

## **What is WISE?**

The Westchester Individualized Senior Experience (W.I.S.E.) is a New Rochelle High School program designed to allow second semester seniors, with the guidance of faculty mentors, and where applicable, the cooperation of on-site mentors, to create, implement and complete a project based on their individual interests and/or career considerations. Many students serve as interns in social agencies, hospitals and businesses. Others do intensive academic research or artistic, scientific or creative work.
