

Help! I Received a Roaming Profile Error

Roaming profiles are how our system syncs your data while you are away from the school. A byproduct of this is you might receive a warning message while away from school. You should **NEVER** receive a profile message while at school. If you receive a profile error while at school please see IT ASAP. You will lose files if you don't!

The picture below shows a normal message when you are not at school. Notice the message says its using your last saved profile. As stated above this is a byproduct of roaming profiles and is normal. I cannot stop this box from appearing.

The picture below shows a profile error. Notice the message says the system will delete all files when you logoff. As stated above you should **NEVER** receive this message. If you do please see IT ASAP. Please use a flash drive to save your files in the meantime.
