

## **Board of Education Mission Statement**

The Board of Education believes its primary responsibility should focus on creating an educational environment that will help our students become knowledgeable individuals, problem-solvers, quality producers, effective communicators, wholesome individuals, collaborative workers, ethical individuals, life-long learners, and responsible, accepting and involved citizens. We remain committed to providing a high quality, well-balanced educational program that supports our faculty and staff and helps our students meet and exceed State standards as well as high district goals.
