Dear Parent Community,

With the start of school opening shortly, I wanted to remind you that our classrooms are designated peanut and tree nut free. We believe that staff, students, and parents share in the responsibility of keeping children safe in the classroom and ask that parents/guardians ensure that their children do not bring foods containing peanuts or tree nuts to school for consumption in the classroom.

With precautions and awareness, our school environment can be safe for everyone. In our lunchroom, we have a table designated as peanut and tree nut free. Students who are allergic to either of these products eat at these tables, which are cleaned after each lunch period with clean paper towels. Children who purchase the school lunch, which is peanut and tree nut free, may sit at these tables with their friends who regularly sit there.

In bringing tree nut/peanut free snacks to school for consumption in the classroom, please read the labels carefully if you are unsure of the ingredients. Nutella is a nut butter product! Please know that for some of our students, simply touching a nut product can lead to serious consequences.

We provide students with allergy awareness and safety protocols. We ask that you join us in continuing to provide a safe environment for all our children.

Thank you.
Susan Gilbert, Principal

Where every child matters.
