WHICH ARE YOU?

VIEWBOOK 2020
The State University of New York
SUNY of New York
fers a full range of academic programs.
Learning extends beyond the classroom.
High quality and low cost make a SUNY education a smart investment.
EOP supports SUNY’s commitment to access.
SUNY students come from all ends of the earth and all walks of life. They’re passionate about the art of discovery, as well as the science of invention. They are global citizens committed to civic responsibility. They’re intellectually curious, thriving on connections with faculty and peers. And, they share a common goal: an education that opens doors.
Which SUNY Are You?
Our students tap into a network of academic resources to pursue their ambitions, develop strengths, and take hold of opportunities that SUNY makes available every day.

Breadth
SUNY’s 64 campuses offer a full range of academic programs and degrees. Majors span from programs in conventional career fields—such as business, engineering, and medicine—to programs focused on future needs in areas like nanoscale science, sustainability studies and green building technology.

Undecided? Many students are not defined by a single academic interest; they add majors or minors to their declared area of study or change their choice altogether. Undeclared is a popular major and at most campuses it is “ok” to be unsure. Our faculty and staff will help you explore and find the major that is right for you.

Depth
Exciting options are available to you through SUNY honors programs. Offered by 48 campuses, these programs may provide opportunities to customize your academics, participate in cross-disciplinary study, research or independent study with faculty, receive merit scholarships and reside in honors housing.

Focus
SUNY offers a variety of degree planning tools. These tools include progress bars that can show where you are on your academic journey and visual indicators that can identify exactly which courses and requirements are needed to graduate. Focusing on degree requirements ensures that you will graduate on time and on budget.

4,300+
Undergraduate Majors
Pathways
More than 55,000 students transfer to and within SUNY each year. A seamless transfer process permits students to complete their degrees without duplicative efforts or unnecessary costs. We provide Transfer Paths and Guided Pathways to help you reach your education goals, regardless of where your journey begins and ends.

Transfer Guarantee
Acceptance to one of SUNY’s four-year campuses is guaranteed for New York students transferring directly from a SUNY campus with an AA or AS degree.

Online Courses
Earning your degree has never been more convenient. You will have access to the courses, professors and rich academics available online at any SUNY campus through Open SUNY. Campuses are continuously growing their online offerings and increasingly relying on summer and winter sessions to provide you with more ways to earn credits.

Join the more than 183,000 students who registered for a SUNY online course last year. Your degree is closer than you think.

23,000+
Course Sections Available Online
Go Beyond the Classroom

Research
Lakshmi served on a research team and uncovered evidence that the current treatment for Parkinson’s disease may not be as effective as it could be. She’s had a life-long interest in neuroscience and her research may someday lead to the development of a treatment that covers both motor and cognitive deficits in humans.

SUNY students and faculty are collaborating and making some of the most impactful discoveries of our time. From new treatments of disease to technological advances that ensure a sustainable future for our environment, SUNY is at the forefront of innovation and research.

1,500+
Patents held by SUNY Scientists

Study Abroad
Megan recently completed an internship at CoisCeim Dance Theatre, a top modern dance company in Ireland. “Dublin was incredible, it gave me access to a multitude of options within my career.”

SUNY offers more than 1,000 study abroad opportunities in more than 60 countries—in North and South America, Africa, Asia, Western and Eastern Europe, Australia, and New Zealand. Programs include international internships, service learning, and dual diploma options and range from a two-week intensive course to an entire semester or year abroad.

1,000
Study Abroad Programs
Mark completed an internship with an award-winning photographer. He was able to apply his studies in videography and photography to create compelling stories about current events.

Many SUNY programs include credit-bearing internships as part of their degree requirements. These programs integrate classroom instruction and on-the-job experience, ensuring that students are job ready. The tie between internship and employment is strong; the National Association of Colleges and Employers reports that the employment offer rate for interns was 59% in 2018.

Mark, Journalism and Broadcasting major
Class of 2018

Derek wanted to put his public health knowledge into practice, so he began volunteering in his college’s student-run, free medical clinic. Derek gained a better understanding of his field and his potential place in it.

SUNY has a strong history of service—beginning with its motto: To Learn, To Search, To Serve. Service-Learning is a teaching and learning strategy that integrates meaningful community service with instruction and reflection. SUNY students participate in formal service-learning programs, for which they may earn college credit, and volunteer locally, nationally and around the globe.

Derek, Public Health major
Class of 2020
Value

A college education is an investment in your future, and it’s hard to find a better educational value than SUNY. New York is actually one of the few states actively investing in higher education—starting with SUNY. And, as a result, many of our campuses have been named outstanding in a variety of categories including America’s Best Colleges and Most Selective Public Universities in the Nation.

When you compare SUNY’s tuition and fees to national averages, the value of a SUNY education is clear—our tuition and fees are among the lowest and most competitive in the nation. It’s just one more reason why SUNY is a smart investment and a sound economic decision.
Tuition rate for non-New York residents enrolled in a distance-learning program is $8,240 at most campuses. Tuition rate for non-New York residents enrolled at University at Buffalo and Stony Brook University is $24,540. Tuition rate for non-New York residents enrolled at University at Albany and Binghamton University is $23,710. Technology Colleges may charge a reduced non-New York resident tuition rate for associate degree programs.

Figure represents the average fee. Typically fees at the state-operated campuses range from $1,210 to $3,160.

Costs

Tuition and fees for baccalaureate degree programs at SUNY are lower than the national average for public universities. Total costs vary depending on the college, its location, full-time or part-time enrollment, program of study, delivery method of program, housing accommodations, personal expenses and other individual factors. State University colleges have higher tuition rates for students who are not New York State residents. Review residency requirements at suny.edu/smarttrack.

For students taking fewer than 12 semester hours (part-time study), New York State tuition is $286 per credit hour for baccalaureate and associate degree programs at state-operated campuses.

Financial Aid

Assistance is available at all State University campuses for students who are unable to pay all college costs. Financial aid programs include academic scholarships, need-based grants, student and parent loans and employment. Both the federal and state governments offer financial aid programs. Other sources of assistance may include scholarships from private organizations, foundations, fraternal groups and SUNY campus sources.

To apply for federal and state aid, you must first complete the Free Application for Federal Student Aid (FAFSA). The FAFSA can be completed online at fafsa.gov beginning October 1 of each year.

Smart Track

We believe it is important for students to clearly see the bottom line on college costs and remain committed to transparency regarding the financial commitments of attending our campuses. That’s why we created Smart Track, a collection of resources designed to help students and families understand college costs and develop a financial plan for the future.

suny.edu/smarttrack

Tuition-Free SUNY

The Excelsior Scholarship, in combination with other student financial aid programs, allows qualified New York State residents to attend a SUNY college tuition-free.

hesc.ny.gov/excelsior

Realize Your Potential

Educational Opportunity Program

For more than 50 years, The State University of New York’s Educational Opportunity Program (EOP) has made it possible for talented students who have limited financial resources and are academically underprepared to attend a SUNY college, earn a degree and achieve their life goals.

EOP provides eligible students with a pre-freshman summer experience, extensive academic support services, a nurturing environment and modest financial assistance.

Are You Eligible?

To be eligible for admission to EOP you must: (1) be a New York State resident for 12 months prior to enrollment; (2) require alternate admissions consideration; and (3) qualify as economically disadvantaged according to the guidelines indicated. In selecting students for the program, priority is given to applicants from historically disadvantaged backgrounds. Please note that eligibility does not guarantee admission.

Academic Eligibility

Academic eligibility will vary by campus. To view the EOP freshman profile for each campus, visit suny.edu/eop-academics.

Financial Eligibility

The table to the right lists financial guidelines for EOP eligibility. To be determined economically disadvantaged, your household income must not exceed the amount shown for its size, or your circumstances must conform to one of the following: (1) your family is primarily dependent on public assistance; (2) you are in foster care as established by the court; or (3) you are a ward of the state or county. Eligibility guidelines may be adjusted slightly each year.

* Men’s Team  • Women’s Team
Whether you know what you wish to study or are unsure about a major—there’s a SUNY for you! You’ll find thousands of undergraduate academic programs to prepare you for virtually any career imaginable.

The State University of New York offers three types of undergraduate degree and certificate programs.

Certificate Programs
Certificates are usually one year in length and lead directly to employment. They consist of a focused series of courses and are typically found at community colleges.

Associate Degree Programs
Associate degrees usually take two years of study and prepare students for employment or transfer (most often AA or AS degree options) to a bachelor’s degree program at a four-year campus. Associate degrees are offered at Community Colleges and some of the Technology Colleges.

Bachelor’s Degree Programs
Bachelor’s degrees usually take four years to complete as a full-time student. University Centers and Doctoral Degree Granting Institutions, University Colleges and the Technology Colleges offer bachelor’s degrees.
Which SUNY Are You?
Each SUNY campus is different, so let’s find the one that fits you best. Just use our undergraduate program search to match your preferences for majors.

You can search all of SUNY’s majors by keyword, subject area, or campus.

suny.edu/majors
At a Loss for Words?
SUNY offers more than 4,300 undergraduate majors. To find where your major is offered, enter a keyword, like one listed here, into our undergraduate program search.

TIP 2
Pre-medicine is not a major program of study. Medical schools routinely accept students with degrees in the natural sciences. This is not to say you must major in one of those areas. You should consult with your academic advisor to determine your best program of study.

- Health
- Health & Society
- Health and Fitness Promotion
- Heating/Refrigeration Systems
- Heavy Equipment Operations
- Hebrew
- Help Desk Support
- Histological Technician
- History
TIP 3
It's okay to be undecided.

TIP 4
Pre-law is not a major program of study. However, law schools routinely accept students with degrees in the humanities and social sciences.

TIP 5
You can print a list of all the majors you select or print a complete list and browse them all!

Choose From 4 Types of Colleges

14

University Centers and Doctoral Degree Granting Institutions
Offering every level of study and research.

Undergraduate teaching, research and advanced graduate and professional studies are top priorities for the University Centers and Doctoral Degree Granting Institutions. All campuses are research institutions and offer bachelor’s, master’s and doctoral degrees through a broad range of academic programs. Undergraduate research and honors programs provide students with opportunities to interact one-on-one with renowned national and international faculty.

Learn more on pages 16-20.

13

University Colleges
Nationally recognized undergraduate degree programs.

University Colleges are leaders in undergraduate instruction and provide bachelor’s and master’s degrees in liberal arts and sciences and professional disciplines. These campuses are mostly situated in small cities and towns. Student success is the primary focus as evidenced by faculty and staff interactions through honors programs, independent study opportunities, research and study abroad.

Learn more on pages 21-25.

7

Technology Colleges
A range of disciplines. Extraordinary possibilities.

Cutting-edge, hands-on training for in-demand careers is the focus of Technology Colleges. Over 300 academic programs are available through certificate programs, associate, bachelor’s and master’s degrees in technical, as well as traditional disciplines. Excellent campus support services, investments in the latest equipment, and state-of-the-art facilities complement the classroom instruction. Internships and on-the-job training provide students with hands-on experience that is sought after by employers.

Learn more on pages 26-28.

30

Community Colleges
A quality start for a successful future.

As leaders in higher education—in New York State and throughout the nation—community colleges respond to the educational needs of all people and their local, state and global communities. SUNY’s 30 Community Colleges provide access to higher education by offering certificate programs and associate degrees, as well as transfer and career services. Many of the Community Colleges also offer on-campus living. Students benefit from smaller classes, flexible course scheduling and affordable career exploration.

Learn more on pages 29-38.

1. SAT or ACT scores are required for students’ English and Math placements. They are not considered in admissions decisions.
2. Also required of sophomores.
3. In affiliation with neighboring college.
4. Portfolio required for all Visual Communications applicants.
5. Test scores must be submitted by testing agency.
6. Unless commuting from home.
7. Priority is given to new students if housing application received by May 1.
8. BFA and MUSB not eligible for Early Action.
9. Required for baccalaureate-level programs only.
10. Portfolio required for all Art and Design applicants.
11. Audition required for all Music degree majors.
12. Required for baccalaureate-level programs, some scholarship considerations, and those interested in intercollegiate athletics.
13. Required for baccalaureate-level programs and some associate-level programs.
14. Housing is required for students participating in the Regiment of Cadets.
University at Albany

The University at Albany knows greatness. A unique mix of academic excellence, internationally recognized research, and world-class faculty provides UAlbany students the tools to relentlessly pursue possibilities, create connections, and seize opportunities—locally and globally. For 175 years, UAlbany has fostered within its students a single-minded purpose: to author their own success, doing the things that matter. Unleash your greatness at the University at Albany.

Binghamton University

Why is Binghamton University a premier public university? It’s simple. Each of our students brings a particular vision and set of talents to create a unique perspective. Explorers and innovators, they’re eager for a challenge and willing to roll up their sleeves. Our high-achieving student body represents great diversity, from first-generation college-goers to international students. Binghamton graduates are ready to meet the challenges of tomorrow.

Take a tour at suny.edu/binghamton
University at Buffalo

UB is a leading research university and is one of just 62 institutions in the prestigious Association of American Universities (AAU). A top 50 public university consistently recognized for excellence and value, UB attracts extraordinary faculty and provides 100 percent of students with the opportunity to participate in research, internships, service or experiential learning. Its nationally recognized Finish in 4 program provides a clear path and the resources needed to earn a degree in four years.

21,612 Undergraduates • 13:1 Student to Faculty Ratio • Student Housing Available

Stony Brook University

At Stony Brook you’ll find a diverse community of students and faculty who will challenge and inspire you. Study marine science on the coast of the Atlantic. Take a unique approach to business, journalism and sustainability studies. Create the cutting edge in the College of Engineering and Applied Sciences. Indulge your love of art, literature and music or delve into physics, astronomy and biology. Stony Brook provides outstanding opportunities for research and experiential learning across all disciplines.

Take a tour at suny.edu/stonybrook

17,474 Undergraduates • 17:1 Student to Faculty Ratio • Student Housing Available
The SUNY College of Environmental Science and Forestry (ESF) was founded in 1911 to protect the environment. The ESF community shares a passion for protecting the health of our planet and a deep commitment to the rigorous application of science to improve the way humans interact with the built and natural world.

Take a tour at suny.edu/esf

1,825 Undergraduates • 13:1 Student to Faculty Ratio • Student Housing Available

SUNY Polytechnic Institute

SUNY Poly is New York’s globally recognized, high-tech educational ecosystem. SUNY Poly offers majors in business, computer science, engineering, health sciences, the arts and sciences, and nanoscale science and engineering across its two campuses in Utica and Albany.

Take a tour at suny.edu/sunypoly

2,256 Undergraduates • 14:1 Student to Faculty Ratio • Student Housing Available

NYS College of Ceramics at Alfred University

Since 1900, the NYS College of Ceramics has blended visual fine arts, design and the science of ceramics, glass and materials. It is a SUNY statutory college and home to the School of Art & Design and the Inamori School of Engineering, located at Alfred University.

Take a tour at suny.edu/ceramics

536 Undergraduates • 11:1 Student to Faculty Ratio • Student Housing Available
SUNY Downstate Medical Center
SUNY Downstate is the only academic medical center in Brooklyn. Its upper division transfer programs provide professional education for future health professionals who are college juniors, seniors, and graduate students. SUNY Downstate offers a diverse clinical and educational environment for all students.

Take a tour at suny.edu/downstate

211 Undergraduates • 9:1 Student to Faculty Ratio • Student Housing Available

Upstate Medical University
SUNY Upstate consists of four colleges that educate health care and research professionals. The Colleges of Nursing and Health Professions are upper division transfer and graduate colleges open to college juniors, seniors and graduate students. High school seniors may apply for early admission to most programs.

Take a tour at suny.edu/upstate

249 Undergraduates • 4:1 Student to Faculty Ratio • Student Housing Available

College of Optometry
The College of Optometry is a leader in education, research and patient care, offering the Doctor of Optometry degree as well as MS and PhD degrees in Vision Science. The College strongly embraces its public service mission by providing eye care services through its University Eye Center.

Take a tour at suny.edu/optometry

408 Graduate Students • 66 Full-Time Faculty
Agriculture and Life Sciences
CALS is the only college of agriculture and life sciences in the Ivy League and the second-largest college at Cornell. The College offers over 20 majors in four areas: food & energy systems; life sciences; environmental sciences; and social sciences.
Take a tour at suny.edu/cornell-cals
3,780 Undergraduates

Human Ecology
The College of Human Ecology is leading the study of human life from scientific, social and design perspectives. Students delve into the liberal arts and apply their expertise in fields such as business, design, health/medicine, law, public policy and research.
Take a tour at suny.edu/cornell-humec
1,220 Undergraduates

Industrial and Labor Relations
ILR is the only undergraduate school of its kind in the Ivy League. The School has a unique program that uses the social sciences to focus on work, employment, and labor policy issues and practices of national and international significance.
Take a tour at suny.edu/cornell-ilr
977 Undergraduates

Veterinary Medicine
The College of Veterinary Medicine is recognized internationally as a leader in public health, biomedical research and veterinary medical education. The DVM program is comprised of four years of graduate study and includes clinical rotations in the Cornell University Hospital for Animals.
Take a tour at suny.edu/cornell-vet
428 Professional Students
The College at Brockport
Brockport is one of the most engaged college campuses in the country. Students enjoy a small college-town atmosphere and easy access to Rochester’s culture and shopping. Rigorous programs in such areas as the sciences, mathematics, business and dance are complemented by a rich array of professional programs.

Take a tour at suny.edu/brockport

Buffalo State
Each year, nearly 10,000 students choose Buffalo State for its broad array of high-quality and distinctive academic programs, diverse and creative environment, hands-on learning opportunities, affordable SUNY tuition, and location in the heart of Buffalo’s cultural corridor.

Take a tour at suny.edu/buffalostate

SUNY Cortland
SUNY Cortland ranks high among Money magazine’s “Best Colleges for Your Money” for good reason: 67 strong academic majors from biomedical sciences to business economics, $300 million in campus renovation and a commitment to career success.

Take a tour at suny.edu/cortland

8,082 Undergraduates • 17:1 Student to Faculty Ratio • Student Housing Available

7,057 Undergraduates • 17:1 Student to Faculty Ratio • Student Housing Available

6,343 Undergraduates • 17:1 Student to Faculty Ratio • Student Housing Available
SUNY Fredonia
Fredonia is a comprehensive, public, liberal arts university in western New York. On its beautiful residential campus, Fredonia gives you the academic challenges of a selective university committed to developing your character and preparing you for a rewarding career.

Take a tour at suny.edu/fredonia

4,431 Undergraduates • 14:1 Student to Faculty Ratio • Student Housing Available

SUNY Geneseo
Geneseo is a selective, residential liberal arts college located in one of the most beautiful villages in upstate New York. The college attracts some of the most talented students from New York and beyond and is widely regarded as a public counterpart to the small, selective, private liberal arts college.

Take a tour at suny.edu/geneseo

5,494 Undergraduates • 19:1 Student to Faculty Ratio • Student Housing Available

SUNY New Paltz
New Paltz is a highly competitive, four-year college that delivers an extraordinary number of undergraduate majors. The college’s programs provide a rigorous education while promoting experiential learning and a vast amount of research opportunities. New Paltz is committed to preparing the students of today for the jobs of tomorrow.

30+ Onsite Locations • 1 SUNY Empire Online • 9,327 Undergraduates

**Frequently Asked Questions**

**Q** How do I apply?

A Fifty-three of our 64 campuses accept the SUNY application found at suny.edu/applysuny. In addition to your application, many campuses recommend or require a supplemental application. The supplemental application typically contains questions about your activities, as well as an essay question. To view campus requirements for supplemental applications, visit suny.edu/suppapps. You must also send your academic record. Once you submit your SUNY application, the Application Services Center will process your information and transmit it to each campus you select. You can track the status of your application in the applySUNY portal. Each campus will then contact you to let you know if any additional items are required to complete your application. An admission decision will be communicated to you by each campus to which you apply.

**Q** Is there a fee to apply to SUNY?

A Yes, there is a non-refundable application fee for each campus choice. The application will not be processed until full payment or authorized fee waiver request is received.

**Q** When is the deadline to apply?

A November 1 is the earliest application deadline for Early Decision and November 15 for Early Action. While there is no formal application deadline for regular decision freshman applicants, we recommend you apply by December 1 to maximize your chances for financial aid, campus housing and consideration for your major of choice. Please note, some colleges have specific application deadlines for certain programs of study. Transfer applicants are generally reviewed on a rolling basis. Be sure to be in touch with campuses directly to get deadline information for supplemental applications, auditions, art portfolios, etc.

**Q** What is the difference between Early Decision and Early Action?

A Both Early Decision (ED) and Early Action (EA) are early application/notification admission programs. The difference is in the application deadline and the binding nature of the program. Early Decision is a binding program which is appropriate if you have a clear first choice campus. You may apply to only one campus as an ED candidate. If admitted, you will be expected to withdraw applications at other colleges. Early Action is non-binding. You may apply to multiple campuses as an EA candidate and you will have until May 1 to declare your enrollment intentions.

**Q** When will campuses notify me of the admission decision?

A Decisions will be made for Early Decision applicants in December and for Early Action applicants in January. Many campuses respond to regular decision freshman applicants on a rolling basis, meaning when an application becomes complete, it will be reviewed and a decision will be made and communicated to the applicant. A few campuses have a set mailing date when most admission decisions are sent to the applicants. Transfer applicants are generally reviewed on a rolling basis. Check with the campus(es) to which you apply for specific information regarding the decision-making process.

Living in the State of New York provides a vibrant backdrop for your college education. Our 64 colleges can be found amid some of the most diverse landscapes in the world—from the Atlantic shores of Long Island and the skyscrapers of Manhattan to the mountains and lakes of upstate New York.

The state—and New York City in particular—is the center of much of the country’s economy and finance. New York State’s economy ranks among the largest in the world and provides SUNY students with unparalleled opportunities for internships, professional networks and ultimate career success.

New York is also considered by many to be the cultural capital of the country. Whatever your interest—from museums and art galleries to major league sports or American history—you will discover venues to pursue those interests in every region of the Empire State.
