

Powhatan Middle School will host a virtual evening of “Non-traditional High School Options Q & A” with representatives from the Maggie L. Walker Governor’s School for Government and International Studies, Appomattox Regional Governor’s School for the Arts and Technology, Code RVA High School and the Powhatan High School/Reynolds Community College for Advanced College Academy Program on October 20, 2020. [Meeting Link](#)

The purpose of this evening is to allow each high school program an opportunity to follow up the video presentations shared via School Messenger and posted on the PCPS website with a virtual question and answer period where parents and students can ask questions not answered by the video presentations. This one-night event will be conducted in round-robin format so that students will be able to attend more than one school’s Q & A for more than one program they in which they are interested.

Although this opportunity is designed to recruit 8th grade applicants, 5th, 6th and 7th graders are welcome to attend so there are sure to be on the correct pathway to applying during their 8th grade year.

Applications will be available beginning on October 15 from Mrs. Haskins in the Gifted Services office (B210) and Mrs. Baldwin in the Counseling office. Applications will be available to students currently enrolled in Algebra I. Private and homeschool families seeking applications will need to schedule an appointment with Mrs. Haskins to come to Powhatan Middle School, provide proof of residency and pick up an application. Applications cannot be mailed. The deadline for 8th graders to submit an application is December 1, 2020.
