Nyack Union Free School District  
Reserves Plan

OVERVIEW

The establishment and funding of reserves is an important consideration in the maintenance of a sound financial plan for any school district. Strict adherence to state laws is required to ensure reserves are both legal and appropriate. Adequately funded reserves are vital to the long-term health and stability of the school district.

The Nyack Union Free School District believes that the judicious use of reserves reduces long-term borrowing costs, smooths large fluctuations in tax rates, and minimizes the possibility of mid-year budget cuts which could have a direct impact on students. We believe it is in the best interest of students, staff, and taxpayers to prudently establish and use reserves to weather the financial storms and uncertainties that can occur throughout a school year.

Since New York State law mandates that expenditures can be no greater than the budget approved by the voters in May each year, Nyack Union Free School District budgets conservatively to ensure that unanticipated expenditures do not result in mid-year cuts or expenditure freezes that could have an immediate impact on students and/or staff. This practice has allowed the District to weather revenue reductions, state aid holdbacks, increases in expenditures such as Special Education, and other negative adjustments without impacting instructional programs. However, conservative budgeting can also result in budget surpluses at year-end. The Board of Education reviews budget surpluses via the annual Fund Balance Report and determines the best use of these surpluses including transfers to voter or Board approved reserves, or to a reduction in the ensuing year tax levy.

Legally established reserves can provide many benefits to the school district and to its taxpayers. However, these reserves can also cause confusion when not utilized and/or their purpose is not clearly understood by the community.

RESERVES

The Board of Education is responsible for appropriately managing the financial affairs of the District. Reserves may be established by the Board in accordance with applicable laws. Money set aside in reserves must be used in compliance with statutory provisions which determine how reserves are established and how they may be funded, expended, and/or discontinued. Generally, school districts are not limited as to how much money can be held in reserves. However, reserve balances must be reasonable.

Funding reserves at greater than reasonable levels contributes to real property tax levies that are higher than necessary because the excessive reserve balances are not being used to fund operations. The Board is responsible for developing a formal plan for the use
of its reserves, including anticipated use and need of reserve funds and how and when disbursements should be made. By maintaining excessive and/or unnecessary reserves, the Board and District officials may miss opportunities to lower the property tax burden and/or funds from being used to meet District needs.
