

## How YOU can HELP!

Consider donating money or food. Volunteer your time if you can. Share this information with families who may need help. Do what you can to help our more vulnerable families during this pandemic.

Below is a list of local and national organizations working to help families who are being hardest hit financially. For local agencies, make sure to call ahead before making a drop off as they may have new safety procedures and/or limited drop off times or separate locations, etc.

Most importantly. **STAY HOME** if you can. **STAY SAFE.**
