

## Adding the Classlink One-Click Extension to the Chrome Browser

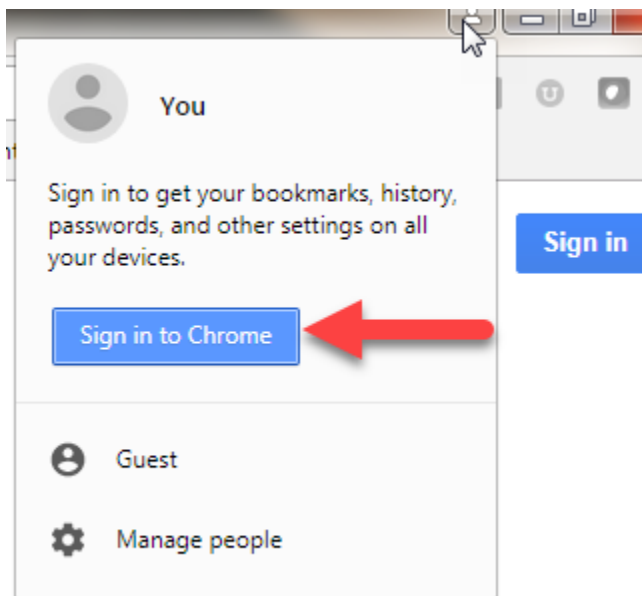

***Please be advised that Launchpad works best with Google Chrome and is the preferred browser.***

This guide will help with installing the ClassLink One-Click Extension to your Chrome browser. Before using Launchpad, please do the following:

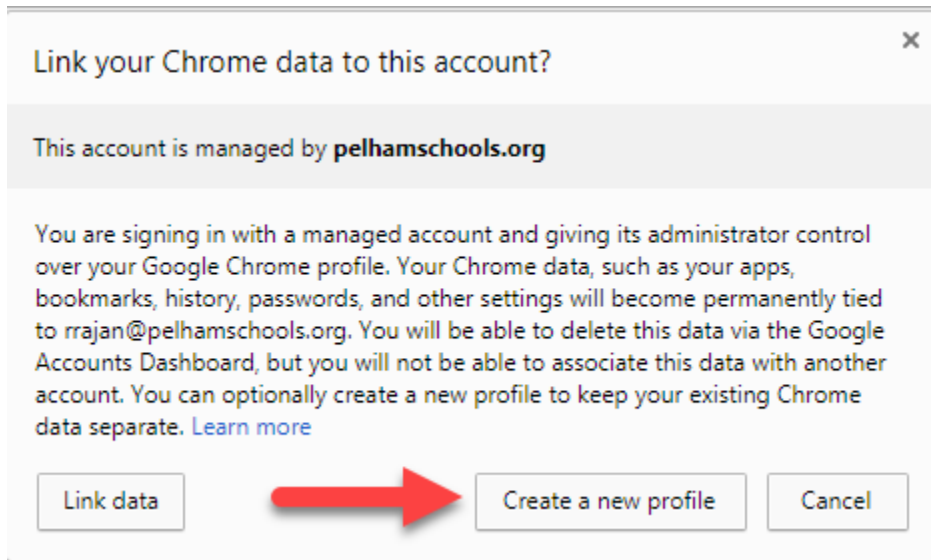

1) Open Google Chrome and click on the sign in button at the top right corner of the browser:

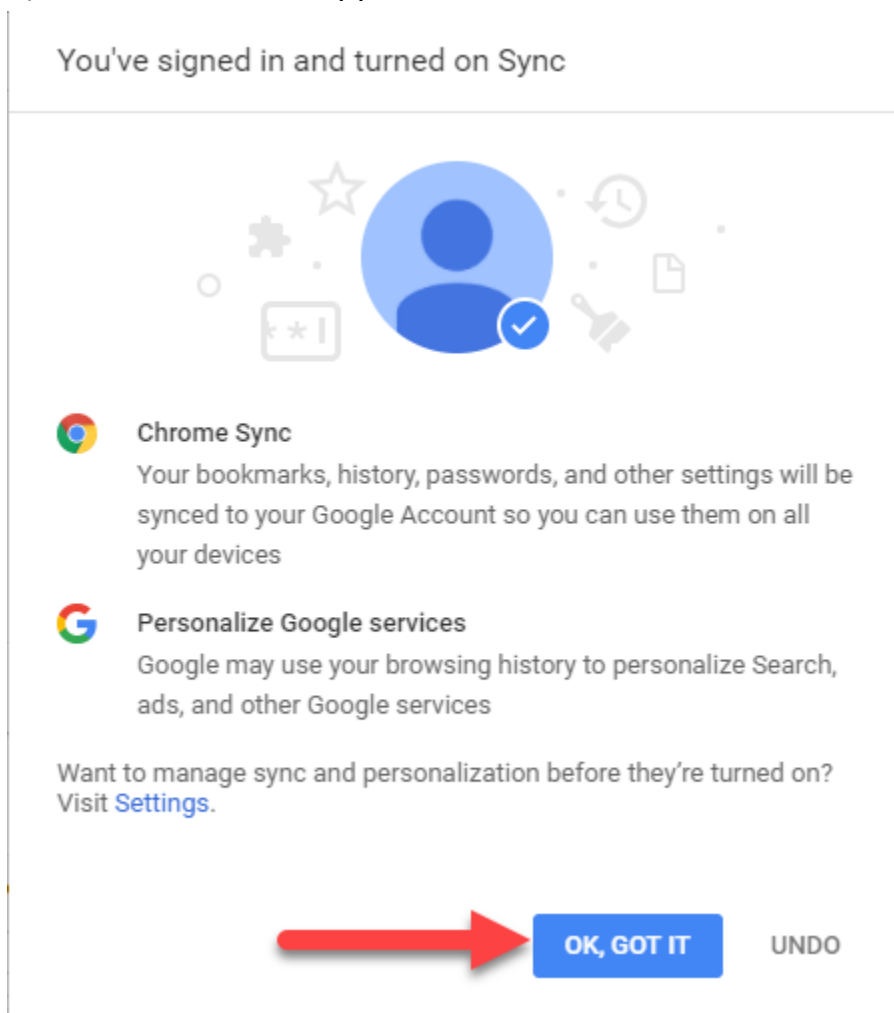

2) Click on the “Sign in to Chrome” button. Please use your child’s school email account to login:

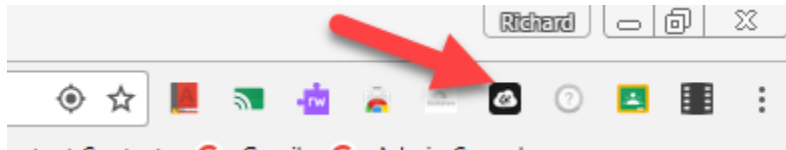

3) A prompt will appear on screen. Click on “Create a new profile”:

4) A notification will appear on screen. Click “OK, GOT IT”:

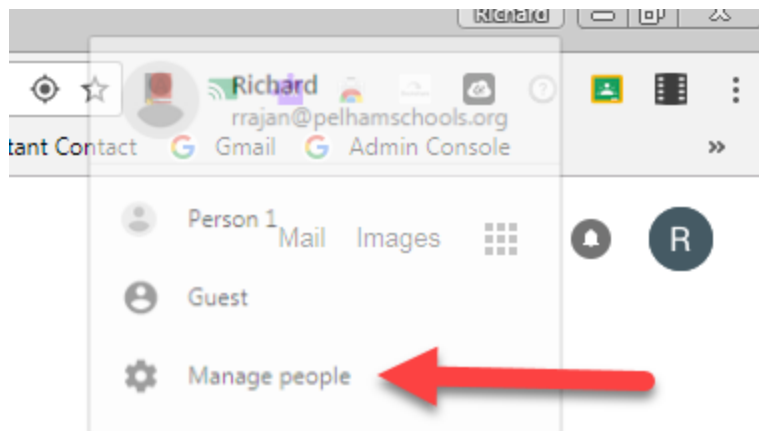

5) All District approved extensions, including the Classlink Oneclick extension will begin downloading to your browser. Please check the top right corner to see the extensions listed. Classlink will be among those extensions:

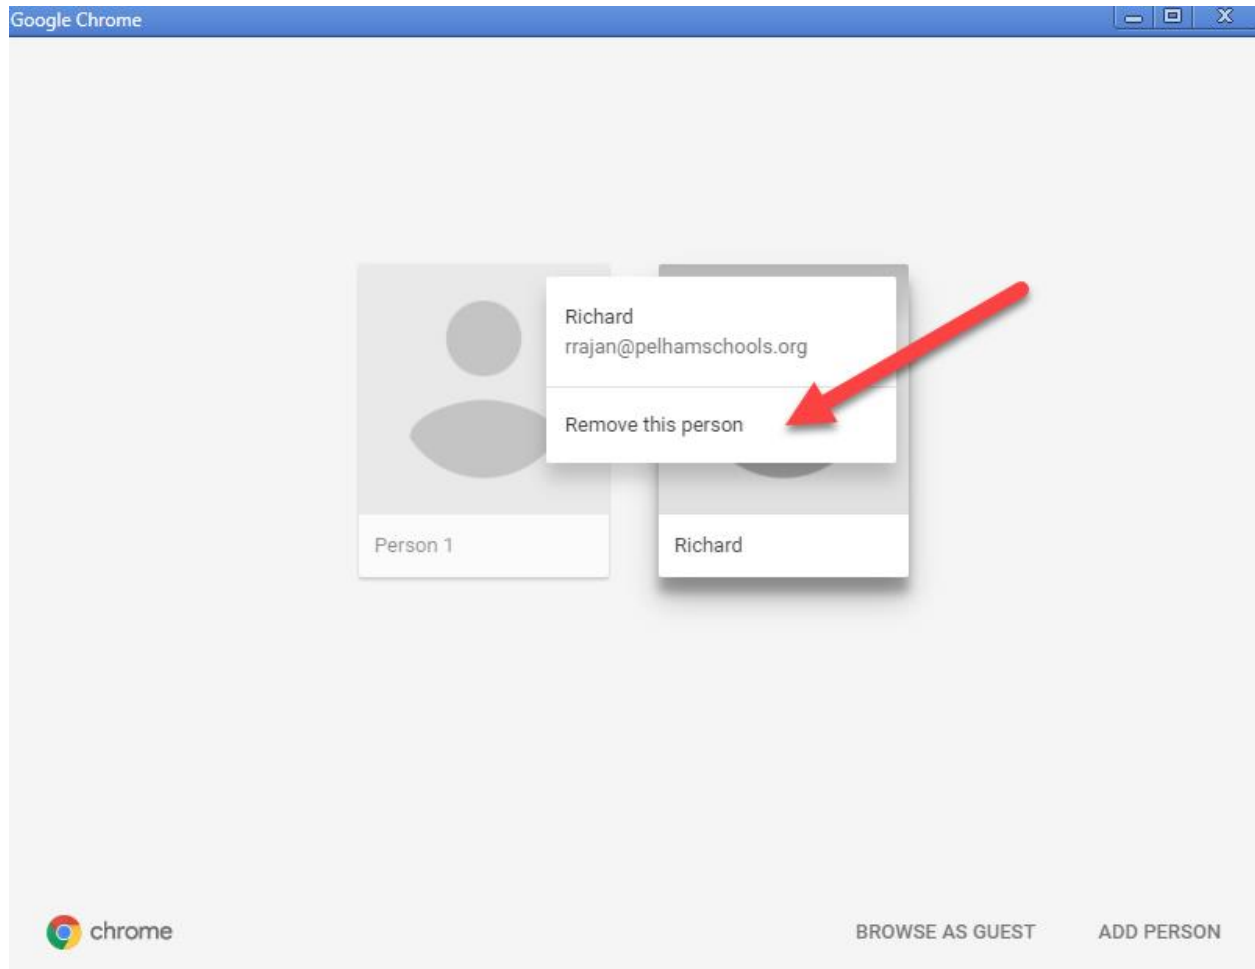

6) You are now ready to use Launchpad. You may go to the Launchpad website and begin using the platform:

<https://launchpad.classlink.com/pelham>

7) When you are finished using Launchpad, click on your child's name on the top right corner and click "Manage People":

8) Click on the vertical three dotted line on the top right corner next to your child's name. Click "Remove this person":

9) Another prompt will appear. Click on “Remove this person”:
