangetown and Orangetown Police Department, and any security firm contracted by the district, that delegates school discipline to school administration was developed (Appendices 8 and 9). In addition, input was sought from stakeholders including probation officers, defense counsel, prosecutors, courts, parents, collective bargaining units, teachers, students, community members and school administrators.

C. Concept of Operations

- The School Safety Plan is directly linked to the individual Building Level Emergency Response Plans as a matter of protocol. The activation of a Building Level Emergency Response Plan triggers the notification of the chain of command and the assessment of the activation of the District Wide Emergency School Safety Plan and District Wide Response Team.
- The School Safety Plan was developed through extensive analysis of the local environment, emergency potential, and available resources. Through training and workshops that included school employees, administration and local emergency services, the plan has been developed to address the specific needs of Pearl River and the community.
- In the event of an emergency or violent incident, the initial response to all emergencies at an individual school will be by the School Emergency Response Team. The building principal is responsible for notifying the Superintendent or the highest ranking person in the chain of command of any necessary building level plan activation. This notification shall be accomplished through the use of telephone.
- Upon the activation of the School Emergency Response Team, the Superintendent or his/her designee, shall be notified and where appropriate, local emergency officials shall also be notified.
- County and state resources supplement the District emergency action planning in a number of ways:
 - State and local law enforcement provide building reviews and employee training.
 - Local law enforcement and emergency services participate in planning and training exercises and develop strategies for managing Building Level emergencies.
 - A protocol exists for the District to use certain facilities for sheltering during times of emergencies.
 - A protocol exists for the use of county mental health resources during post incident responses.

D. Plan Review and Public Comment

- Pursuant to Commissioner's Regulation, Section 155.17 (e)(3), this plan will be made available for public comment at least 30 days prior to its adoption. The District Board of Education shall adopt the School Safety Plan only after one public hearing that provides for the participation of

school personnel, parents, students and any other interested parties. The plan shall be formally adopted by the Board of Education.

- Full copies of the School Safety Plan and any amendments shall be submitted to the New York State Education Department within 30 days of adoption.
- This plan shall be reviewed periodically during the year and maintained by the District Wide School Safety Team. The required annual review shall be completed each year prior to its adoption by the Board of Education.

RISK REDUCTION/PREVENTION AND INTERVENTION

A. Prevention/Intervention Strategies Program Initiatives

The District has developed a number of programs and activities to aid in risk reduction. These initiatives are run at different age groups within the District. Examples of the topics covered:

- Character Education Programming
- Anti-bullying Programs
- Positive Behavior Intervention and Support Programs
- Peer Leadership Programs
- Drug Abuse Resistance Education Programs
- Codes of Conduct
- Crisis Response/Intervention Plans.

Facilities Initiatives

The District has attempted to enhance the security of its facilities through a number of initiatives, including a revised visitor policy that includes the following:

- Sign-in procedures and use of visitor ID badges with visual contact.
- Employees use faculty/staff ID badges.
- Schools have developed a single point of access for visitors at each building.
- Installation of interior and exterior surveillance cameras throughout our campuses.

Training, Drills, and Exercises

- The District has established policies and procedures for annual multi-hazard school safety training for employees and students. Training includes:
 - An annual review of the building level emergency guides and general employee awareness training for building employees conducted by each principal. The annual review of safety plans and procedures includes training in violence prevention and mental health awareness.
 - The annual early go home drill to test evacuation and sheltering procedures.
 - Each school building conducts evacuation drills throughout the course of the year in compliance with the SED schedule for the purpose of familiarizing employees and students with emergency procedures.
 - A Building Level tabletop exercise run in cooperation with members of local emergency services.

- All staff meet the annual requirements of mandatory compliance training as set forth in State and Federal regulations.
- The District shall conduct drills and other exercises to test and evaluate the effectiveness of the District Emergency Response Plan. Each principal will be required to complete a minimum number of student drills as follows:
 - 4 lockdown drills, 8 fire/evacuation drills. 8 of which must be conducted by December 31 of each year, the balance must be conducted during the remainder of the school year
- The District shall conduct tabletop exercises with the Building Level safety teams to test the components of the emergency response plan. The narratives, sequence of events and messaging for each exercise shall be developed by select members of the District Wide Safety Team, Emergency Management Consultants and local emergency services. A controller, evaluator and simulator shall conduct each tabletop exercise. The suggestions and necessary enhancements of the Building Level Plan noted during the evaluation shall be documented by the evaluator and provided to the Building Level Safety Team and District Wide Safety Team for further evaluation.
- Topics for training will include general security and safety measures, intervention strategies with difficult or challenging students, building security awareness, and reporting requirements and procedures.

In the execution of their duties, faculty, aides and monitors shall have responsibility for:

- Monitoring halls, lavatories, locker rooms, locker bays and similar areas, assuring orderly passage of students and pre-emptive intervention in potentially disruptive situations.
- Observation of the general property, including the immediate outside area/perimeter of the building(s), with an obligation to report suspicious activity to district or building administration.

- Attend professional development activities on school safety and violence prevention. All school safety personnel shall be provided with training on violence prevention and school safety. All training courses shall receive prior approval from the Superintendent or his/her designee.

Hiring and Screening of School Personnel

The following hiring and screening practices are followed for the hiring of all personnel:

Fingerprinting and Criminal Background Checks

For all employees hired by schools, the District completes a fingerprinting and criminal background check prior to appointment. No employee works in the District until fingerprint clearance is received. Employees include: any person receiving compensation for work from schools; any employee of a contracted service provider involved in direct student contact; any worker assigned to a school under a public assistance employment program (includes part-time employees and substitutes).

Reference Checks

References are thoroughly checked prior to extending an employment offer.

- Reference check forms are used for instructional, and non-instructional personnel.
- Reference checks are completed and reviewed by the administrative team along with the application.
- Prior to making a job offer to a prospective employee, the following mandatory questions are asked during reference checks with immediate and/or past supervisors:
 - Do you have knowledge of any violations of safety or security by (prospective employee) related to students, employees or others?
 - Why did (prospective employee) leave your employment? Or, do you know why (prospective employee) is leaving your employment?
 - Would you rehire (prospective employee)? If no, why not?

RESPONSE

A. Notification and Activation (Internal and External Communications)

- In cases of a seriously violent incident, the District would use the procedure listed below to meet the requirements for notification and activation. A serious violent incident is an incident of violent criminal conduct that is, or appears to be, life threatening and warrants the evacuation of students and employees because of an imminent threat to their safety or health. This includes, but is not limited to, the use or threatened use of a firearm, explosive, bomb, incendiary device, chemical, or biological weapons, knives or other dangerous instrument capable of causing death or serious injury, riots, hostage-taking, or kidnapping.

Communications systems are:

Internal

Teachers and Building staff	Public address system and radios.
Students	Public address system and verbally from supervising teachers

The Assistant Superintendent for Human Resources and Community Services would be responsible for conveying emergency information to educational facilities within the Pearl River UFSD. The Assistant Superintendent for Human Resources and Community Services would take appropriate steps to secure the following information about each educational agency within the District: Number of students, number of employees, transportation requirements associated with the evacuation of each facility and the business and home telephone numbers of key officials of each agency. Such information would be updated at least annually by the Assistant Superintendent of Human Resources and Community Services. Each such agency would report material changes to such data to the Assistant Superintendent for Human Resources and Community Services, in writing, within seven days of such change.

Information will be provided to parents, guardians or persons in parental relation to the students in the event of a violent incident or an early dismissal through the use of the District's automated mass communication system by employees at the building level using the student/parent directory and/or local and regional radio and TV stations. These are the same stations that are used to announce official delays or closings. This information is provided to parents through the website and building handbooks. Additionally, if an event occurs at the campus where students cannot be released immediately, a parent/community public information center may be established at another campus building.

In the event that this public information center is established, parents and community members are encouraged not to report to the main campus where a building may be in crisis, but rather gather at a designated meeting place where regular public information statements will be made by the Assistant Superintendent for Human Resources and Community Services or a Superintendent's designee.

B. Situational Responses – Multi-Hazard Response and Response Protocols

Staff cooperation is critical when an act of violence occurs. In the event of a criminal act, bomb threat, civil disturbance, intrusion, hostage taking, kidnapping or other threatening event, staff response may include:

1. Verbal instructions to cease the behavior.
2. Call for assistance from other staff.
3. Verbal instructions to follow classroom emergency procedures based on the main office's instruction over the public address system.
4. Call law enforcement and other necessary emergency response agencies.
5. Removal of any onlookers that could aggravate the situation.
6. Not invading the space of the individual(s) involved.
7. Removal of any potentially dangerous weapons or objects.
8. Physical restraint if other actions do not stop the violence.

In the event of a violent incident, the following policies and procedures are to be followed at the District level:

- The Superintendent will ensure the Building Level team has adequate resources to respond to the emergency.
- The Assistant Superintendent for Human Resources and Community Services will develop a public information strategy to communicate necessary information to the media, parents and staff.
- The Superintendent, who is the leader of the District Crisis Intervention Team, will notify the team of the event.
- The Superintendent will notify appropriate Board of Education members of the incident.
- The Superintendent will file any necessary information with the State Education Department (for example, school bomb threat data cards).

In the event of a violent incident, the following policies and procedures are to be followed at the school building level:

- Student reports an incident to an adult or adult observes an incident.
- Adult takes appropriate action as necessary to respond to the incident.
- A written referral is forwarded to the building principal.

- School guidance counselor, ***school psychologist***, social worker and nurse are involved when necessary.
- Building principal will conference with the student(s) involved to determine the problems/issues.
- If parental notification is necessary, building principal will contact the parent(s) and may arrange a parent conference.
- Appropriate discipline will be administered following the District Code of Conduct and incident reported to the State Education Department when appropriate.

Follow-up of the violent incident should include:

1. Investigation of the incident by building principal and law enforcement, as necessary.
2. Preparation of written accounts of the incident by all involved.
3. Review of written accounts by the building principal for any disparities.
4. Appropriate disciplinary action according to the code of conduct.
5. Review of the entire incident by administration for future planning.
 - a. What happened?
 - b. Where did it happen?
 - c. When did it happen?
 - d. Why did it happen?
 - e. How did it happen?
 - f. How many individuals were involved?
 - g. Are the individuals associated with a group?
 - h. How could the incident have been prevented?
 - i. Were there warning signs?
 - j. What can we do to prevent a future incident?
6. Counseling or other needed support for the victim(s), other students and staff involved in the incident.
7. Necessary reporting and parental notification.

Each school's Building Level plan lists building specific response actions to criminal acts, bomb threats, civil disturbance, intrusion, hostage taking, kidnapping, as well as technological and natural disasters.

Response Protocols

The Pearl River Schools have a comprehensive multi-hazard Emergency Response Plan. This plan is updated annually. Copies of the plan are available in each Principal's Office as well as in the Superintendent's Office and the Central Office. Elements of the plan include:

Appendix 3 – The Early Detection of Potentially Violent Behaviors A Guide for Families and Communities

Early Warning Signs

It is not always possible to predict behavior that will lead to violence. In some situations and for some youth, different combinations of events, behaviors, and emotions may lead to aggressive rage or violent behavior toward self or others. School personnel and students, as well as parents, are often in a good position to observe these early warning signs.

None of these signs alone is sufficient for predicting aggression and violence. Moreover, it is inappropriate--and potentially harmful--to use the early warning signs as a checklist against which to match individual children. Rather, the warning signs are offered only as an aid in identifying and referring children who may need help. A good rule of thumb is to assume that these warning signs, especially when they are presented in combination, indicate a need for further analysis to determine an appropriate intervention.

The information that follows and such other information as may be appropriate concerning Early Warning shall be made available to all employees in a form to be determined by the Superintendent. It is the policy of the Pearl River that employees and students use the early warning signs only for identification and referral purposes. Trained professionals should make diagnoses in consultation with the child's parents or guardian.

The following early warning signs are cited by the United States Department of Education in its publication entitled **Early Warning, Timely Response: A Guide to Safe Schools** and is presented with the following qualifications: They are not equally significant and they are not presented in order of seriousness. They include:

- Social Withdrawal – In some situations, gradual and eventually complete withdrawal from social contacts can be an important indicator of a troubled child. The withdrawal often stems from feelings of depression, rejection, persecution, unworthiness, and lack of confidence.
- Excessive Feelings of Isolation and Being Alone – Research has shown that the majority of children who are isolated and appear to be friendless are not violent. In fact, these feelings are sometimes characteristic of children and youth who may be troubled, withdrawn, or have internal issues that hinder development of social affiliations. However, research also has shown that in some cases feelings of isolation and not having friends are associated with children who behave aggressively and violently.
- Excessive Feelings of Rejection – In the process of growing up, and in the course of adolescent development, many young people experience emotionally painful rejection. Children who are troubled often are isolated from their mentally healthy peers. Their responses to rejection will depend on many background factors. Without support, they may be at risk of expressing their emotional distress in negative ways-including violence. Some aggressive children who are rejected by non-aggressive peers seek out aggressive friends who, in turn, reinforce their violent tendencies.

- Being a Victim of Violence – Children who are victims of violence-including physical or sexual abuse-in the community, at school, or at home are sometimes at risk themselves of becoming violent toward themselves or others.
- Feelings of Being Picked On and Persecuted – The youth who feels constantly picked on, teased, bullied, singled out for ridicule and humiliated at home or at school may initially withdraw socially. If not given adequate support in addressing these feelings, some children may vent them in inappropriate ways-including possible aggression or violence.
- Low School Interest and Poor Academic Performance – Poor school achievement can be the result of many factors. It is important to consider whether there is a drastic change in performance and/or poor performance becomes a chronic condition that limits the child's capacity to learn. In some situations such as when the low achiever feels frustrated, unworthy, chastised, and denigrated acting out and aggressive behaviors may occur. It is important to assess the emotional and cognitive reasons for the academic performance change to determine the true nature of the problem.
- Expression of Violence in Writings and Drawings – Children and youth often express their thoughts, feelings, desires, and intentions in their drawings and in stories, poetry, and other written expressive forms. Many children produce work about violent themes that for the most part is harmless when taken in context. However, an overrepresentation of violence in writings and drawings that is directed at specific individuals (family members, peers, other adults) consistently over time, may signal emotional problems and the potential for violence. Because there is a real danger in misdiagnosing such a sign, it is important to seek the guidance of a qualified professional such as a school psychologist, counselor, or other mental health specialist to determine its meaning.
- Uncontrolled Anger – Everyone gets angry; anger is a natural emotion. However, anger that is expressed frequently and intensely in response to minor irritants may signal potential violent behavior toward self or others.
- Patterns of Impulsive and Chronic Hitting, Intimidating and Bullying Behaviors – Children often engage in acts of shoving and mild aggression; however, some mildly aggressive behaviors such as constant hitting and bullying of others which occur early in children's lives, if left unattended, might later escalate into more serious behaviors.
- History of Discipline Problems – Chronic behavior and disciplinary problems both in school and at home may suggest that underlying emotional needs are not being met. These unmet needs may be manifested in acting out and aggressive behaviors. These problems may set the stage for the child to violate norms and rules, defy authority, disengage from school, and engage in aggressive behaviors with other children and adults.
- Past History of Violent and Aggressive Behavior – Unless provided with support and counseling, a youth who has a history of aggressive or violent behavior is likely to repeat those behaviors. Aggressive and violent acts may be directed toward other individuals, be expressed in cruelty to animals or include fire setting. Youths who show an early pattern of antisocial behavior frequently and across multiple settings are particularly at risk for future aggressive and antisocial behavior. Similarly, youth who engage in overt behaviors such as bullying, generalized aggression and defiance, and covert behaviors such as stealing,

vandalism, lying, cheating and fire setting also are at risk for more serious aggressive behavior. Research suggests that age of onset may be a key factor in interpreting early warning signs. For example, children who engage in aggression and drug abuse at an early age (before age 12) are more likely to show violence later on than are children who begin such behavior at an older age. In the presence of such signs it is important to review the child's history with behavioral experts and seek parents' observations and insights.

- Intolerance for Differences and Prejudicial Attitudes – All children have likes and dislikes. However, an intense prejudice toward others based on racial, ethnic, religious, language, gender, sexual orientation, ability, and physical appearance when coupled with other factors may lead to violent assaults against those who are perceived to be different. Membership in hate groups or the willingness to victimize individuals with disabilities or health problems also should be treated as early warning signs.
- Drug Use and Alcohol Use – Apart from being unhealthy behaviors, drug use and alcohol use reduces self-control and exposes children and youth to violence, either as perpetrators, as victims, or both.
- Affiliation with Gangs – Gangs that support anti-social values and behaviors--including extortion, intimidation, and acts of violence toward other students cause fear and stress among other students. Youth who are influenced by these groups those who emulate and copy their behavior, as well as those who become affiliated with them may adopt these values and act in violent or aggressive ways in certain situations. Gang related violence and turf battles are common occurrences tied to the use of drugs that often result in injury and/or death.
- Inappropriate Access, Possession and Use of Firearms – Children and youth who inappropriately possess or have access to firearms can have an increased risk for violence. Research shows that such youngsters also have a higher probability of becoming victims. Families can reduce inappropriate access and use by restricting, monitoring, and supervising children's access to firearms and other weapons. Children who have a history of aggression, impulsiveness, or other emotional problems should not have access to firearms and other weapons.
- Serious Threats of Violence – Idle threats are a common response to frustration. Alternatively, one of the most reliable indicators that a youth is likely to commit a dangerous act toward self or others is a detailed and specific threat to use violence. Recent incidents across the country clearly indicate that threats to commit violence against oneself or others should be taken very seriously. Steps must be taken to understand the nature of these threats and to prevent them from being carried out.

Identifying and Responding to Imminent Warning Signs

Unlike early warning signs, imminent warning signs indicate that a student is very close to behaving in a way that is potentially dangerous to self and/or to others. Imminent warning signs require an immediate response.

No single warning sign can predict that a dangerous act will occur. Rather, imminent warning signs usually are presented as a sequence of overt, serious, hostile behaviors or threats directed at peers, employees, or other individuals. Usually, imminent warning signs are evident to more than one employee member--as well as to the child's family.

Imminent warning signs may include:

- Serious physical fighting with peers or family members.
- Severe destruction of property.
- Severe rage for seemingly minor reasons.
- Detailed threats of lethal violence.
- Possession and/or use of firearms and other weapons.
- Other self-injurious behaviors or threats of suicide.

Threat Assessment

A threat is an expression of intent to do harm or act out violently against someone or something. A threat can be written, spoken, or symbolic – as in motioning with one’s hands as though shooting or strangling another person. There are principally four types of threats – direct, indirect, veiled and conditional.

Threats are made for a variety of reasons: as a warning signal, a reaction to fear of punishment, anxiety, demand for attention or as retribution for a perceived or actual slight or affront. Threats may be intended to taunt, intimidate, assert power, punish, manipulate, coerce, frighten, terrorize, compel desired behavior, to strike back for an injury, injustice or slight; to be disruptive, to challenge authority or to protect oneself.

Individuals who make threats normally manifest other behaviors or emotions that are indicative of a problem. These can include: signs of depression, prolonged brooding, evidence of frustration or disappointment; fantasies of destruction or revenge in conversations, writings, drawings or other actions; expressions of intense love, fear, rage, revenge, excitement or pronounced desire for recognition. Use of alcohol or drugs can be an aggravating factor, as can a romantic breakup, failing grades or conflicts with parents or friends.

Personality Traits

Personality traits and behaviors that should be considered in assessing the likelihood of a student carrying out a threat include:

- A student intentionally or unintentionally revealing clues to feelings, thoughts, fantasies, attitudes, or intentions that may signal an impending violent act;

Family Dynamics

Family dynamics that should be considered in assessing the likelihood of a student carrying out a threat include:

- Turbulent parent/child relationship, relationship is particularly difficult, can be uniquely evident following recent or multiple moves, loss of parent, addition of step-parent, dismisses parents’ role in his/her life, evidence of violence in the home;
- Acceptance of pathological behavior, parents do not react to behavior that most would find disturbing’ parents appear unable to recognize or acknowledge problems in their children, respond quite defensively to real or perceived criticism of child, parents appear unconcerned about, minimize or reject reports of inappropriate behavior by child;

School Dynamics

School dynamics that should be considered in assessing the likelihood of a student carrying out a threat include:

- Student attachment to school, student appears detached from school, other students, teachers, and school activities;
- Tolerance for disrespectful behavior, school does little to prevent or punish disrespectful behavior between students, bullying is part of the school culture, school authorities are oblivious to bullying, little or no intervention by school authorities, school atmosphere promotes racial or class divisions, allows them to remain unchallenged;

- Code of silence, prevails among students, little trust between students and employees;
- Unsupervised computer access, access is unsupervised and unmonitored, students are able to play violent games, explore inappropriate websites, promote violent hate groups, give instruction in bomb making, etc.

Social Dynamics

Social dynamics that should be considered in assessing the likelihood of a student carrying out a threat include:

- Media, entertainment and technology, easy, unmonitored access to media, entertainment and Internet sites with violent themes and images;
- Peer groups, intense and extensive involvement with a group that shares fascination with violence or extremist beliefs;
- Drugs and alcohol, knowledge of students’ use of drugs or alcohol or changes in such use is important;
- Outside interests, outside interests of students are important to note as they can mitigate or increase the school’s level of concern in assessing a threat;
- Copycat effect, school shooting and other violent incidents that receive intense media attention can generate threats or copycat violence elsewhere, school employees should be highly vigilant in the aftermath of such incidents.
