Berkeley Township School District 100th Day of School 2016 Stokes State Forest Trip Scholarships

Students in the four schools in our district celebrated the 100th Day of School on February 18, 2016. Some students decorated their shirts with 100 items and others celebrated their first day as a centenarian-someone who lives to 100! They also made lists of the things they have learned during the first 100 days of this school year.

Sixth grade students at Berkeley Township Elementary School were presented with scholarships at the February 23, 2016 Board of Education Meeting to attend the 2016 Stokes State Forest Trip in June this year. The Berkeley Township Environmental Education Foundation Program is making a contribution of \$2,550.00 for 26 students to attend the trip. These students were awarded the scholarships based on persuasive essays they wrote. This year marks the 50th year our students have taken the trip to Stokes.

“Education is the threshold of a dream”
