RE: Ramah Housing

Dear Sir,

The teacher housing in Ramah New Mexico poses a severe safety issue to the staff that are asked to live there. The roofs have leaks and have caused mold issues inside the units and in turn the leaks have caused the floor tiles to loosen from the concrete. These tiles are held in place with an asbestos based adhesive. Both of these issues will require an environmental company to come in to these units and abate the mold and asbestos issues. When this is done the units will be completely gutted and will need to be completely remodeled. My time window does not allow for this to happen.

That being said I am asking to purchase 3 mobile homes to provide the teachers a safe home to live in as they teach our students.

Sincerely,

A handwritten signature in black ink, appearing to read "Ron Triplehorn".
