

Have a Junior?

JUMP START THEIR COLLEGE APPLICATION

July 24th – August 17th

Two sessions offered with limited space available.

- Application Jump Start is an opportunity for rising seniors to complete a significant portion of the college application process during the summer prior to senior year.
- Rather than feeling stressed out and overwhelmed, students can begin senior year confident, organized, and ready to meet the challenge of planning for life after high school.
- During the four week program, students will work with an experienced counselor to refine their college lists, finalize a testing plan, complete the Common Application, write the Common Application essay, create a resume, plan for recommendations, and organize school forms.
- In addition, students will create a “to do list” and timeline for fall tasks including supplemental essays and applications to schools which do not accept the Common Application.
