

**WHO WE PLAY FOR** in partnership with **WORLD GYM BREWSTER** and **PMR** will be hosting a **cardiac screening event** for children (10 years and older) and adults

### **Prevent Fatal Cardiac Arrest—heart screening**

- *Sudden cardiac arrest (SCA) is the leading cause of death in sports and on school campuses—more than any form of cancer, concussion, or illness combined. Thousands of seemingly healthy kids die every single year due to **detectable** heart conditions.*
- *The standard physical is statistically proven to be less than 1% effective at detecting any heart conditions, adding an ECG improves those odds to 80-94%.*

**MARCH 1, 2020**

**10:00-3:00**

**WORLD GYM- BREWSTER**

Register online: [www.whoweplayfor.org/screening](http://www.whoweplayfor.org/screening)

Walk-ins Welcome

\$20 for youth 10-17 years/\$35 for adults
