Dear Parents/Guardians,

The Berkeley Township School District administers a variety of assessments throughout the school year. Teachers administer formative and summative assessments in the content areas in their classrooms. Some assessments administered in the district are standardized tests. Standardized tests are designed in such a way that the questions, conditions for administering, scoring procedures, and interpretations are consistent and are administered and scored in a predetermined, and consistent way. The following are the standardized tests that students in the Berkeley Township School District will participate in for the 2017-2018 school year. Most of the tests that are provided in the district are computer based and the district provides accommodations and modifications for students who may need more assistance as per their IEP or 504 plans.
