

Every child. One voice.®

SCIENCE FUN DAY is here!

Join us for an exciting morning of fun and hands on activities! Learn how to make an electromagnetic train, see everyday objects up close using a microscope, observe how sound waves rock or look for constellation in the Star lab! And don't miss the STEM Live Presentation by the New York Hall of Science in the auditorium.

Open to K to 8th grade students

Saturday, March 24, 2018

9:00 to 12:15 PM

W.E. Cottle School.

To register and/or to volunteer, visit <https://cottle.science.blog>.

Registration is required for each child. Please register by March 14.

Spaces are limited in some classes.

For questions, please email Alona Trinidad and Natasha Zloccowick cottlesciencefunday@gmail.com
