

SUMMER MATH FUN

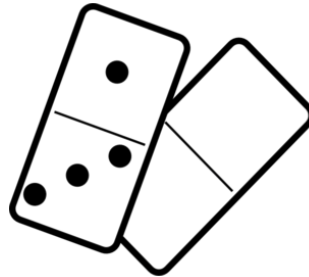

Math is EVERYWHERE...look around you this summer! It is crucial for students to keep exploring numbers and patterns, and thinking about mathematics. Below are some resources to support and motivate your child. Students should choose a Variety of games and activities to enjoy throughout the summer. Your child will be better prepared in September to take on the challenges in math that a new school year brings.

Card Games

Games to Play with Dominoes

Dice Games

Cooking with Math

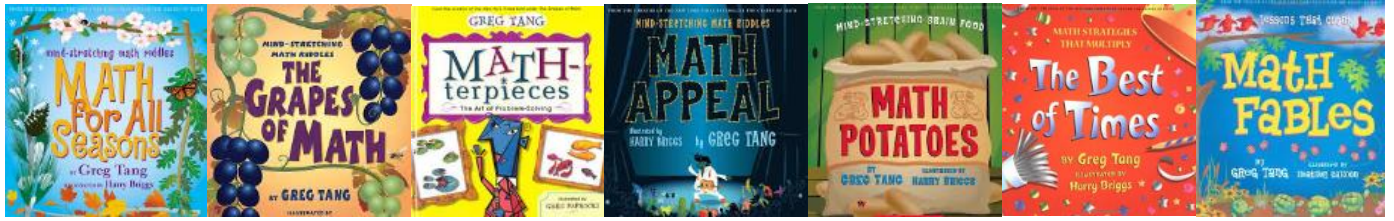

- Measure all of the ingredients (especially the liquids in the glass measuring cups).
- Double the recipe or cut it in half – fractions are everywhere!

- Your subscription for math will be active all summer...practice your math skills.
- Join in on the fun and challenge yourself to keep learning even when school's out!
