

## **Westlake Middle School Health Office**

June 2017

Dear Parents/Guardians,

It is required by New York State Educational Law that all students entering Grade 7 receive a physical examination. It is recommended that your family physician perform this examination since he/she is familiar with your child's growth, medical history and immunizations.

In order to comply with the state mandate, a physical dated on or after September 5, 2016 must be on file in the Health Office by October 5, 2017, one month after school starts. You may use your physician's form or the Mt. Pleasant Central School District form on the Westlake Middle School website, found under the School Nurse link.

If you have any questions, feel free to call us at 769-8539.

Sincerely,

Dawn McCarrick, RN

Lisa Sinkin-Feldman, RN
