¹ For further information on any of the forms or data in the above table, please visit IRS Special Education's data collection requirements page located at: <http://www.n12.nysed.gov/sedcar/data.htm>

² Verification reports 7 and 9 are provider reports that do not require certification.

³ See the schedule of submission to find the school year in which your district is required to submit data for these indicators: <http://www.n12.nysed.gov/sedcar/snpochodole2017-2025.htm>

⁴ Only required for districts notified to complete a self-review. For further information on SPP Indicators, please visit: <http://www.n12.nysed.gov/specialied.asp>.

⁵ Please note for all due dates in red. Enrollment, demographic, assessment (including CISE), Special Education Snapshot (EOY) and disability program service records for those students who are potential submission records for the VR 11-16 reports must be migrated to the Level 2 Student Data Repository no later than **August 21, 2020**. Data will be reviewable in the PD data system as the List of Potential Student Records to ascertain that all students eligible to be included in these reports are on the list with accurate information. The L2 data repository **will be frozen with regard to** new or changes in the enrollment, demographic, assessment, special education snapshot and disability program service records after this date in order to do accountability calculations after the August 21, 2020 deadline.

The Level 1 Discrepancy report **5.1.1 Special Education Snapshot: Potential BEDS Day Discrepancy** will help you troubleshoot potential issues with this data:

CPSE students who did not receive summer services in Aug 20xx then transitioned to Kindergarten, DO NOT need an end of year snapshot, but they DO need a summer enrollment record denoting they were CPSE through August 20xx.

CPSE students who did not receive summer services in Aug 20xx and remained CPSE the rest of the school year DO need an end of year snapshot.

A very common reason for a student to be on this report is a mismatch between FrontLine and your SMS for the location of the service provider.
