## **INDEPENDENT AUDITORS' REPORT**

To the Board of Trustees  
Sweetwater County School District No. 1  
Rock Springs, Wyoming

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Sweetwater County School District No. 1, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditors' Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Sweetwater County School District No. 1, as of June 30, 2019, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 4 - 14 and 55 - 57, the schedules of proportionate share of net pension liability and defined benefit pension contributions on pages 58 and 59, and notes to required supplementary information on page 60 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Sweetwater County School District No. 1's basic financial statements. The combining and individual nonmajor fund financial statements and other schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements, schedule of expenditures of federal awards, and other schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial

statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, schedule of expenditures of federal awards, and other schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

*Accountants' Privity Notification*

The accompanying basic financial statements, supplemental information, and our independent auditors' reports are for the purpose of meeting local, state, and federal requirements and for the use of those entities and the management and the Board of Trustees and should not be used or relied upon by any other party for any purpose. Additional users of these financial statements, supplemental information, and independent auditors' reports are hereby advised that the liability of Skogen, Cometto & Associates, P.C. to third party users who use or rely on this information may be limited pursuant to 1995 Wyoming Session Laws, Chapter 155 creating Wyoming Statute §33-3-201.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 9, 2019 on our consideration of the Sweetwater County School District No. 1's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Sweetwater County School District No. 1's internal control over financial reporting and compliance.

*Management's Discussion and Analysis*  
*For the Fiscal Year Ended June 30, 2019*  
*Unaudited*

This section of Sweetwater County School District No. 1's annual financial report presents management's discussion and analysis of the District's financial performance and provides an overall review of the financial activities for the fiscal year ended June 30, 2019. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the financial statements and notes to the financial statements to enhance their understanding of the District's financial performance.

***Financial Highlights***

Key financial highlights of the primary government for 2019 are as follows:

- ✓ Assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$107.78M. Of this amount, (\$42.13M) is unrestricted for the District's discretionary use. Unrestricted net assets of governmental activities were (\$42.01M); business-type activities amounted to (\$0.12M).
- ✓ Total revenues exceeded expenses increasing net assets by \$5.85M. Governmental activities increased net assets by \$5.76M while business-type activities generated (\$0.09M).
- ✓ Total program expenses were \$92.24M; \$90.11M in governmental activities and \$2.13M in business-type activities. Program specific revenues were \$8.05M for governmental activities and \$1.83M for business-type activities. \$88.20M in general governmental revenues were adequate to cover the costs of these programs. \$0.39M in business-type revenues were used to cover expenses of these programs, resulting in a net position of (\$0.06M) for business-type activities.
- ✓ Employee health insurance plan total assets exceeded liabilities by \$24.80M, all of which is unrestricted for the District's discretionary use. Total revenues exceeded expenses, increasing net assets by \$4.30M. Employee health insurance claims were \$11.52M, which was 4.43% lower than the prior year.
- ✓ The District had no bonded debt during fiscal year 2019.
- ✓ The Sweetwater County School District Number One Recreation Board's assets exceeded total liabilities by \$8.46M, all of which is restricted for the use of the Recreation Board. Total revenues of \$1.64M exceeded total transfers of \$0.65M, increasing net assets of the Recreation Board by \$1.58M.
- ✓ The Sweetwater One Public School Foundation's assets exceeded total liabilities by \$0.88M; of this amount, \$0.33M is unrestricted for the Foundation's discretionary use. Total revenues and contributions exceeded expenses, increasing net assets of the Foundation by \$0.067M. Total program expenses were \$0.057M. \$0.14M in general foundation revenues were adequate to cover the costs of these programs.

***Overview of the Financial Statements***

This annual report consists of three parts: management's discussion and analysis (this part), the basic financial statements, and required supplementary information. The discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements include three components: 1) district-wide financial statements, 2) fund financial statements and 3) notes to the financial statements.

**District-wide financial statements.** The *district-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to private sector business. These statements contain useful long-term information as well as information for the just completed fiscal year.

The *statement of net position* presents information on all the District's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases and decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or diminishing.

The *statement of activities* presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes and earned but unused vacation leave.)

In the statement of net position and statement of activities, the District is divided into three distinct kinds of activities as follows:

**Governmental Activities** – Most of the District's programs and services are reported here including instruction, support services, operation and maintenance of facilities, pupil transportation, and the activities of the Sweetwater County School District Number One Recreation Board.

**Business - Type Activities** – This service is provided on a charge for goods or services basis to recover all of the expenses of the goods or services provided. The Food Service, Summer Programs, and Head Start Nutrition enterprise funds are reported as a business activity.

**Component Unit Activities** – Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. The Sweetwater One Public School Foundation is reported as a discretely presented component unit of the District. The Sweetwater County School District Number One Recreation Board is presented as a blended component unit and included as a nonmajor governmental fund of the District.

The district-wide financial statements can be found on pages 15 and 16 of this report.

*For the Fiscal Year Ended June 30, 2019*  
*Unaudited*

**Fund financial statements.** A fund is a grouping of related accounts that are used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related requirements. The fund groups of the District are governmental funds, proprietary funds, and fiduciary funds.

*Governmental funds.* Governmental funds are used to account for essentially the same functions reported as governmental activities in the district-wide financial statements. However, unlike the district-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the district-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the district-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between the governmental activities statement of net assets and statement of activities. The basic governmental fund financial statements can be found on pages 17 through 20 of this report.

*Proprietary funds.* Proprietary funds are used to account for activities the District operates similar to private business. Proprietary funds use the accrual basis of accounting, the same as on the district-wide statements. Therefore, the statements will essentially match the business-type activities portion of the district-wide statements. The proprietary fund financial statement can be found on pages 21 through 23 of this report.

*Fiduciary funds.* Fiduciary funds are used to account for resources held for the benefit of parties outside the District. The District is the trustee, or fiduciary, for assets that belong to others, such as the student activities funds and employee agency accounts. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. Fiduciary funds are not reflected in the district-wide financial statements because the resources of those funds are not available to support the District's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The fiduciary fund financial statement can be found on page 24 of this report.

**Notes to the Financial Statements.** The notes provide additional information that is essential to a full understanding of the data provided in the district-wide and fund financial statements. The notes to the financial statements can be found on pages 25 through 54 of this report.

The basic financial statements are followed by a section of supplementary information. *Required supplementary information* further explains and supports the financial statements by including a comparison of the District's primary government budget data for the year. Budgetary comparison statements have been provided for the major funds to demonstrate compliance with this budget.

*For the Fiscal Year Ended June 30, 2019*

*Other supplemental information* provides information specific to non-major governmental funds, such as the Recreation Board and Head Start. The required and other supplementary information can be found on pages 55 through 74 of this report.

Major features of the District's financial statements are shown in the following table (Table 1):

Total assets of the primary government increased \$12.83M. Cash and cash equivalents increased by \$10.22M, receivables increased by \$4.16M, other current assets increased by \$0.18M, and capital assets decreased by \$1.73M. The decrease in capital assets is primarily due to the disposal of school buses and various school district equipment.

Total liabilities of the primary government increased \$17.67M. Unearned Revenue decreased by \$0.22M, the current portion of long-term debt decreased by \$0.16M, and the non-current portion of long-term obligations decreased by \$0.57M. Net pension liability increased by \$15.06M and OPEB liability increased by \$4.07M. The increase in the net pension liability is due to an increase in the required contribution from the employer and employee. Deferred Outflows increased by \$12.89M, due to the District's proportional share of the net difference between projected and actual earnings on investments of the WRS Public Employees Plan. Deferred Inflows increased by \$2.23M due to higher property tax valuations. See also Note 5.

The primary government's unrestricted net assets increased by \$3.35M. This is mainly due to an increase in cash and net liability related to pensions.

Table 3 reflects the changes in net assets of the primary government for fiscal year 2018 and 2019.

The primary government received \$98.08M in revenues during the most recent fiscal year. Property taxes and unrestricted federal and state aid accounted for 89% of total revenue. Another 11% came from charges for services, operating grants and contributions, capital grants and contributions, and

earnings on investments. The net decrease in revenues of \$3.62M is primarily due to a decrease in capital grants and contributions.

The total cost of all programs and services are predominately related to pupil instruction, operation and maintenance of facilities, student transportation, and student and staff services. Administrative and business activities accounted for 14.51% of total cost, while maintenance and operation of facilities made up 10.57% of total cost. The decrease in expenditures of \$2.53M from the prior fiscal year was mainly due to reducing instruction, support services, and other costs during the 2018-2019 school year.

Total revenues exceeded total expenses for 2019, increasing net assets by \$5.85M. Governmental activities increased net assets by \$5.76M; business-type activities contributed \$0.09M.

### Governmental Activities

The *statement of activities* reflects the cost of program services and the charges for services, sales, grants, and contributions offsetting those services. The statement of activities also identifies the cost of these services supported by tax revenues and federal and state aid. Table 4 indicates the total cost of services and the net cost of services for governmental activities for 2019 compared to 2018.

**Table 4**

<b>Total</b>	<b>\$92.60</b>	<b>\$90.10</b>	<b>-2.70%</b>	<b>\$81.41</b>	<b>\$82.06</b>	<b>0.80%</b>

The total cost of governmental activities was \$90.10M. The net cost of governmental activities (\$82.06M) was financed by general revenues, which are primarily made up of property taxes and unrestricted federal and state aid. Due to the unique nature of school funding in Wyoming, certain general revenues are capped by the State School Foundation Funding Model. As such, fluctuations in county property valuations do not have a significant overall effect on the District's funding. The

State Foundation Program Guarantee contributed \$81.76M toward the net cost of governmental services. The increase of 56.94% in the operation and maintenance of facilities was mainly due to a reduction in capital grants and contributions in fiscal year 2019 as a large portion of the SFD funding in the prior year was for the construction of the K-12 school at Farson. The increase in the board of education, administration, fiscal and business line item was primarily driven by a large increase in OPEB liability, which was offset by reductions in school administration, business services, and other areas of administration.

### **Business-Type Activities**

Business-Type activities include Food Service, Summer Programs, and the Headstart Nutrition program, all of which are self-supporting. These programs had revenues and other support of \$2,221,324 and expenses of \$2,132,901 resulting in a net income of \$88,423 for fiscal year 2019. The Food Service program provided a net loss of \$88,240, the Summer Programs contributed a net income of \$5,148, while the Headstart Nutrition program had a net loss of \$5,331.

### ***The District's funds***

The District's governmental funds are accounted for on the modified accrual basis of accounting. All governmental funds had total revenues and other financing sources of \$95.44M and expenditures and other financing uses of \$88.28M. The net change in fund balance for the year was most significant in the District Capital Projects Fund, the Recreation Board, and Major Maintenance. The net increase of \$3.23M in District Capital Projects was mainly due to transfers from the General Fund. The net increase in the Recreation Board is primarily reflects Recreation mil receipts over transfers to the SFC Capital Projects fund for Farson School enhancements and the fitness center.

### ***General Fund Budgeting Highlights***

The District's Budget is prepared according to Wyoming law and is based on accounting for certain transactions on a basis of cash receipts and disbursements. The most significant budgeted fund is the General Fund.

During the course of fiscal year 2019, the District amended its General Fund budget as needed. Many of the amendments are due to changes in expenditure priorities in the District's schools and departments. The District uses a site/department-based budgeting system designed to tightly control such budgets, yet provide flexibility for site or department management.

The General Fund actual revenues and other financing were \$82.12M, which is below the original budget estimate of \$83.94M and below the final amended budget of \$83.98M. The \$1.86M variance between the final budget and the June 30, 2019 actual revenues was mainly due to transfers from the capital projects fund.

The actual expenditures and other financing uses of the General Fund were \$81.94M, which is below the original budget estimate of \$87.19M and below the final amended budget of \$87.20M. The variance of \$0.05M between the original budget estimate and the final amended budget was due to

transfers to the Capital Projects Fund and the Internal Service Fund. The \$5.29M variance between the final amended budget and the June 30, 2019 actual results was due to a) lower special education costs than anticipated, b) lower health insurance claims than expected, c) lower utility costs than estimated, and d) prudent spending of site and department funds.

***Capital Assets***

At the end of fiscal year 2019, the primary government had \$133.55M invested in land, buildings, equipment, transportation equipment, and art collection. \$133.44M of this amount is in governmental activities. Table 5 shows the breakdown of net capital assets of the primary government for fiscal year 2019 compared to fiscal year 2018.

**Increase in Capital Assets \$ (4.13)**

Overall capital assets decreased by \$4.13M from fiscal year 2018. The net decrease in capital assets was primarily due to the disposal of school buses, and depreciation of capital assets.

The majority of capital assets added during fiscal year 2019 were for building improvements, transportation equipment, and construction in process. The District finished the Walnut Fire Sprinklers, Sage Parking Lot, Desert View Magnetic Door Holders, and Walnut Carpet. Additionally, the District acquired copiers and a teacherage in Fasron.

Construction in progress includes design work for the Satellite High School, Rock Springs High School network expansion, date replacement, and auditorium attic retrofit. The entire costs of these projects will not be fully reflected until fiscal year 2020 and beyond.

The District is obligated under construction commitments at June 30, 2019, for certain capital projects including the design of Satellite High School, Wamsutter Fire Alarms, Rock Springs High School data replacement and network expansion. Construction in progress on all projects amounted to \$5.34M, with an outstanding commitment of \$.64M. These commitments will be funded by the State School Facilities Department and the Recreation Board.

Additional information on the District's capital assets can be found in Note 4 on pages 39 and 40 of this report.

***Long Term Debt and Obligations***

The District had no bonded debt outstanding at June 30, 2019. The District neither issued nor retired any bonded debt during the fiscal year. The District's legal debt margin for fiscal year 2019 was \$146.670M.

The long-term obligations of the District increased by \$18.17M from fiscal year 2018, primarily due to an increase in net pension liability. Additional information on the District's long-term obligations can be found in Note 7 on pages 46 through 49 of this report.

***Current Issues***

The District has experienced a decline in student enrollment the past few years due to a decline in the economic environment. Since the State Foundation Program funding is based largely on average student membership, declining student enrollment has a negative impact on State Foundation Program funding. Additionally, the 2019 Wyoming legislature modified the State Foundation Program to include an external cost adjustment and raised the funding cap on reimbursable transportation expenditures for school year 2019-2020. Any future changes in the funding model could have a significant impact on the operations of the District.

Furthermore, the District is currently in the process of building a new Satellite High School, which could affect staffing levels and compensation, facility use, technology needs, and cash flow.

One of the most important variables in the District's financial future is the cost of health insurance for its employees. Current year trends provided a minimal decrease in anticipated costs, but it is uncertain if this trend will continue. An increase in health plan costs could have an impact on other budget areas. Administration has been implementing various cost saving measures and strategies, including various plan design changes to offset the District's portion of this expense, but this issue continues to be a budgetary challenge.

These current issues require management to plan carefully and prudently to make strategic use of available resources and evaluate various cost saving measures to meet student needs now and in the

future. If student enrollment declines and health benefits rise, the Administration and Board of Trustees will be faced with challenges to make changes in order to keep the District solvent. The District is committed to its sound fiscal management to meet the challenges of the future.

**SWEETWATER COUNTY SCHOOL DISTRICT NO. 1**  
**RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENT FUNDS**  
**TO THE STATEMENT OF NET POSITION**  
**JUNE 30, 2019**

Total fund balances for governmental funds \$ 46,283,337

Total net position reported for governmental activities in the statement of net position is different because:

Capital assets used in governmental funds are not financial resources and therefore are not reported in the funds. Those assets consist of:

Land	\$ 774,593	
Construction in progress	5,024,781	
Art collection	553,000	
Buildings and improvements, net of \$62,279,578 accumulated depreciation	124,112,005	
Furniture and equipment, net of \$3,881,162 accumulated depreciation	923,846	
Transportation equipment, net of \$5,106,598 accumulated depreciation	2,683,820	
Leased transportation equipment, net of \$979,218 accumulated depreciation	<u>1,789,147</u>	135,861,192

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the governmental funds.

Property tax revenue	\$ 770,274	
Advanced other revenue	<u>139,610</u>	909,884

The internal service funds are used by management to charge the costs of the employee health insurance program. The assets and liabilities of the internal service fund are included in governmental activities in the statement of net position. 24,796,950

Long-term liabilities that pertain to governmental funds, are not due and payable in the current period and therefore are not reported as fund liabilities. All liabilities - both current and long-term - are reported in the statement of net position. Balances at year-end are:

Obligations under capital leases	\$ (752,552)	
Accrued vacation	(301,710)	
Postemployment benefits payable	<u>(38,649,925)</u>	(39,704,187)

The pension activities consists of deferred outflows relating to pensions and the net pension liability which pertain to governmental activities. Deferred outflows relating to pensions represent expenditures which apply to future periods. The pension activities relates to future periods and therefore are not reported as governmental fund assets or liabilities. The pension activities are reported in the statement of net position. Balances at year end are:

Pension plan items - deferred outflows of resources	\$ 13,460,046	
Pension plan items - deferred inflows of resources	(2,285,469)	
Pension expense unfunded obligation	<u>(71,479,069)</u>	<u>(60,304,492)</u>

Total net position of governmental activities \$ 107,842,684

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN  
FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES  
FOR THE YEAR ENDED JUNE 30, 2019**

Net change in fund balances-total governmental funds \$ 7,160,001

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlay as expenditures. However, in the statement of activities, assets with an initial, individual cost of more than \$5,000 for furniture and equipment, \$50,000 for land and improvements, and buildings and improvements are capitalized and the cost is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation and abandonment of assets exceeded capital outlay in the current period.

Capital outlay	\$ 4,645,010	
Depreciation expense	(6,165,377)	
Abandonment of capital assets	<u>(193,495)</u>	(1,713,862)

Some capital asset additions are financed through capital leases. In governmental funds, a capital lease arrangement is considered a source of financing, but in the statement of net position the lease obligation is reported as a liability. Repayment of capital lease principal is an expenditure in the governmental funds, but repayment reduces the lease obligation in the statement of net position.

Principal payments of capital leases	710,452
--------------------------------------	---------

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the governmental funds. Amounts received as an advance through the Foundation Guarantee Program in the prior year is reflected as earned resources in the current year governmental activities statements.

Deferred property tax revenue - prior year	\$ (785,910)	
Deferred property tax revenue - current year	770,274	
Advanced Foundation Guarantee	521,906	
Advance other revenue - prior year	(180,842)	
Advanced other revenue - current year	<u>139,610</u>	465,038

In the statement of activities, certain operating expenses - compensated absences (vacations) and early retirement benefits (postemployment benefits) - are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid).

Compensated absences - prior year	\$ 316,206	
Compensated absences - current year	(301,710)	
OPEB obligation - prior year	34,577,440	
OPEB obligation - current year	<u>(38,649,925)</u>	(4,057,989)

Internal service funds are used by the District to charge the costs of the employees health insurance to individual funds. The net revenue of the internal service funds is reported with governmental activities.	4,355,389
--	-----------

Deferred inflows of resources represent liabilities that will be paid at a future date and are not recorded in the governmental funds.

Pension plan items - prior year	\$ 2,485,208	
Pension plan items - current year	11,174,577	
Net pension liability - prior year	56,659,709	
Net pension liability - current year	<u>(71,479,069)</u>	<u>(1,159,575)</u>

## **NOTES TO FINANCIAL STATEMENTS**

**SWEETWATER COUNTY SCHOOL DISTRICT NO. 1  
NOTES TO FINANCIAL STATEMENTS (CONTINUED)**

1. The Reporting Entity, Nature of Operations, Basis of Presentation, Description of Funds, and Significant Accounting Policies

**REPORTING ENTITY**

For financial reporting purposes, the District includes all of the funds of Sweetwater County School District No. 1. The reporting entity for the District consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. The primary government is financially accountable if it appoints a voting majority of the organization's governing body and (1) it is able to impose its will on that organization or (2) there is a potential for the organization to provide specific financial benefits to or burdens on the primary government. The primary government may be financially accountable if an organization is fiscally dependent on the primary government. The aggregate discretely presented component unit is reported in a separate column in the government-wide financial statements (see note below for description) to emphasize that it is legally separate from the District.

**DISCRETELY PRESENTED COMPONENT UNIT**

Sweetwater One Public School Foundation is a legally separate, tax-exempt component unit of the District. The Foundation was organized and shall be operated exclusively to receive, hold, invest in, and administer property for the District; make expenditures to or for the benefit of the District; and intended to be organized and operated as an endowment fund for the benefit of Sweetwater County School District No. 1. The Foundation does not issue separate financial statements.

The Foundation is a private not-for-profit organization that reports its financial results under the Financial Reporting for Not-for-Profit Organizations and Accounting for Contributions Received and Contributions Made Topics of the FASB Accounting Standards Codification (ASC) (Topics). As such, certain presentation features are different from Governmental Accounting Standards Board (GASB) presentation features. No modifications have been made to the Foundation's financial information in the District's financial reporting entity for these differences.

**BLENDED COMPONENT UNIT**

Sweetwater County School District No. 1 Recreation Board is also a legally separate, tax-exempt component unit of the District. The Recreation Board's funding is a one mill recreation levy imposed by the School Board. At the present time, most proposals for recreation projects will include facilities, construction, maintenance and operation, and equipment used by the District.

**SWEETWATER COUNTY SCHOOL DISTRICT NO. 1**  
**NOTES TO FINANCIAL STATEMENTS (CONTINUED)**

1. The Reporting Entity, Nature of Operations, Basis of Presentation, Description of Funds, and Significant Accounting Policies

**NATURE OF OPERATIONS**

The operations of the District consist of providing educational services to the residents of Rock Springs, Wyoming and the surrounding area within Sweetwater County, Wyoming. The District operates under a locally elected seven-member Board form of government and provides educational and supportive services as mandated by the State of Wyoming and/or federal agencies.

**BASIS OF PRESENTATION**

The District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

**Government-Wide Financial Statements:**

The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the District that are governmental and those that are considered business-type activities.

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of net position presents the financial condition of the governmental activities of the District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants, and contributions that are restricted to meeting the operational or capital requirements of a particular program. Program revenues also include interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)**

1. The Reporting Entity, Nature of Operations, Basis of Presentation, Description of Funds, and Significant Accounting Policies

Fund Financial Statements

During the year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The fiduciary funds are reported by type.

**DESCRIPTION OF FUNDS**

The District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the District are grouped into the categories governmental, proprietary, and fiduciary.

Governmental Funds

Governmental funds are those through which most governmental functions of the District typically are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the funds from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance.

Governmental funds are organized as major funds or nonmajor funds with an emphasis placed on major funds. A fund is considered major if it is a primary operating fund of the District and meets the following criteria:

Total assets, liabilities, revenues, or expenditures of that individual governmental fund are at least 10 percent of the corresponding total for all funds of that category or type.

In addition, any other governmental fund that the District believes is particularly important to the financial statement users may be reported as a major fund.

The following are the District's major governmental funds:

General Fund - The General Fund is the operating fund of the District and is used to account for all financial resources except those that are required to be accounted for in another fund. The instructional and most of the support service programs of the District are accounted for in the General Fund. The revenue of the fund consists primarily of local

property taxes and federal and state funds. The general fund balance is available for any purpose provided it is expended or transferred according to the laws of the State of Wyoming.

Major Maintenance Fund – The Major Maintenance fund is a special revenue fund that accounts for the proceeds from capital maintenance property taxes levied on the District’s behalf. Capital maintenance expenditures provided for these sources are recorded in this fund.

District Capital Projects/Special Purpose Fund - The District Capital Projects Fund was established pursuant to Wyoming Statute §21-13-504 to account for financial resources accumulated and payments made for the purpose of purchasing or replacing specified equipment or as a depreciation reserve for equipment and school building repair. Annual transfers from the General Fund cannot exceed ten percent (10%) of the total General Fund budget.

Grant Programs Fund – The Grant Programs Fund is used to account for the proceeds of specific revenue sources (other than the Headstart Program) that are legally restricted to expenditures for specified purposes. The revenue of the Special Revenue Funds consists primarily of federal and state grants.

Recreation District Fund - The Recreation District Fund is used to account for the 1 mill recreation tax levy to be used for recreation projects including facilities, construction, maintenance and operations, and equipment used by the District.

Proprietary Funds

Proprietary Funds focus on the determination of changes in net position, financial position, and cash flows.

Enterprise Funds – The Enterprise Funds are also organized as major funds and nonmajor funds with the emphasis placed on major funds. The Food Service Fund is a major enterprise fund used to account for the operations of the school breakfast and lunch program on a self-supporting basis. The fund is sustained by charges for lunch, government subsidized meal costs and food commodities, and transfers from the General Fund.

The Summer Program is a nonmajor enterprise fund. The fund is sustained by tuition charged for participation in the summer programs. The Headstart Nutrition program is a nonmajor enterprise fund, and used to account for the Headstart snack and lunch program on a self-supporting basis. The fund is sustained by government subsidized meals costs.

Internal Service Fund – Internal Service Funds are used to account for the financing of goods or services provided by the District to the District itself on a cost reimbursement basis. The District’s employee health insurance plan is accounted for as an internal service fund.

Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. The agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District’s agency funds account for those student activity programs which have student participation in the activity and have students involved in the management of the programs and employee agency accounts in which funds are held on behalf of employees.

**SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of Sweetwater County School District No. 1 have been prepared in conformity with generally accepted accounting principles as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Significant accounting policies followed by the District are as follows:

a) Measurement Focus and Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. The government-wide, proprietary, and fiduciary fund financial statements are prepared using the economic resources and accrual basis of accounting. Governmental funds use the current financial resources measurement focus and modified accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of unearned revenue, and in the presentation of expenses versus expenditures.

Revenues – Exchange and Nonexchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be

used to pay liabilities of the current fiscal year. For the District, available means expected to be received within 60 days of fiscal year-end.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements, donations, and State recapture payments. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, interest, tuition, grants, fees, and rentals. Also under the modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Federal and State Grants and Entitlements

Federal and state grants and entitlements are recognized as revenue in the period the District is entitled to the resources and the amounts are available. Expenditure-driven programs currently reimbursable are recognized as revenue when the qualifying expenditures have been incurred and the amounts are available. Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Unearned Revenue

On governmental fund financial statements, receivables that will not be collected within the available period, including property taxes, have also been reported as unearned revenue.

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported in the operating statement as an expense with a like amount reported as donated commodities revenue.

The measurement focus of governmental fund accounting is on decreases in financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation are not recognized in governmental funds.

Operating Revenues and Expenses

Operating revenues and expenses for proprietary funds are those that result from providing services and producing and delivering goods and services. It also includes all revenue and expenses not related to capital and financing activities, noncapital financing, or investing activities. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

b) Budgetary Process

All funds are legally required to be budgeted and appropriated. The District's Board of Trustees annually adopts a budget and approves the related appropriations. Legal spending control is at the program level within each of the individual funds, management control is exercised at budgetary line item levels within each fund. The Board of Trustees may amend the budget after it is approved and also authorizes transfers between the various budgetary programs in any fund. The amounts reported as original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the year.

c) Property Taxes

Property taxes attach as an enforceable lien on property as of January 1 each year. Property taxes are levied in the first week of August of each year and are payable in two installments on September 1 and March 1. The County bills and collects its own property taxes and also taxes for all municipalities and political subdivision within the County, including Sweetwater County School District No. 1. District property tax revenues are recognized when levied to the extent that they result in current receivables, which means when collected within the current period or expected to be collected within 60 days of the fiscal year end to be used to pay liabilities of the current period.

The District is required by Wyoming Statutes to levy taxes of twenty-five mills of assessed valuation for all school purposes, exclusive of bond interest and redemption. In addition, a county-wide school property tax of six mills is levied as well as one mill for recreation district is levied. The combined tax related to finance general school services for the year ended June 30, 2019 was thirty-two mills.

d) Cash, Cash Equivalents, and Investments

For purposes of the Proprietary Funds statement of cash flows, the Board considers all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased to be cash equivalents. The cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments.

e) Internal Balances

On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as “due to/from other funds”. These amounts are eliminated in the governmental and business-type activities columns of the statement of net position, except for the net residual amounts due between governmental, business-type activities, and student activities.

f) Inventories and Prepaid Items

Inventories are accounted for at the lower of cost (first-in, first-out method) or market using the consumption method by which inventory acquisitions are recorded in inventory accounts when purchased or received by other means and are charged to expense when consumed or sold. Inventories in governmental fund types are equally offset by a fund balance reserve, which indicates that they do not constitute “available spendable resources” even though they are a component of net current assets.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

g) Due from Other Governments

Due from other governments includes grant and reimbursements receivable from other governmental entities. Due to the date of collection of certain receivables, these balances impact reconciliations and revenue recognition.

h) Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements. Capital assets utilized by the enterprise funds are reported both in the business-type activities column of the government-wide statement of net position and in the respective funds.

**SWEETWATER COUNTY SCHOOL DISTRICT NO. 1**  
**NOTES TO FINANCIAL STATEMENTS (CONTINUED)**

1. The Reporting Entity, Nature of Operations, Basis of Presentation, Description of Funds, and Significant Accounting Policies (Continued)

All capital assets are recorded at cost, if purchased, or at fair market value as of the date of the gift if received as a donation. The District maintains a tiered capitalization policy which is based on the asset category. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. Interest incurred during the construction of capital assets utilized by the enterprise funds is also capitalized.

All reported capital assets except land, land improvements, the collection of art, and construction in progress are depreciated. Improvements are depreciated over the useful lives of the related capital assets.

Depreciation is computed using the straight-line method over the following useful lives:

Description	Governmental Activities Estimated Lives	Business-Type Activities Estimated Lives
Buildings	20 – 50 years	
Furniture and equipment	5 – 15 years	7 years
Transportation equipment	5 – 12 years	5 – 8 years

i) Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employee's rights to receive compensation are attributable to services already rendered and it is probable that the District will compensate the employees for the benefits through paid time off or some other means. The District records a liability for accumulated unused vacation time when earned for all eligible employees. The entire compensated absence liability is reported on the government-wide financial statements.

All eligible employees of the District receive a maximum of ten days of sick leave each year. In accordance with the provisions of the Governmental Accounting Standards Board, no liability is recorded for non-vesting accumulating rights to receive sick pay benefits. The District also has implemented a sick leave bank for full-time eligible employees for catastrophic accident and illness.

j) Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position reports a separate section for deferred outflows of resources. This separate financial statement element, Deferred Outflows of Resources, represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. The District has one item that meets this criterion, contributions made to the pension plan in the 2019 fiscal year. In addition to liabilities, the statement of financial position will report a separate section for deferred inflows of resources. This separate financial statement element, Deferred Inflows of Resources, represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The District has two items that meet the criterion for this category - property taxes receivable in accordance with GASB Statement No. 33 and deferred inflows relating to pension liability in accordance with GASB Statement 68.

k) Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements and all payables, accrued liabilities and long-term obligation payables from enterprise funds are reported on the enterprise fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. Capital leases are recognized as a liability on the governmental fund financial statements when due.

l) Net Position

Net position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

**SWEETWATER COUNTY SCHOOL DISTRICT NO. 1**  
**NOTES TO FINANCIAL STATEMENTS (CONTINUED)**

1. The Reporting Entity, Nature of Operations, Basis of Presentation, Description of Funds, and Significant Accounting Policies (Continued)

m) Fund Balance

The District uses the fund balance definitions in GASB Codification Section 1800 for financial reporting for all governmental fund types. The classifications are intended to depict the nature of net resources that are reported in a governmental fund. An individual fund could include any combination of these classifications.

Nonspendable Fund Balance

These fund balances are the net balance of assets and liabilities that are either legally or contractually required to be maintained intact or are “not in spendable” form. This includes all legally or contractually restricted balances as well as prepaid expenses, inventory, and other items considered “not in spendable” form.

Restricted Fund Balance

These fund balances are the net balance of assets and liabilities that have provisions that are externally imposed. These are grants or other funds that are restricted by the debt covenants, grantor, contributor, or by laws or regulations of external governments. In general, these include legally enforceable requirements that the resources be used only for the specific purposes stipulated in the grant, debt covenant, or by law.

Committed Fund Balance

The Board of Trustees is the District’s highest level of decision-making authority. The formal action required to establish, modify, or rescind a fund balance commitment is a resolution approved by the Board at the District’s Board meeting. The resolution must either be approved or rescinded, as applicable, prior to the last day of the fiscal year for which the commitment is made. The amount subject to the constraint may be determined in the subsequent period.

Assigned Fund Balance

Assigned fund balances are the net amounts of assets and liabilities constrained by the intent of the Board of Trustees. The intent will not be done by formal action of the Board of Trustees, but will be part of items such as the adopted budget or in a statement by the Board or by an official or body to which the Board delegates the authority. The District’s fund balance policy establishes that the Superintendent and the Director of Business and Finance or his designee are the officials permitted to assign amounts to a specific purpose.

**SWEETWATER COUNTY SCHOOL DISTRICT NO. 1  
NOTES TO FINANCIAL STATEMENTS (CONTINUED)**

1. The Reporting Entity, Nature of Operations, Basis of Presentation, Description of Funds, and Significant Accounting Policies (Continued)

Unassigned Fund Balance

Typically, unassigned fund balances will be limited to the General Fund and by definition they are the residual balance for fund balance.

When an expenditure is incurred for purposes for which a combination of fund balances is available, the District will start with the most restricted category and spend those funds first before moving down to the next category with available funds.

n) Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

o) Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Wyoming Retirement Systems' (the System) pension plan, and additions to/deductions from the System fiduciary net position have been determined on the same basis as they are reported by the System. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

2. Budgetary Basis of Accounting

While the District is reporting financial position, results of operations, and changes in fund balance/retained earnings on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts and disbursements. The statements of revenues, expenditures, and changes in fund balance – budget (non-GAAP) and actual presented for the General Fund and Grant Programs Fund are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are that:

- a) Proceeds from capital leases and the associated capital outlay expenditure are not recorded on the cash basis (budget), but are recorded on the GAAP basis.

**SWEETWATER COUNTY SCHOOL DISTRICT NO. 1  
NOTES TO FINANCIAL STATEMENTS (CONTINUED)**

2. Budgetary Basis of Accounting (Continued)

- b) Revenues are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP).
- c) Expenditures/expenses are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).

3. Cash and Investments

Deposits and investments at June 30, 2019 consist of and appear in the financial statements as summarized below:

Cash and investments, statement of net position	\$ 71,967,398
Cash and investments, statement of fiduciary net position	880,972
	<u>\$ 72,848,370</u>
Cash in bank	\$ 9,374,668
WGIF	63,473,702
	<u>\$ 72,848,370</u>

Authorized deposits are controlled by state statute and include but are not limited to deposits in banks, certificates of deposit, money market accounts, and treasury notes. Statutes also authorize the District to participate in the Wyoming Government Investment Fund (WGIF), which was established pursuant to the Wyoming Statutory Trust Act. Funds residing in these pools may have a maturity of less than three months. An annual report may be obtained for this entity at: 401 West 19<sup>th</sup> Street, Suite 300, Cheyenne, WY 82001.

The carrying amount of bank deposits for the District at June 30, 2019 is \$9,374,668 and the bank balance is \$11,607,013. The differences between the carrying amount and the bank balances are due to outstanding checks and deposits not yet processed by the bank. Of the book balance, \$1,242,946 is covered by federal depository insurance and \$8,131,722 was collateralized by securities held by the financial institutions in the District's name and accordingly considered credit risk category 1.

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The WGIF fund continues to hold an AAAM rating by Standard & Poor's (S&P) indicating that "safety is excellent," and the pool has "superior capacity to maintain principal value and limit exposure to loss." The rate of return depends on the underlying portfolio. The District attempts to match its investment maturities to expected cash flow needs. As of June 30, 2019, the 7-day yield of WGIF was 2.28%.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)**

3. Cash and Cash Equivalents (Continued)

Investments Held by the Foundation

The Foundation accounts for its investments at fair value. Unrealized gains and losses are included in the change in net position. The Foundation categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The Foundation's investments are classified and disclosed based on quoted prices available in active markets (Level 1 inputs).

As of June 30, 2019, the Foundation had the following investments:

<u>Investment Types</u>	<u>Fair Value</u>	<u>Interest Rate</u>	<u>Investment Maturities 1 year or less</u>	<u>Moody's S&amp;P Rating</u>
Mutual Funds	\$ 640,654	n/a	\$ 640,654	n/a

The Foundation is allowed to invest in mutual funds. The Foundation is not subject to the state statutes which restrict investments to governmental securities. The mutual funds noted above are not rated by Moody's or Standard and Poor's.

Total approved contracts as of June 30, 2019 are \$5.3 million with \$4.7 million completed and \$.6 million still committed. The majority of the commitment will be financed by additional funds from the Wyoming Schools Facilities Department and transfers from the Recreation Board.

5. Defined Benefit Pension Plans

a) Plan Descriptions

Substantially all qualified employees of the State, Public School Systems, and other political subdivisions of Wyoming which have elected to participate are eligible for the Public Employee Pension Plan, a cost-sharing, multiple employer defined benefit pension plan administered by the Wyoming Retirement System (WRS). Benefit provisions under the Plan are established by State statute. WRS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information can be found on the WRS website. That report may be obtained by writing to Wyoming Retirement System, Herschler Building, Cheyenne, WY 82002 or by calling (307) 777-7691.

Employees terminating prior to normal retirement can elect to withdraw all employee contributions plus accumulated interest through the date of termination or, if they are vested, they may elect to remain in the Plan and be eligible for retirement benefits at age 50 (Tier 1 employees) and 60 (Tier 2 employees).

**SWEETWATER COUNTY SCHOOL DISTRICT NO. 1  
NOTES TO FINANCIAL STATEMENTS (CONTINUED)**

5. Defined Benefit Pension Plans (Continued)

b) Benefits Provided

WRS Public Employees Plan provides retirement, disability and death benefits according to predetermined formulas and allows retirees to select one of seven optional methods for receiving benefits, including two joint and survivor forms of benefits – 100% joint and survivor annuity, and a 50% joint and survivor annuity. The benefit amounts under these options are determined on an actuarially equivalent basis. Any cost of living adjustments (COLA) provided to retirees must be granted by the State Legislature or elected as a self-funded COLA benefit option by the participant. In addition, a cost of living adjustment will not be approved by the legislature unless the Plan is 100% funded after the COLA is awarded.

Benefits are determined based on two tiers:

Tier 1 – members who joined WRS by August 31, 2012. The Plan allows for normal retirement after four years of service and attainment of age 60. Early retirement is allowed provided the employee has completed four years of service and attained age 50 or 25 years of service. Benefits are calculated as 2.125% of employee's highest average salary for each year of credited service for the first 15 years of service plus 2.25% of the highest average salary for any years of service credit exceeding 15 years. This amount is reduced by 5% per year the employee is under age 60.

Tier 2 – members who joined WRS after August 31, 2012. The Plan allows for normal retirement after four years of service and attainment of age 65. Early retirement is allowed provided the employee has completed four years of service and attained age 55 or 25 years of service. Benefits are calculated as 2% of employee's highest average salary for each year of credited service. This amount is reduced by 5% per year the employee is under age 65.

All employees may also retire upon normal retirement on the basis of the sum of the employee's age and service is at least 85.

c) Contributions

The Plan statutorily required 16.62% of the participant's salary to be contributed to the Plan. Contributions consist of 8.25% of the participant's salary as employee contributions and 8.37% as employer contributions. Beginning September 1, 2018, the Plan statutorily required 17.12% of the participant's salary to be contributed to the Plan. Contributions consist of 8.50% of the participant's salary as employee contributions and 8.62% as employer contributions. The amount of contributions designated as employee contributions represent the portion of total contributions that a participant retains ownership of and can elect to receive as a refund upon termination of employment. Employers may elect to cover all or a portion of the employee's contribution at their discretion. The District has elected to fund 14.565% through August 31, 2018 and then 15.065% with employees' contributing 2.055%.

**SWEETWATER COUNTY SCHOOL DISTRICT NO. 1**  
**NOTES TO FINANCIAL STATEMENTS (CONTINUED)**

5. Defined Benefit Pension Plans (Continued)

The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District's contribution to the Wyoming Retirement System for the years ending June 30, 2019, 2018, and 2017 were approximately \$7,032,493, \$6,966,685, and 7,896,477 equal to the required contributions for each year.

Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions

As of June 30, 2019, the District reported a net pension liability of \$72,088,085 as its proportionate share of the net pension liability of the Plan.

The District's net pension liability for the Plan is measured as the proportionate share of the net pension liability. The net pension liability of the Plan is measured as of December 31, 2018, and the total pension liability for the Plan used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2019 using generally accepted actuarial procedures. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. The District's proportionate share of the net pension liability for the Plan as of December 31, 2018 was 2.3671987%, which was a decrease of .1351881% from its 2.5023868% proportionate share at December 31, 2017.

For the year ended December 31, 2018, the District recognized pension expense of \$1,159,575. At June 30, 2019, the District portion of the reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension contributions subsequent to measurement date	\$ 3,576,184	\$ -
Change in Employer's proportion and differences between the employer's contribution and the employer's proportionate share of contributions		2,321,065
Net difference between projected and actual earnings on plan investments	10,093,501	-
	<u>\$ 13,669,685</u>	<u>\$ 2,321,065</u>

The \$3,576,184 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

d) Actuarial Assumptions

Total pension liabilities in the January 1, 2019 actuarial valuations were determined using the following actuarial assumptions:

Valuation Date	January 1, 2019
Actuarial Cost Method	Individual Entry - Age Normal
Amortization Method	Level Percent Open
Actuarial Assumptions:	
Discount Rate	7.00%
Inflation	2.25%
Projected Salary Increase	2.50%
Investment Rate of Return	7.00%
Mortality	RP-2014 Combined Morality Table

e) Discount Rate

The discount rate used to measure the total pension liability was 7.00% for the Plan. The projection of cash flows used to determine the discount rate assumed contributions from participating employers will be made on the actuarially determined rates based on the Board's funding policy, which establishes the contractually required rates under Wyoming State Statutes. Based on those assumptions, the WRS fiduciary net position was projected to be available to make all the projected future benefit payments of current Plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payment to determine the total pension liability.

DISCOUNT RATE			
Single Discount Rate	Long-Term Expected Rate of Return	Long-Term Municipal Bond Rate*	Last year ending December 31 in the 2018 to 2117 projection period for which projected benefit payments are fully funded

\*Source: "State & local bonds" rate from Federal Reserve statistical release (H.15) as of December 31, 2018. The statistical release describes the rate as "Bond Buyer Index, general obligation, 20 years to maturity, mixed quality."

In determining the long-term expected rate of return, the Plan assumes a long-term investment rate of return of 7.00%. The long-term rate of return is determined through a 4.75% net real rate of return and an inflation rate of 2.25%. The following table represents a comparison of an annual money-weighted rate of return, net of investments expenses compared to the expected real rate of return.

Annual money-weighted rate of return, net of expenses for the fiscal year ended December 31, 2018	Expected Rate of Return net investment expenses
7.00%	4.75%

The table below reflects the assumed asset allocation of the Plan's portfolio, the long-term expected rate of return for each asset class and the expected rate of return is presented arithmetic and geometric. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These rates of return are net of administrative expenses.

Asset Class	Target Allocation	30 Year Arithmetic Expected Real Return	30 Year Geometric Expected Real Return
Cash	0.00%	0.30%	0.30%

f) Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability for the Plan, calculated using the discount rate for each Plan, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	1% Decrease 6.00%	Current Discount 7.00%	1% Increase 8.00%
Discount Proportion Share of the Net Pension Liability	\$ 99,976,459	\$ 72,088,085	\$ 48,815,500

g) Pension Plan Fiduciary Net Position

Detailed information about each pension plan's fiduciary net position is available in the separately issued WRS financial reports.

Payable to the Pension Plan

At June 30, 2019, the District had no outstanding payable of contributions to the pension plan required for the year ended June 30, 2019.

6. Deferred Compensation Plan

The District offers its employees a deferred compensation plan (Plan) that is structured in accordance with the provisions of Internal Revenue Code Section 457. The Plan, available to all District employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency.

As of November 24, 1998, in order to comply with the Small Business Job Protection Act of 1996, the Plan, under the control of Wyoming Deferred Compensation, Inc., was amended. The Plan assets and the income attributable to the Plan assets are now set aside in a trust arrangement for the exclusive benefit of the participant or the participant's beneficiary.

Capital leases – The District leases certain copier and transportation equipment under capital leases, of which some provide for the purchase of leased equipment for nominal amounts at the end of the lease term. The interest rates on the leases are 1.36% to 3.70% with an average for leases at June 30, 2019 of approximately 1.45%. Interest expense of \$21,675 as a result of capital lease obligations is included in the government-wide statement of activities.

The following is a schedule by years of minimum future lease payments under capital leases together with the present value of the net minimum lease payments as of June 30, 2019:

<u>Payable during the year ended June 30,</u>	Governmental activities
2020	\$ 573,531
2021	192,369

General information about the OPEB Plan

Plan description: Retired employees have access to group medical, dental, and vision coverage through the District's group plans. The District pays the premium for those that retired under the Early Retiree Incentive Program. The plan provides that the employee (and dependents) shall be allowed to remain under the District's health plan (including Dental and Vision), until the employee dies or attains 65 years of age, whichever occurs first. Surviving spouses are also eligible until they die or attain 65 years of age, whichever occurs first. The retiree pays 15% of the premium for the coverage. The plan is considered an "Other Post – Employment Benefit" (OPEB). The plan is administered through a non-qualifying trust per paragraph 4, item (b), of the Governmental Accounting Standards Board (GASB) Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*.

Total OPEB Liability

The District's total OPEB liability of \$38,649,925 was measured as of June 30, 2019, and was determined by an actuarial valuation as of that date.

Actuarial assumptions and other inputs. The total OPEB liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods including in the measurements, unless otherwise specified:

To select assumptions to be used in the valuation, a number of factors are considered. These factors include the level of benefits provided by the plan, the ages at which these benefits become available, recent experience of the group, experience of employees in the Wyoming Retirement System (WRS), the insights and observations of the administration, and the actuary's best estimate of the likelihood of certain events, given experience with other plans under similar circumstances.

It was not possible to develop reasonable pre-retirement decrement assumptions for withdrawal, mortality and disability rates based on the experience of the District due to its size. To obtain more reliable experience, other sources were used. Mortality, withdrawal, and disability assumptions are from the Wyoming Retirement System January 1, 2019 actuarial valuation. Retirement assumptions are based on District experience.

The discount assumption reflects the time value of money as of the valuation date. This assumption is to be based on the estimated long-term investment yield on the investments that are to be used to finance the payment of benefits. For purposes of determining the net periodic cost for the valuation, a discount assumption of 3.5% was used. This rate is based on the yield for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher as of the measurement date.

7. Long-Term Obligations (Continued)

Medical costs have been increasing at a rate higher than general inflation for a long time. This valuation assumes that medical costs will continue to increase at a rate that is higher than the general inflation rate. The medical cost increase represents the combination of the inflation in the price of health care services, changes in utilization (other than age-related changes), technological advances in medical care, and changes in the health status of plan participants. The trend rates for this valuation are based on medical industry expectations of future increases adjusted to reflect historical premium rate changes within the District's health insurance plan. For purposes of this valuation, average medical claims costs for future years are assumed to increase at the rate set forth in the following schedule.

Year	Rate	Year	Rate
2019	5.70%	2024, 2025	6.25%
2020,2021	7.25%	2026, 2027	5.75%

8. Self-Funded Health Insurance

Sweetwater County School District No. 1 does not purchase commercial insurance for employee health and accident risk of loss. Instead, UMR has been retained to service claims for the District's employees. Claims expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. The liability is the District's and UMR's best estimate based on available information. The insurance companies maintain a stop-loss insurance policy to pay annual losses exceeding \$200,000 specific per person and \$12,690,750 aggregate for the plan year to further protect the District.

See the statement of fund net position and statement of revenues, expenses, and changes in fund net position for further details on the activities of the insurance plan.

9. Fund Equity and Net Position

The nonspendable fund balance account is summarized below:

Inventories and prepaid expenses – represents a portion of fund balance segregated for future use and is therefore not available for future appropriation or expenditure for general use.

**SWEETWATER COUNTY SCHOOL DISTRICT NO. 1**  
**NOTES TO FINANCIAL STATEMENTS (CONTINUED)**

9. Fund Equity and Net Position (Continued)

Specific restrictions of fund balance and net position are summarized below.

Grant Programs – grant proceeds for which the District has met the eligibility requirements and thus recorded the revenue, but has yet to spend the funds on the specific program.

Major Maintenance – funds segregated to be used for capital outlay expenditures which meet the Wyoming Department of Education’s definition of major maintenance.

Capital Projects – funds segregated for future capital project needs.

Recreation District – Funds segregated for future recreation projects.

Impact Aid – Section 8003 (b) payments to be used by the District in accordance with Federal requirements. Allowable expenditures include salaries, textbooks, computers, instructional materials, and special programs.

Specific assignments of fund balance accounts are summarized below:

Capital construction/projects – to segregate the portion of fund balance/net position that is not available for general expenditure or expense but rather assigned for future property, plant, and equipment major repair or replacement.

Headstart child care – to segregate a portion of the fund balance assigned to cover future child care costs in the Headstart Fund.

Projected budget deficit – to segregate a portion of the fund balance which has been reserved by the Board to cover the expected fiscal 2019 budget shortfall.

Transportation Leases – to segregate a portion of fund balance which has been assigned to cover payments required on outstanding transportation capital leases.

Minimum Fund Balance – to segregate available fund balance which has been assigned by the Board through budget authority to establish an optimum minimum fund balance.

Future Expenditures – to segregate a portion of fund balance which has been assigned by the Board through budget authority to cover future operating expenditures in the General Fund.

The District has no committed fund balances as of June 30, 2019.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)**

9. Fund Equity and Net Position (Continued)

As of June 30, 2019, Sweetwater One Public School Foundation, a component unit of the District, had \$109,491 net assets without donor restrictions, Board designated, \$389,370 net assets with donor restrictions, restricted for program purposes, and \$160,785 net assets with donor restrictions, permanently restricted. The interest earned on the permanently restricted funds can be used for operations or program purposes, and the principal has to be held in perpetuity as part of the Foundation's endowment fund.

The Governmental and Business-Type Activities unrestricted net position is negative due to the effects of GASB 68 *Accounting and Reporting for Pensions*. The Activities include net pension liability and deferred outflows and inflows of resources which in total reduced the unrestricted net position of the Governmental Activities by \$60,304,492 and Business-Type Activities by \$434,973. Without this change, unrestricted net positions would have been positive balances of \$19,224,185 and \$318,213, respectively.

10. Risk Management

The District is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; injuries to employees; and natural disasters. The District currently manages said risk through the purchase of commercial insurance and participation in the Wyoming Workers' Compensation Program.

Policy limits include approximately \$256 million real and personal property; \$2,000,000 general liability aggregate; \$3,000,000 excess liability aggregate; \$2,000,000 abuse or molestation liability; \$2,000,000 educators' management liability aggregate; \$2,000,000 professional liability aggregate; \$50,000 cyber liability and crime coverage; \$2,000,000 employee benefits liability aggregate; and miscellaneous other coverages.

All risk management activities are accounted for in the General Fund. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three years. The District also participates in Workers' Compensation and Unemployment Compensation programs, both administered by the Wyoming Department of Workforce Services. Amounts paid by the District to the State for Worker's Compensation during fiscal year 2019 were \$553,154. The Unemployment program requires the District to pay the cost of actual claims incurred. Changes in the balances of unemployment claim liabilities during fiscal year 2019 are as follows:

Unpaid claims, beginning of fiscal year	\$ 19,045
Incurred claims	39,557
Claim payments	(54,514)
Unpaid claims, end of fiscal year	<u>\$ 4,088</u>

**SWEETWATER COUNTY SCHOOL DISTRICT NO. 1**  
**NOTES TO FINANCIAL STATEMENTS (CONTINUED)**

11. Commitments and Contingencies

The District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received in these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund, or other applicable funds. However, in the opinion of management any such disallowed claims would not have a material adverse effect on the overall financial position of the District as of June 30, 2019.

Various claims are currently pending against the District. The District denies liability in all matters described below, and has tendered these matters for defense and indemnification to its insurance carrier. Possible outcomes of these claims cannot be determined at this time.

- A Matter began as a Claim involving an incident that occurred during a wood shop class on December 12, 2017. A settlement demand letter was received and submitted to the District's insurance carrier on April 29, 2019. The insurance carrier sent a counteroffer September 24, 2019 and received a responding counteroffer on October 8, 2019. The District shall defend this action vigorously. At this time, a complete assessment of the likelihood of an unfavorable outcome and an estimate of the range of possible loss is not possible.
- A Matter began with a Claim for Special and General Damages in Compliance with the Wyoming Governmental Claims Act dated January 27, 2017. This claim involves a student falling on an exposed drain pipe while unsupervised during a lunch recess suffering a traumatic brain injury. The attorney acting on behalf of the District's insurance company has submitted the Answer to Compliant and Demand for Trial by Jury for filing with the District Court on November 21, 2019. The District shall defend this action vigorously. At this time, a complete assessment of the likelihood of an unfavorable outcome and an estimate of a range of potential loss is not possible.
- A Matter began with a Notice of Claim dated February 22, 2017 involving an accident between a vehicle and a school bus. The attorney for the Claimant sent a Settlement Demand letter to the attorney on behalf of the District on July 17, 2019. The insurance company has not responded at this time. The District shall defend this action vigorously. At this time, a complete assessment of the likelihood of an unfavorable outcome and an estimate of a range of potential loss is not possible.

12. Internal Balances and Activity

The composition of internal balances, which have been eliminated for the government-wide basic financial statements, as of June 30, 2019 is as follows:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
General Fund	Grant Programs Fund	\$ 658,157
General Fund	Headstart Fund	1,400
General Fund	District Capital Projects Fund	119,722
General Fund	Agency Fund	9,820
General Fund	Summer Programs Fund	15,266
General Fund	Food Service Fund	4,772
General Fund	Headstart Nutrition Fund	4,932
SFD Capital Projects Fund	Grant Programs Fund	2
District Capital Projects Fund	Grant Programs Fund	17,030

These balances resulted from the time lag between the dates that (1) inter-fund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting systems, and (3) payments between funds are made. All amounts will be repaid within the next fiscal year.

Transfers for the year are as follows:

<u>Transfer To</u> <u>Receiving Fund</u>	<u>Transfer From</u> <u>Paying Fund</u>	<u>Amount</u>
SFD Capital Projects Fund	District Capital Projects Fund	\$ 6,320
General Fund	Recreation District	17,006
SFD Capital Projects Fund	Recreation District	47,707
District Capital Projects Fund	General Fund	5,010,055
Internal Service Fund	General Fund	3,750,000
Food Service Fund	General Fund	385,429
Grant Programs Fund	General Fund	17,548
Headstart Nutrition Fund	General Fund	2,219
Headstart Fund	General Fund	28,105

13. Related Party Transactions

Sweetwater One Public School Foundation is a component unit of the District as described in Note 1. During the year, the District paid insurance, professional services, and miscellaneous expenses for the Sweetwater One Public School Foundation in the amount of \$4,219 during the fiscal year ended 2019.

**SWEETWATER COUNT SCHEDULE DISTRICT NO. 1  
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION**

1. Budgetary Basis of Accounting

While the District is reporting financial position, results of operations, and changes in fund balance/retained earnings on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts and disbursements. The statements of revenues, expenditures, and changes in fund balance – budget (non-GAAP) and actual presented for the General Fund and Grant Programs Fund are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget.

The major differences between the budget basis and GAAP basis are that:

- a) Revenues are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP).
- b) Expenditures/expenses are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).

The following tables summarize the General Fund budget at the level required by Wyoming Statute:

	Revised Budget	Actual (Non-GAAP) Budgetary Basis	Variance
Revenues	\$ 81,957,288	\$ 82,106,920	\$ 149,632
Expenditures			
Instruction	45,643,494	42,888,285	2,755,209
Instructional support	8,546,297	7,680,562	865,735
General support	23,281,866	22,144,226	1,137,640
Non-Instructional support	65,734	26,004	39,730
Operating transfers			
Transfers in	2,027,500	17,006	(2,010,494)
Transfers out	(9,692,785)	(9,198,263)	494,522

2. Pension Liability

*Changes of assumptions* – The amounts reported for January 1, 2018 per the Wyoming Retirement System actuarial valuation had a number of changes in assumptions as follows: reduce current inflation assumption of 3.25% to 2.25%; increase real rate of return assumption from 4.50% to 4.75%; decrease in nominal rate of return from 7.75% to 7.00%; reduce the wage inflation assumption from 4.25% to 2.50%; reduce the payroll growth assumption from 4.25% to 2.50%; reduce the administrative expenses assumption from 6.50% per year to 2.50%; and update the post-retirement mortality, disable lives mortality, active life mortality to RP2014 table, projected generally using MP 2017. There were no changes in assumptions for January 1, 2019 reporting purposes.

**SWEETWATER COUNTY SCHOOL DISTRICT NO. 1**  
**NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**

Note 1. Basis of Presentation

The accompanying schedule of expenditures of federal awards includes the federal award activity of Sweetwater County School District No. 1 under programs of the federal government for the year ended June 30, 2019. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and the Audit Requirements for Federal Awards* (Uniform Guidance). All federal financial awards received directly from federal agencies as well as federal financial awards passed through from other governmental agencies are included in the schedule. Of the federal expenditures presented in the schedule, the District provided no federal awards to subrecipients. Because the schedule presents only a selected portion of the operations of Sweetwater County School District No. 1, it is not intended to and does not present the financial position, changes in net assets, or cash flows of Sweetwater County School District No. 1.

Note 2. Summary of Significant Accounting Policies

Expenditures reported on the schedule are reported on the same basis of accounting used in preparation of the fund financial statements from which the information was derived as described in Note 1 to the District's basic financial statements. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

Categorical block grants are recorded at the time of receipt or earlier if the susceptible-to-accrual criteria are met. Cost-reimbursement grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met.

Note 3. Commodities

Nonmonetary assistance, such as food received from the United States Department of Agriculture, is reported as revenue, at fair market value, on the date received by the District.

Note 4. Indirect Cost Rates

Sweetwater County School District No. 1 does not utilize the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

Note 5. Subrecipients

No funds have been passed on to subrecipients.

Note 6. School Assistance in Federally Affected Areas – Impact Aid CFDA Number 84.041

The District receives funding through the School Assistance in Federally Affected Areas. No expenditures were incurred during the fiscal year and the funds are reflected as restricted at year end.

**INDEPENDENT REPORT ON INTERNAL CONTROL OVER  
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN  
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

To the Board of Trustees  
Sweetwater County School District No. 1  
Rock Springs, Wyoming

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Sweetwater County School District No. 1 as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 9, 2019.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Sweetwater County School District No. 1's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Sweetwater County School District No. 1's internal control. Accordingly, we do not express an opinion on the effectiveness of Sweetwater County School District No. 1's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Sweetwater County School District No. 1's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH  
MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE  
REQUIRED BY THE UNIFORM GUIDANCE**

To the Board of Trustees  
Sweetwater County School District No. 1  
Rock Springs, Wyoming

**Report on Compliance for Each Major Federal Program**

We have audited Sweetwater County School District No. 1's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Sweetwater County School District No. 1's major federal programs for the year ended June 30, 2019. Sweetwater County School District No. 1's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

**Management's Responsibility**

Management is responsible for compliance with the requirements of federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

**Auditors' Responsibility**

Our responsibility is to express an opinion on compliance for each of Sweetwater County School District No. 1's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Sweetwater County School District No. 1's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Sweetwater County School District No. 1's compliance.

## **Opinion on Each Major Federal Program**

In our opinion, Sweetwater County School District No. 1 complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

## **Report on Internal Control over Compliance**

Management of Sweetwater County School District No. 1 is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Sweetwater County School District No. 1's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Sweetwater County School District No. 1's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control that we consider to be material weaknesses or significant deficiencies. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
