

What is Direct Deposit?

Direct Deposit happens when your claim is processed, and the money is sent directly to your checking or savings account, rather than issuing you a paper check.

Direct Deposit has been available for more than 40 years and is widely used. Over 50% of the U.S. population use direct deposit and 97% of people using direct deposit say they are satisfied.

What are the Benefits of Direct Deposit?

- EASY—Once you have signed up for direct deposit, you don't have to go to the bank to deposit checks. Your money is automatically deposited into your account on time, every time. What could be easier?
- SAFE—Direct Deposit uses the same levels of security that companies and the government use to transfer funds to each other — your money is safer with direct deposit. Direct deposits don't get lost. Direct deposit is confidential. Direct deposit reduces the chance of fraud or identity theft compared to paper checks.
- SMART—Direct Deposit gives you access to your money earlier than with check deposits.
